Room 1E-113  
Bellevue, Washington

**BOARDMEMBERS PRESENT:** Chair Kumar, Vice-Chair Trescases, Boardmembers Clark Hamilton, Heath, Synn

**BOARDMEMBER ABSENT:** Boardmember Unger

**PARKS/CITY STAFF PRESENT:** Shelley Brittingham, Patrick Foran, Nancy Harvey, Glenn Kost, Shelley McVein, Nathan McCommon (Deputy City Manager), Camron Parker

**OTHERS PRESENT:** Jeri Albertini, Ann Breese, Dan & Marcia Edwards, Douglas Hoople, Bob & Iris Jewett, Harvey Kriloff, Ashley Kaiser, Chris Lona, Peter & Carolyn Maxim, Dave & Sue McCoy, Rob Mikelsons, Pearl Nardella, Dawn Novak, Erin Powell, Ryan Scott (Boys & Girls Clubs of Bellevue), Ginger Switzer, Sue Thomas, Kirsten Wlaschin,

**MINUTES TAKER:** Michelle Cash

1. **CALL TO ORDER:**

The meeting was called to order by Chair Kumar at 6:06 p.m.

2. **APPROVAL OF AGENDA:**

**Motion by Vice-Chair Trescases and second by Boardmember Synn to approve the meeting agenda as presented. Motion carried unanimously (6-0).**

3. **APPROVAL OF MINUTES:**

**Motion by Vice-Chair Trescases and second by Boardmember Hamilton to approve the November 27, 2018 meeting minutes as presented. Motion carried unanimously (6-0).**

4. **ORAL COMMUNICATIONS/PUBLIC COMMENTS:**

Ginger Switzer

12649 NE 2<sup>nd</sup> Street, Bellevue, WA

Ms. Switzer is opposed to the proposed fieldhouse project for Wilburton Hill Park. She called attention to the 97 year old forest in Wilburton and the necessity to keep the tree canopy intact. Ms. Switzer also discussed the current parking challenges at Wilburton Hill Park and added that a fieldhouse would only exacerbate the issue.

Ms. Switzer discussed the proposed diagram of the fieldhouse project that was shown at the Wilburton Community Picnic. She said that the diagram was misleading and hopes that any future diagrams are drawn to scale and will depict the trees that will be cut down.

Douglas Hoople

10637 SE 22<sup>nd</sup> Street, Bellevue, WA

Mr. Hoople reminded Boardmembers that Phase 2 of Enatai Beach Park was never completed. This project includes a road to the park that allows for non-motorized boat launching. Mr. Hoople explained that the Enatai community believes it is the perfect time to complete Phase 2 of Enatai Beach Park to complement the other ongoing surrounding projects.

Erin Powell

1015 106<sup>th</sup> Ave. SE, Bellevue, WA

Ms. Powell explained that the Bellecrest Neighborhood Association Board is in solidarity in their support of all of the concerns expressed regarding the proposed fieldhouse at Wilburton Hill Park. Of particular concern are the deforestation and traffic impacts.

Ms. Powell noted that the Mercer Slough Nature Park's access trails are no longer available due to the current construction projects. As a result, people have shifted their desires to experience the nature trails at Wilburton Hill Park. Wilburton Hill Park trails are free and open to the public to enjoy because of the past investments and care that tax payers safeguarded over the years. Ms. Powell feels that a fieldhouse located at Wilburton Hill Park would be a negative impact on the wildlife, trees, ecosystem, peace and enjoyment of the park as a natural area.

Ms. Powell explained that the Hidden Valley Park facility is only 2.1 miles in driving distance from Wilburton Hill Park. She feels that this is an over-saturation of fieldhouse space for the geographic area and suggested that an alternate site closer to the targeted population be considered. Ms. Powell also noted that Kathy Haggert, Boys & Girls Clubs of Bellevue CEO, stated that the Crossroads community is the targeted population for the fieldhouse. She questioned why the fieldhouse would not be placed closer to Crossroads.

Sue McCoy  
126 129<sup>th</sup> Ave. NE, Bellevue, WA

Ms. McCoy recalled promises that were made during the levy process to preserve park spaces. This also included keeping Wilburton Hill Park as green space. Ms. McCoy encouraged Boardmembers and City Council to look into the promises were made to the community and stay true to these promises.

Harvey Kriloff  
12638 SE 7<sup>th</sup> Pl., Bellevue, WA

Mr. Kriloff reviewed the data of Bellevue demographics for residents under the age of 17 and noted that the Wilburton community has the least percentage if this age population, aside from the Downtown community. He suggested that the Sears building be considered as a potential site or that other locations be considered that won't turn open green space into buildings.

5. **COMMUNICATIONS FROM CITY COUNCIL, COMMUNITY COUNCIL, BOARDS AND COMMISSIONS:**

No report.

6. **DIRECTOR'S REPORT:**

No report.

7. **BOARD COMMUNICATION:**

Vice-Chair Trescases enjoyed spending time at the Bellevue Ice Skating Arena at Downtown Park.

Boardmember Heath visited the Bellevue Botanical Garden d'Lights and discussed the parking challenges he experienced at this event. He also recently visited Whistler, British Columbia and discussed a swimming/wellness facility that he enjoyed during his trip. He hopes that Bellevue continues to explore the aquatic center concept.

Boardmember Synn enjoyed the Bellevue Botanical Garden d'Lights event and also visited a few other parks.

Boardmember Hamilton volunteered at the Youth Holiday Party at Crossroads Community Center. He was impressed by so many staff members, including Patrick Alina, Tiberius Puravet, and Gianni Calderon. Everyone that attended the event was treated with care and kindness from the staff.

