Subject: The Marina

Jon – wanted to drop you an email regarding the recent improvements made to the marina. As you know we live in Whalers Cove and have a front-row seat of the marina and the Bay. We're able to see and appreciate very clearly all the improvements made. Specifically:

- The icehouse and dockmaster roofs look terrific. It's especially good to see the skylights removed from the icehouse. Having a clean roofline increases the aesthetic beauty of the marina.
- The parking lot looks great. Having a more uniform color means a lot when looking out from our balcony.
- The Pier 2 roof looks outstanding now that all of the moss has been removed. I lost count of the number of bags of moss your crew took off the roof. Our balcony looks directly over the roof and seeing a well-kept moss-free roof makes all the difference in our view. I appreciate the city of Bellevue continuing to keep the roof clean and moss-free.

Jon, Patty and I both appreciate your diligence in keeping the marina safe, secure, and beautiful. Please let me know how we can partner with you to keep the marina one of the highlights of Downtown Bellevue.

Best -

Lonnie Pacelli