Boardmember Clark enjoyed spending time at the Bellevue Ice Skating Arena at Downtown Park. He also visited Ashwood Park and suggested that Boardmembers tour Wilburton Hill Park in preparation for any fieldhouse discussions.

8. **CHAIR COMMUNICATION & DISCUSSION:**

Chair Kumar enjoyed the Youth Holiday Party at Crossroads Community Center. She commended the Crossroads Community Center staff for such a wonderful event. Chair Kumar also reported that she will be attending upcoming workshops to rename the Eastside Rail Corridor as well as preview designs for the Eastside Rail Corridor ridge. She will provide reports as needed to Boardmembers. Lastly, Chair Kumar visited Wilburton Hill Park.

9. **BOARDMEMBER/COMMITTEE/LIAISON REPORTS:**

No reports.

10. **DISCUSSION/ACTION ITEMS:**

A. **Potential Boys & Girls Clubs of Bellevue Fieldhouse Partnership**

Mr. Foran provided an overview for the proposed Boys & Girls Club of Bellevue (BGCB) Fieldhouse Process Map. He reminded Boardmembers that Council directed the Parks Board to prepare a process map to determine if the city should further proceed with this concept. Mr. Foran inquired if the proposed map reflects the appropriate decision points and correct sequence. Due to workload constraints, Mr. Foran also proposed a revised timeline for the process.

Chair Kumar, along with Boardmembers Hamilton, Clark, Synn, and Vice-Chair Trescases expressed their overall support and approval of the process map.

Boardmember Heath suggested that a box be added at the beginning of the process to hear from the BGCB so they can confirm their commitment to the fieldhouse project. He is concerned about the turmoil within the community and thinks the BGCB should confirm their interest before any steps of the project proceeds. Vice-Chair Trescases noted that it may be difficult for the BGCB to confirm their commitment level without the project being identified for capital campaign purposes. Mr. Foran suggested that the BGCB partnership be discussed under the “partnership structure” portion of the process map.

Boardmember Heath asked why other sites are being considered if the BGCB has already worked with staff to develop a preliminary proposal for Wilburton Hill Park. On the contrary, Chair Kumar thought that the BGCB had a wider net of locations that they were considering and that a specific site had not yet been determined. Boardmember Heath does not feel that the process is balanced or consistent. Vice-Chair Trescases thought that the initial proposal specified Wilburton Hill Park for the fieldhouse. Then, Council provided direction for the Parks

Board to establish a process to evaluate community need, public benefit, and site identification (if the community need and public benefit criteria are validated).

Boardmember Heath requested that the BGCB confirm their support of the fieldhouse project prior to evaluating the community need or public benefit. Mr. Foran explained that it is premature to ask the BGCB to commit to the project prior to determining the community need or public benefit.

Boardmember Synn requested clarification on the process that was used for the BGCB/Hidden Valley Park partnership. He suggested that the process be applied to the fieldhouse proposal and that lessons learned also be considered. Mr. Foran noted that although the projects may seem similar, each project is unique because they have their own set of circumstances. Vice-Chair Trescases reminded Boardmembers that there was information in the November Board Packet that provided historical information about the BGCB/Hidden Valley Park partnership

Boardmember Hamilton reminded Boardmembers that the proposed process map is intended to be at a high level. If more detailed steps need to be added after the process map has been approved, the Board will be able to do so.

Boardmember Clark requested further clarification about staff's bandwidth. Mr. Foran noted that the fieldhouse project will be very time consuming. Boardmember Clark questioned if the fieldhouse project should be a higher priority than Ashwood Park or other already scheduled park projects.

Vice-Chair Trescases asked staff to clarify the primary purpose of Hidden Valley Park Fieldhouse. Mr. Foran noted that Hidden Valley Park Fieldhouse's primary public benefit from the City's point of view focuses on adult programming, during the hours that the BGCB doesn't use the facility to provide programming for youth.

Boardmember Synn suggested that the proposed process map include touchpoints between each phase of the process and include threshold questions so that the Board would know when it is ready to advance to the next step.

Boardmember Heath requested that another step in the process map be added to ask Council to define the scope of the project. He added that Council did not make a formal motion for the Parks Board to create a process map and requested that they approve a formal Resolution before any further action be taken. He also would like to ask Council if they want the Parks Board to evaluate Wilburton Hill Park as a starting point for the fieldhouse project or should the Parks Board evaluate all potential sites. Boardmember Heath called attention to an email submitted by Boardmember Unger that highlighted specific questions. Other Boardmembers were in agreement that Council has already provided their direction to the Parks Board and a formal motion from Council is not necessary.

Boardmember Hamilton views the Council's direction as very clear. He supports the proposed process map because it emphasizes the importance of community input. The process is the guide to answering if there is value in joining the BGCB to build an indoor athletic facility.

Boardmember Hamilton thinks the proposed process map ensures that all voices are heard and all relevant details are gathered. The process is proof of the Board's desire to conduct a thorough competent review, and the Board is qualified to conduct such a review and to provide the Council with a thoughtful recommendation. Boardmember Synn agreed with Boardmember Hamilton's comments, noting that once the overall process map is determined it can essentially be applied to any project.

Boardmember Heath would like any response to Council to stress that the project is not focused solely on Wilburton Hill Park. Vice-Chair Trescases clarified that the proposed process map allows for multiple sites to be considered but Wilburton Hill Park cannot be ruled out at this time. Mr. Foran added that if community need and public benefit are affirmed and the project moves forward, the 'Site Identification' process allows for 'Additional parameters/sites'.

Boardmember Heath explained that he spent many hours researching the BGCB fieldhouse project. He recommended that the process include a way of working through different available products. He also suggested that the city evaluate and consider non city-owned and private properties. Boardmember Heath added that Council and the Parks Board are making an exception for a private party. The goal should be to integrate the fieldhouse into the long-term plans that the city is currently developing.

Boardmember Synn reminded Boardmembers that Council asked the Parks Board to complete a process map for the fieldhouse project. Therefore, this task needs to be completed. Vice-Chair Trescases added that it is not the Parks Board's job to be working on behalf of the BGCB to identify and establish private partnerships for their fieldhouse project.

Boardmember Heath stressed the importance of inventorying all comments that have been received regarding the fieldhouse project. Mr. Parker confirmed that all comments are being cataloged. Boardmember Heath feels the proposed process is not the appropriate process for the project.

**Motion by Vice-Chair Trescases and second by Boardmember Hamilton to approve the proposed BGCB Fieldhouse Process Map as discussed with the following edits:**

- **Adjust the proposed timeline**
- **Add clarity to the Community Need and Public Benefit processes about the BGCB commitment**
- **Add touchpoints after Community Need and Public Benefit**

Boardmember Heath expressed dissatisfaction with the overall process for creating the Process Map.

Boardmember Synn suggested that the name of the BGCB Fieldhouse Process Map be changed to reflect the BGCB partnership. Vice-Chair Trescases explained that Bellevue already has partnerships with the BGCB and the discussion is regarding a partnership for a fieldhouse. Therefore, she recommended keeping the name as proposed.

**At the question, motion carried (5-1).**

B. Park Construction Projects Update (Surrey Downs & Meydenbauer Bay Parks)

Mr. Kost provided a project update for Surrey Downs and Meydenbauer Bay Parks. Aerial photos were shown marking some of the progress of each project. Construction of Surrey Downs Park is nearly complete with a target opening of second quarter 2019.

**Motion by Vice-Chair Trescases and second by Boardmember Clark to extend the meeting until 8:40 p.m. Motion carried unanimously (6-0).**

Construction of Meydenbauer Bay Park should be complete in Spring, 2019. A soft opening is anticipated for the beginning of March, 2019.

11. **NEW BUSINESS:**

None.

12. **PROPOSED AGENDA FOR NEXT MEETING:**

The February meeting agenda will include the following items:

- Update on Bellevue's Environmental Stewardship Initiative
- Visit Bellevue Tourism Economic Development Study

Boardmember Hamilton discussed some information that he recently received from Jurassic Parliament regarding parliamentary procedures and Robert's Rules of Order.

13. **OTHER COMMUNICATIONS:**

- A. CIP Project Status Report
- B. Email from Chris Lona re proposed fieldhouse
- C. Email from Dawn Novak re proposed fieldhouse
- D. Email from Dave McCoy re proposed fieldhouse
- E. Email from Diane Switzer re proposed fieldhouse
- F. Email from Daniel Renn re proposed fieldhouse
- G. List of upcoming Parks special events

14. **ORAL COMMUNICATIONS/PUBLIC COMMENTS:**

Chris Lona

12424 NE 2<sup>nd</sup> Street, Bellevue, WA

Mr. Lona asked if there would be a fee required to use the proposed fieldhouse. He also asked if there is currently a fee charged to use the Hidden Valley facility. Lastly, Mr. Lona asked if there is currently a cloud over the fieldhouse process, since Wilburton Hill Park has been the primary focus.

Dawn Novak

618 124<sup>th</sup> Ave. NE, Bellevue, WA

Ms. Novak expressed her appreciation to Boardmembers for their community service. She asked that all sites be considered for the proposed fieldhouse project and that one of the guiding principles be to preserve the tree canopy.

Erin Powell

1015 106<sup>th</sup> Ave. SE, Bellevue, WA

Based upon Councilmember frustrations and the disheartening process for the homeless shelter, Ms. Powell requested that Wilburton Hill Park be removed from consideration for the BGCB fieldhouse project. The project is not consistent with what the neighborhood wants, which is a park with nature trails and a natural park that is beloved by its neighbors.

Ms. Powell suggested that Boardmembers consider North Bellevue Community Center as a preferred site for the proposed fieldhouse. This site is mentioned in the Bellevue Parks & Open Space System Plan as lacking a gymnasium. Ms. Powell encouraged Boardmembers to be creative and find a win/win solution for all.

15. **ADJOURNMENT:**

**Motion by Boardmember Synn and second by Boardmember Hamilton to adjourn the meeting at 8:39 p.m. Motion carried unanimously (6-0).**

# MEMORANDUM

Bellevue Parks &  
Community Services

DATE: March 12, 2019

TO: Parks & Community Services Board

FROM: Colin Walker, Department Marketing Administrator, 452-7248

SUBJECT: Visit Bellevue Washington Update  
*(Information only; no Board action requested)*

At your February meeting, Brad Jones, Executive Director of Visit Bellevue Washington (VBW), will provide an update on the organization's activities. In 2011, Council named VBW as the official destination marketing and management organization for the City of Bellevue. The organization's work supports City Council Priority #2: *Actively pursue business retention and growth at the local level, including diverse small, medium and large business with an emphasis on high-tech, tourism and international trade.*

VBW is at the brink of an exciting new phase; recently expanded hotel inventory, restaurants and developments throughout our community represent new opportunities. Mr. Jones will share the *Visit Bellevue Strategic Vision 2020* (attached), recently endorsed by the VBW Advisory Committee, and provide the Board with an overview of the organization's strategic priorities: attracting visitors to Bellevue, maximizing visitor spending, branding Bellevue as a destination, enhancing the Bellevue visitor experience, and managing the Destination Development Plan.

Parks & Community Services staff actively participate in the organization's planning and operations, including membership on the VBW Advisory Committee. In addition, Bellevue's parks, programming and events factor heavily into the organization's tourism promotion strategies. Department staff regularly work with VBW to promote activities and experiences – both free and paid – which are accessible to visitors, and VBW often features Bellevue's parks in its advertising collateral and visitor guide.

Mr. Jones joined VBW in September. Prior to moving to the Pacific Northwest, he served for thirteen years as the executive director and CEO of Experience Rochester (Minnesota) and ten years prior to that as executive director of the Mackinaw Area (Michigan) Visitors Bureau.

## STRATEGIC VISION 2020

**PREPARED FOR**  
CITY OF BELLEVUE,  
PARKS & COMMUNITY SERVICES

**PRESENTED BY**  
BRAD JONES  
Executive Director

# ABOUT BELLEVUE, WASHINGTON

---

Bellevue, Washington is an incredible city, and promoting it as a visitor destination is both exciting and rewarding. Our region is known far beyond its borders as a first class domestic and international visitor destination. Our region is renowned for its pacific coast, mountain and maritime recreation, high quality hotels and restaurants, economic and corporate headquarters, high quality of life, shopping, and unique people.

Tourism and hospitality is a critical industry to Bellevue and Washington State. Visit Bellevue is at the brink of an exciting new phase: recently expanded hotel inventory, restaurants, and developments throughout our community represent new opportunities. The hospitality industry is a key pillar in our economic development and working together is the only way to leverage our growth and elevate our destination to its full potential.

## STRATEGY. GROWTH. SUCCESS.

Despite sustained growth in Bellevue's tourism and hospitality industry, our stakeholders are seeking more business on weekends and during shoulder periods. We have also seen a significant increase in regional supply that is having a measurable effect on Bellevue and its businesses. Increased marketing to draw more visitors to Bellevue can be realized with a strong, focused, financially sound and effective Visit Bellevue. To this end, we must focus attention on our strategic priorities and manage Bellevue as a destination.

This is not a marketing plan. Rather, it is a strategic road map to identify and take action on the critical tourism and hospitality industry opportunities that will drive Visit Bellevue forward for the next two years. Partnerships, along with a broader, collaborative approach, will be central to the delivery and success of this strategy. To lay the foundation for our future successes, we'll continue to work with local leaders, community partners, and industry associations to surpass our goals and objectives.

# OUR GUIDING PRINCIPLES

## WHO WE ARE

Visit Bellevue Washington serves as Bellevue's official Destination Marketing and Management Organization (DMMO).

## MISSION

Visit Bellevue stimulates economic growth and development by increasing visitor and convention business and inspiring memorable visitor experiences.

## VISION

To make Bellevue Washington's visitor economy a \$1 billion industry by the end of 2020.

# STRATEGIC PRIORITIES

---

## ATTRACTING VISITORS TO BELLEVUE

Visit Bellevue will remain focused on its number one priority of generating demand for the destination. Visit Bellevue activities will always be focused on generating customers for the destination through Convention Sales, Visitor Marketing Programs, Festivals & Events, Public Relations & Innovative Communications programming.

## MAXIMIZE VISITOR SPENDING

Growing the volume of visitors to Bellevue is our number one strategy but it is also important for Visit Bellevue to focus on growing revenue, addressing seasonality, lengthening duration of stay and diversification of visitor type. We will accomplish this through visitor services, communications, curation of content and maximizing attendees at conventions and events.

## BRANDING BELLEVUE

Defining Bellevue's brand essence, position strategy to the world and providing a platform that inspires and raises the visibility of Bellevue as a visitor destination with a collaborative marketing and sales platform that is creative, authentic, unique, inclusive, friendly and unpretentious.

## ENHANCING THE BELLEVUE VISITOR EXPERIENCE

We will collaboratively and strategically strive to bolster the visitor economy by bringing all visitor sectors together to create positive memorable visitor experiences at every Bellevue touch point. We will continually measure and monitor the Bellevue visitor experience and we will use this knowledge to address product gaps, create ongoing training and communication towards improving and delivering better visitor experiences. Visit Bellevue event services will provide planning assistance, attendance building, attendee engagement and insure Bellevue is aligned to event needs and expectations.

## MANAGING THE DESTINATION DEVELOPMENT PLAN

The Destination Development Plan will improve Bellevue's ability to attract visitors and new businesses to the city. The plan will support future infrastructure improvement, economic growth, enhance the visitor experience and spur employment growth.

# TARGET AUDIENCES

---

To ensure that we remain focused and efficient, Visit Bellevue will understand and define each of our intended opportunity audiences that will enable us to achieve our strategic priorities. These audiences will be further developed and defined as part of the brand platform, strategy and future marketing plan.

## VISITORS

- Convention Meetings & Corporate Event Attendees
- Business & “Bleisure”
- Food, Culinary & Wine
- Shoppers
- Weekend Getaways
- Pacific Northwest & Seattle Regional Leisure Visitors

## CONVENTION, MEETING & EVENT PLANNERS

## RESIDENTS (COMMUNITY)

- Hospitality Industry Professionals & Front-line Staff
- Community Leaders (Thought Leaders and Influencers)

# STAKEHOLDERS

In order to be effective in destination marketing & management Visit Bellevue believes in a collaborative working partnership. Visit Bellevue will listen, understand and align its strategy. This will ensure effective and efficient leveraging of resources and provide focus toward important shared priorities, goals, and objectives.

- Hospitality Industry (Hotels, Restaurants, Attractions, Venues)
- Bellevue Convention Center Authority
- Meydenbauer Center
- City of Bellevue
- Industry Associations
- Regional Partners (Surrounding Cities & DMMO’s)
- Local Influencers (Companies, Thought Leaders, Groups, etc.)

# KEY PERFORMANCE INDICATORS

It is important for Visit Bellevue to develop, communicate and bring understanding to our key performance indicators on an ongoing basis. Focusing our resources against the measures that can meaningfully communicate the accomplishment of key goals and assess whether we are on target as we work towards those priorities is essential.

- Visitor Spending
- Economic Impact of Visitors
- Number of Visitors to Bellevue (Overall Overnight Visitors, Visitor Inquiries & Visitor Engagement of Marketing and Communications)
- Lodging (Revenue, TOT, Occupancy & ADR)
- Sales (Economic Impact, Revenue & Room Nights Booked)
- Visitor Experience

SUBJECT: Community Services Planning Overview  
*(Information only; Board action not requested)*

The Parks & Community Services Department provides a wide spectrum of services to the community. As we are nearing re-accreditation in 2020, we are providing an update to the Parks & Community Services Board on the types of services offered within department, specifically within Community Services. We are also providing brief information on a number of new plans and updates to existing plans. Each of these plans will be coming back to the Board at a later date for a fuller presentation and to seek input and/or endorsement.

**The Continuum of Services: Achieving a Common Focus across Diverse Programs and Services**  
Bellevue Parks & Community Services combines parks, recreation, and cultural arts functions with community service functions including adult misdemeanor probation and funding for human service programs. The integration of these services creates a rich environment, full of opportunities for collaboration. It represents a fundamental strength of Bellevue's approach to community building.

The term "Continuum" helps describe the dynamic nature of our Mission of building a healthy community. This model recognizes that individuals and the physical environment are constantly in motion, at various stages of growth or development and sometimes decline. The Continuum describes a fluid condition ranging from the need for intervention to prevention to opportunities for enhancement. Our strategy is to align resources along this Continuum and create pathways that help navigate toward sustained enhancement.

As a management tool, the Continuum of Services Model provides a framework to:

- Reinforce the power of collective impact; the whole is greater than the sum of the parts.
- Identify how each of us fits within the whole to achieve our Mission.
- Craft clear pathways for movement toward enhancement.
- Evaluate the relevancy and effectiveness of the deployment of resources along the Continuum and make adjustments as necessary.
- Identify and leverage the interconnections among the resources arrayed along the Continuum.
- The Continuum of Services Model helps keep us focused on and aligned with our Mission.

In support of our department’s Community Services work, the following plans have either recently been updated, or will be completed/updated soon:

**Choices for People with Disabilities Plan**

The Choices for People with Disabilities Plan provides an outline of recreational choices available for residents with disabilities. The Plan describes the process that Parks & Community Services uses to support the inclusion process and adaptive recreation, thereby encouraging those living with disabilities to participate in the programs of their choosing. The Choices Plan was drafted after reviewing the needs of Bellevue citizens and researching inclusion plans from across the United States. Development of the choices Plan included a review of the City of Bellevue’s legal responsibilities regarding access and accommodations, discussions with program participants regarding acceptable modifications, as well as the review of inclusion models across the nation.

**Department Diversity Strategic Plan**

In 2014, the City of Bellevue adopted the Diversity Advantage Plan. As a key element to implement the 60 recommendations from the Diversity Advantage Plan, the City requires each department to develop a corresponding Diversity Strategic Plan. Parks & Community Services is

in the process of finalizing the department's Diversity Strategic Plan, which internalizes the recommendations from the Diversity Advantage Plan. The Department's Diversity Strategic Plan implements the following objectives:

- Examine current policies, practices, and procedures as it pertains to diversity and equity related issues.
- Incorporate strategies and best practices developed under the Diversity Advantage Plan as guiding principles for the mission and vision of all Parks & Community Services work plans.
- Develop and cultivate a department culture that understands and reflects the incorporation of equity and the celebration of diversity as standards. These standards are in conjunction with providing high quality programs and services for all communities and groups in Bellevue.

The Parks & Community Services' Diversity Strategic Plan will serve as guiding principles for the department's work plan and best practices for programs, policies, planning, and services.

### **Human Services Needs Update**

Bellevue's Human Services Needs Update is an analysis of the health and human services trends and issues that affect the quality of life of Bellevue residents. It was first developed in 1989 and is updated every other year. The Needs Update is a compilation of qualitative and quantitative data from a wide variety of sources; i.e. community survey, community conversation, key informant interviews, and reviewing reports, such as the American Community Survey and Census data. The Needs Update is used by the Human Services Commission to guide the recommendation for allocation of our Human Services Fund and Community Development Block Grant to the City Council. The Human Services Division staff use the document to direct our work and forecast how the city can prepare for changes in human services.

### **Recreation Program Plan**

Bellevue Parks & Community Services is one recreation provider among many in the City of Bellevue. The Recreation Program Plan defines the City's role as a recreational provider in this system. First developed in the late 1990s, the plan is updated every 5 years and establishes priorities to guide the investment of public resources in support of recreation programs. For the 2020 plan update, staff are working to expand the breadth of the plan's scope to integrate principles of equity, access, and inclusion and to more fully describe the department's work in community services.

### **Strategic Plan**

The Parks & Community Services Strategic Plan establishes the vision, mission, guiding principles, and strategic goals that guide our work department-wide and direct our annual work plans. The Strategic Plan serves a pivotal role by integrating policy guidance from city- and department-level plans and initiatives, and then translating this guidance into a series of actionable steps to inform work planning and assess outcomes. Like the Recreation Program Plan, the Strategic Plan is revised every 5 years with an update due in 2020.

## **PARKS CIP PROJECT STATUS REPORT February 2019**

### **Aquatic Center Study**

The team is preparing a site analysis and assembling and analyzing information about the various program components of an aquatic facility, including competitive, therapeutic, recreational and health & fitness. We continue ongoing communication with SplashForward, who has provided valuable information to assist our research efforts. The staff will also meet again with representatives of Bellevue College to again determine their level of interest in partnering on this facility.

### **Ashwood Park Master Plan Update**

A request for qualification has been prepared to solicit the services of a design team to work with us to conduct public outreach and prepare a plan. We expect to have a consultant team on board and begin the public outreach in the second quarter of 2019.

### **Bannerwood Park**

The batting cage roof has been installed, but the clubhouse building is delayed until after the season.

### **Downtown Park – NE Gateway**

At long last, we have a contract with the artist, who has scheduled a site visit in early April. We are proceeding with the site design and alley vacation process. Once the public art component has been more fully vetted, we will schedule a joint Park Board/Arts Commission meeting to present the plan and request a joint recommendation to the Council.

### **Hearing Assistance for Public Spaces**

Consistent with Council goals, the staff has initiated a feasibility study, conducted by Greenbusch Group, to determine the hearing assistance needs for the large meeting spaces in our community centers. The study includes Highland, South Bellevue, North Bellevue and Crossroads Community Centers as well as the Botanical Garden Visitor Center. When complete, the spaces will be prioritized and a determination made as to which spaces can be completed within available funding. Parks staff is working with the City's ADA coordinator.

### **Meydenbauer Bay Phase 1 Park Development**

Park construction is complete, and the staff is now readying the site for the March 16 Grand Opening. Informational and regulatory signs will be installed, a parking plan developed, and the Whaling Building renovation will be complete. Punchlist items and final permit approvals will extend into March. Staff is finalizing a contract with a vendor to manage the boat concession this summer in the Whaling Building.

### **Newport Hills Park**

Work is underway on the planning, design and construction of a neighborhood park in the Newport Hills neighborhood. Initial contact has been made with the nearby homeowners associations, and we expect to conduct public outreach throughout the spring to determine the neighborhood aspirations for their park. This will be followed by design and construction of the park, which we hope to complete by late 2020.

## Park & Natural Areas Levy Projects Summary

- **Synthetic Sportsfield at Wilburton Hill Park:** Project complete.
- **Synthetic Sportsfield at Newport Hills Park:** Project complete.
- **Lewis Creek Park Picnic Area:** Project complete.
- **BYT Construction:** Project complete.
- **Bellevue Airfield Park:** Site analysis and initial schematic design is complete. The cost estimates for Phase 1 are significantly over the anticipated budget, so we continue to explore schematic design options and costs to determine the Phase 1 scope of work.
- **Botanical Garden Projects:**
  - **Ravine Garden:** Project complete.
  - **Visitor Center:** Project complete.
- **Neighborhood Parks:**
  - **Bridle Trails/140<sup>th</sup> Ave property acquisition:** Project complete.
  - **Bridle Trails Corner Park acquisition & development:** Project complete.
  - **Newport Hills Tyler/Patterson acquisition:** Project complete.
- **Downtown Park “Complete the Circle” Development:** Project complete.
- **Hidden Valley/Boys & Girls Club Partnership:** Project complete.
- **Lake Sammamish Neighborhood Park:** No activity.
- **Surrey Downs Park Development:** Park construction is complete, with punch-list work continuing into March. Sound Transit still must complete the final sections of sound wall barrier and top safety rail, which they estimate will be complete by the end of March at which time the the park can safely be open. Except for one property, the new boundary fence has been installed. The park should be open for fun and play at the beginning of April with a neighborhood Grand Opening Celebration later in the Spring.

Patrick Foran  
Parks & Community Services  
City of Bellevue  
450 110<sup>th</sup> Ave. NE  
Bellevue, WA 98004

Dear Patrick:

Boys & Girls Clubs of Bellevue would like to thank the City of Bellevue, the Parks and Community Services Board and members of the community who have expressed their support of the Club's heritage of service to all kids in Bellevue.

We do believe there is a need for more indoor recreation space to better serve kids in East Bellevue, but the process that must occur to validate this need and the location will likely take several years with an uncertain conclusion. These are factors we must consider as the funding for the project would be private donations.

Therefore, we are withdrawing our partnership proposal for a new indoor recreation facility at this time in order to continue to explore new ways to meet the indoor recreation needs of Bellevue's youth.

Thank you for your continued support of our partnership.

Sincerely,

Kathy Haggart  
President/CEO

## CITY COUNCIL REGULAR SESSION

Resolution authorizing Resolution authorizing execution of all documents necessary for the acquisition of an approximately 3.5-acre portion of a property located at 5642 Lake Washington Blvd SE.

## EXECUTIVE SUMMARY

This Resolution authorizes acquisition of an approximately 3.5-acre portion of a property located at 5642 Lake Washington Blvd SE. If approved, a boundary line adjustment is required to add this portion of land to adjacent City-owned parkland (Tyler and Patterson Properties) in the Newport Hills neighborhood.

## RECOMMENDATION

Move to adopt Resolution No. 9541

If approved, effective date: 01/22/2019

## BACKGROUND/ANALYSIS

### Background – Property Information

The need for additional neighborhood park facilities in the Newport Hills area has been identified in the Parks & Open Space System Plan for many years. Working toward meeting this objective, five acres on SE 60<sup>th</sup> Street were purchased in 2010 from the Tyler Homes Corporation. This grew to ten acres in 2015 with the acquisition of the neighboring Patterson Property.

The subject property shares its eastern boundary line with the Patterson Property (see Attachment A). It consists of 4.2 acres with one single family home located on the western edge. The property owner has been in communication with Parks & Community Services regarding a possible sale since the Patterson Property was acquired. They desire to have the majority of their property added to the existing park land for future public use and enjoyment. In December 2018, a purchase and sale agreement was signed by the owner, contingent upon review and approval by the City Council.

The proposed purchase and sale agreement is structured such that the City would acquire approximately 3.5 acres of the overall property, not including the home (see Attachment B). The site adds to existing park property and is an attractive location for trail development and natural area preservation as it includes a deep ravine bisected by Lakehurst Creek.

As part of the recently approved budget, the City Council approved funding to develop a new

neighborhood park at this location as part of the 2019 - 2025 CIP budget. This acquisition could complement and enhance the overall impact of that future park development with the additional space and natural features that it offers.

### **Next Steps**

To segregate the portion of the property to be acquired, the City and the current property owner must apply for a Boundary Line Adjustment permit that will be reviewed and approved administratively through the City's Development Services Department. This application will be made only if the proposed purchase and sale agreement is approved by the City Council. Assuming the boundary line adjustment is approved, the property owner will transfer the 3.5-acre area of the property to the City of Bellevue to incorporate into the existing Patterson Property.

## **POLICY & FISCAL IMPACTS**

### **Policy Impact**

#### Comprehensive Plan, Parks, Open Space, and Recreation Element

PA-1. Establish a coordinated and connected system of open space and greenways throughout the city that provide multiple benefits including preserving natural systems, protecting wildlife habitat and corridors, and providing land for recreation.

PA-5. Obtain, for preservation, natural areas that are sensitive to urbanization or represent a valuable natural and aesthetic resource to the community.

#### Bellevue Parks & Open Space System Plan 2016

Capital Project Objective PRK-4: Add Neighborhood Park: Newport Neighborhood Area

#### Bellevue City Code

Under Bellevue City Code 4.30.010, City Council approval is required to purchase property or property rights when the acquisition is not a part of a previously approved project and the purchase price exceeds \$25,000.

### **Fiscal Impact**

Adopting this Resolution obligates the City to a one-time payment of \$220,000 for the land plus related costs for escrow and completing the boundary line adjustment. This acquisition is funded by CIP Project P-AD-82, Parks and Open Space Acquisition, with 50 percent of the acquisition reimbursed by a grant secured from the King County Conservation Futures Program (KCCF Amendment O, approved under Ordinance 6371). The acquisition was anticipated, and sufficient funding exists within the CIP project.

## **OPTIONS**

1. Adopt the Resolution authorizing execution of all documents necessary for the acquisition of an approximately 3.5-acre portion of a property located at 5642 Lake Washington Blvd SE.
2. Do not adopt the Resolution and provide alternative direction to staff.

**Subject:** 2018 Volunteer Program Brief: Natural Resource and Resource Management Divisions

**INTRODUCTION**

The Bellevue Parks Natural Resource and Resource Management Divisions oversee a comprehensive volunteer program designed to provide opportunities for citizens to participate in the stewardship of park natural areas. From one-time volunteer projects to partnerships with organizations with similar missions, we seek to provide opportunities for all citizens regardless of their age, ability, experience, or desired time commitment.

Our divisions coordinate a wide variety of opportunities for meaningful volunteerism: Groups contribute year-round at Eco Fridays, Stewardship Saturdays, and at our annual Arbor Day-Earth Day volunteer event; our partner organizations’ volunteers extend our reach; and individual citizens engage as Master Naturalist, Trail Steward, Habitat Steward, and Canoe Guide Naturalist volunteers.

**PARTNERSHIPS**

We coordinate partnership agreements with organizations that have similar missions and goals including the WSU Master Gardeners, Eastside Heritage Center, and Pacific Science Center. These organizations have long-term volunteers with technical expertise, requiring little training or oversight of daily activities. Below is a table illustrating the volunteer engagement by our programming partners during 2018.

<b>Partner Organization</b>	<b>Volunteers</b>	<b>Hours</b>	<b>\$ Value</b>
WSU Master Gardeners	233	2,842.25	\$ 86,575.03
Eastside Heritage Center	64	1,670.50	\$ 50,883.43
Pacific Science Center at Mercer Slough	98	6,751.00	\$205,635.46
	395	11,263.75	\$343,093.92

**MASTER NATURALISTS & PARK STEWARDS**

We work with long-term volunteers who either have, or are provided, significant training to ensure effective delivery of services. The Master Naturalist Program is an intensive training framework that provides training in exchange for services. After successful completion of training, volunteers become Park Stewards that can deliver environmental education programs, help staff visitor centers and special events, participate in environmental restoration projects, and provide maintenance and monitoring of completed restoration projects. Bellevue Parks is one of only a handful of parks departments in the country that provides this type of comprehensive training to increase the understanding and appreciation for the function and values of urban natural systems. The table below highlights the work of our Master Naturalist and Park Steward volunteers during 2018.

Volunteer Type	Volunteers	Hours	\$ Value
Master Naturalist	26	895.25	\$ 27,269.32
Trail Steward	3	86.75	\$ 2,642.41
Habitat Stewards	1	243.50	\$ 7,417.01
Environmental Professionals & Educator	31	54.00	\$ 1,644.84
	61	1,279.50	\$ 38,973.57

## **STEWARDSHIPS SATURDAY & ECO FRIDAYS**

Stewardship Saturdays and Eco Fridays are one-time, hands-on volunteer projects that enable citizens to participate in park enhancement projects regardless of existing knowledge, skills, or ability. Designed to provide a family or team building opportunity, these projects typically cater to one-time volunteer groups. The table below highlights the reach of these events during 2018.

Volunteer Program Area	Volunteers	Hours	\$ Value
Eco Friday & Stewardship Saturday	1240	2,873.75	\$ 87,534.43
Arbor Day-Earth Day	331	608.00	\$ 18,519.68
	1571	3,481.75	\$106,054.11

## **ENGAGING THE COMMUNITY**

Engaging with the Bellevue community is critical to the long-term health of our park system. The list below includes just some of the groups with whom we partnered to host volunteer projects during 2018:

- Bellevue High School
- Bright Horizons Preschool
- Kimco Realty
- Intel WOS Team
- Symetra
- India Association of Western WA
- Bellevue Big Picture School
- REI
- Columbia State Bank
- ALPS
- Master Builder Association
- Expedia
- Microsoft
- Realtors Environmental Council (TREC)
- Samsung
- RH2 Engineering
- Nayamode
- Open Window School
- Chinook Middle School
- Pacific Science Center LWWIP Program
- National League of Young Men
- First Congregational Church
- Bellevue Ward LDS
- Bellevue Children's Academy
- Willows Preparatory School
- Lake Hills Ward LDS

## CONCLUSION

The Natural Resource and Resource Management Divisions’ volunteer program served the Bellevue community during 2018 by providing meaningful opportunities to connect with the park system, encouraging diverse and widespread citizen participation, creating partnerships to expand service delivery, educating the community on important environmental issues, and creating a social atmosphere of mutual cooperation and trust. We look forward to continuing our partnerships with the Bellevue community during the coming year.

Hello,

As a member of the **International Dark Sky Association**, I thought the Council and the Parks Commission might be interested in their latest newsletter. I call your attention to the article on Community-Friendly Sports Lighting and to the article about France adopting a progressive light pollution policy. Community-Friendly Sports Lighting could be "one small step" for Bellevue toward adopting a Dark Sky Certification. The IDA is dedicated to preserving the night sky for all of us and offers many solutions toward that end.

Thank you,

Just wanted to convey gratitude for the Parks Board in executing its charter to insure the sustainability of the City's Parks for the greater public good and the environment. As it is, we're losing or degrading habitats and green spaces for housing construction, thus it's paramount we guard against any such loss in our Parks.

Thank you,

- March 24 Northwest Perennial Alliance Film Event: “Five Seasons: The Gardens of Piet Oudolf,”** 12:30 p.m. – 2:30 p.m.  
*Bellevue Botanical Garden, 12001 Main Street*  
 Revolutionary landscape designer Piet Oudolf is known for designing public works like New York City’s popular High Line and the Lurie Garden in Chicago’s Millennium Park. These spaces redefine our conception of gardens as works of art in themselves. This gorgeous, meditative documentary immerses viewers in Oudolf’s work, taking us inside his creative process. From his aesthetic theories to his strikingly abstract sketches to the ecological implications of his ideas, the film poetically reveals how Oudolf upends conventional notions of nature, public space and, ultimately, beauty itself. Film begins at 1 p.m.  
**Cost:** \$5 for Northwest Perennial Alliance members; \$20 for non-members.  
**Info:** <http://www.northwestperennialalliance.org/Lectures.php>

- May 18**        **American Crow: The “Feathered Ape?”** 2:30 p.m. – 3:30 p.m.  
*Lewis Creek Park Visitor Center, 5808 Lakemont Blvd SE*  
Do crows “talk” to each other? Can they distinguish peoples’ faces? Where can you see a nightly “river of crows”? Learn about the surprisingly smart American Crow, selected as the Species of the Year for Bellevue Parks. Join the Master Naturalists for a slideshow, activity or game, and a crow-inspired habitat walk around Lewis Creek Park. This is an indoor/outdoor program. **Ages:** Best for children ages 5 to 10 with accompanying adult(s). **Cost:** Free! **Pre-registration:** RSVP required for children and adult participants by 4 p.m. the day before the program. **Info and to RSVP:** [LCVC@bellevuewa.gov](mailto:LCVC@bellevuewa.gov) or 425-452-4195.
- May 19**        **Garden Class: Ferns for All**, 12 p.m. – 2 p.m.  
*Bellevue Botanical Garden, 12001 Main Street*  
Taught by George Lasch. Ferns are ancient and overlooked – despite being everywhere. George will have a list of the best ones and maybe a few to avoid. He will also touch on fern propagation and on the recent popularity of the fern-focused stumpery. Slides and handouts will start the class, followed by a walk and talk in the Garden to appreciate how ferns are used in the landscape. **Cost:** \$25 for Bellevue Botanical Garden Society members; \$35 for non-BBGS members. **Pre-registration:** Required. **Info and to register:** <http://www.bellevuebotanical.org/>
