**Description and Scope**

This proposal relates directly to Council priorities by: (1) developing the conceptual design of a grand linear park/connection from Meydenbauer Bay through Downtown Bellevue to the Wilburton Special Opportunity District including a generous pedestrian/bicycle/open space crossing of I-405; and (2) advances planning for the transformation of the Wilburton commercial district where updated zoning and related development tools are needed.

**Rationale**

This proposal will ensure that the Wilburton area, prime for redevelopment, is planned to grow in a way that realizes the exceptional opportunities inherent to its location between Downtown Bellevue and the Bel-Red Corridor. The grand connection will be a key organizing feature, punctuated by parks, open spaces, arts, and programming that tie together the Meydenbauer Bay Waterfront, Downtown Park, Pedestrian Corridor, Civic Core, Transit Center/Light Rail Station and the Wilburton District. The grand connection and revitalization of the Wilburton area will combine to create unique economic development contributions to the city as well as significant placemaking opportunities.

**Environmental Impacts**

The planning for the Wilburton commercial district will identify and address environmental issues through the scoping and analysis phases of the project. The grand connection originated from the Downtown Livability process, where integrated environmental evaluation was conducted. Project-specific impacts and benefits will be evaluated as the conceptual design is developed.

**Operating Budget Impacts**

None

Rationale

The broadband fiber operating proposal (090.15A) includes additional short-term staffing capacity to work with providers, as well as multiple departments, to use information contained within the 2014 Asset Inventory to directly assist providers to leverage City assets to meet business and residential needs for access and additional bandwidth. This proposal will fund enhancements and minor extensions to the City network which can then be leased to private providers to meet immediate needs and facilitate private expansion, such as upgrading vaults, connections boxes, etc. This CIP proposal funds situations in which limited capital is needed to upgrade or extend existing facilities or CIP projects to meet those needs as identified. Remaining funds, if any, will be used to begin replacement funding for City fiber and network assets.

ITD has been responding to business and Bellevue facility requests, as well as those from key institutional partners such as the Bellevue School District, for high speed data access. This is a coordination and collaboration role that the City plays as facilitator with private property owners and service providers. And a service provider role with other departments needing enhanced bandwidth. This CIP proposal provides modest funds that can be used to support these efforts through nominal upgrades and extensions of existing City capital facilities.

Environmental Impacts

Environmental issues will be minimal and addressed on a location-by-location basis.

Description and Scope

This proposal funds planning and expansion of connectivity infrastructure (fiber and wireless related) in Bellevue. Expanded community connectivity directly responds to the economic development strategies and Council priority related to “high-speed data options for a Smart City”.

Rationale

Expanded connectivity is intended to support and advance the specific objectives identified in the economic development strategic plan and the targeted budget proposal recommended in the City Manager’s budget. It also is intended to support the mobile workforce objectives identified by a number of departments in their operating budget proposals and will provide infrastructure that is essential to promoting Bellevue’s visibility as a “high tech” urban center. High speed connectivity is essential in promoting tourism and the Council vision on Achieving Human Potential. It is also an essential component of the integrated infrastructure necessary to support service delivery needs by the City or in partnership with other providers and/or key community institutions (hospitals, schools, libraries, etc.). The planning effort will define how to achieve these goals as specific locations for expansion are defined. The plan will also align with other CIP and infrastructure projects for the most cost-effective deployment possible.

### Description and Scope

City Council established the Competitiveness and Collaboration CIP project to support the Office of Economic Development. The project will allow the Office to meet its mission to develop and implement sustainable programs that advance job creation and investment, develop human capital, and spur innovation and entrepreneurship in order to build a foundation for prosperity in the community.

### Rationale

This CIP project will be used to undertake projects and activities to support the three main program areas in the Office—business attraction, business retention and expansion and startups and technology entrepreneurs. Examples of projects and activities the fund will support is the SelectUSA 2015 Summit to meet with potential foreign companies and investors interested in investing or establishing a business in the Puget Sound region, sponsoring events and activities to support Bellevue’s technology startup community and updating the economic development webpage and creating marketing material to showcase Bellevue’s economy nationally and globally.

</tr>
</tbody>
</table>

### Description and Scope

This project will fund Partnership Grants with local providers of culture and recreation programs. Specific partners will be determined in early 2015.

### Rationale

Funding for this project provides the City Council with an opportunity to leverage the City’s resources by partnering with local service providers to support and enhance projects that make Bellevue a great place to be with a variety of opportunities for recreational and cultural experiences. The specific partnerships are yet to be determined and will be approved by the City Council.

</tbody>
</table>

Description and Scope

This project provides placeholder funding to be programed later but could include the development of conceptual design, other amenities (such as plantings or gravel pathways) or purchases along the Eastside Rail Corridor. The final programming of these funds will be addressed by Council. This project will assist in informing City coordination with King County Parks in developing and advancing design options for a trail that address the needs of the multiple agencies with ownership or other secured interest in using the corridor (including Sound Transit, PSE and King County Parks) while also meeting the needs and interests of the Bellevue community.

Rationale

This project assists in assuring that the city’s interests are considered by King County and others in the planning for a regional trail on the Eastside Rail Corridor alignment. The corridor through Bellevue is owned by King County and Sound Transit and crosses multiple city streets and passes through commercial areas and neighborhoods.

Environmental Impacts

A project specific environmental review, consistent with federal requirements, will be made during the project design phase.

### Description and Scope

Performing Arts Center Eastside (PACE) is a not-for-profit 501(c)(3) organization planning a 2,000 seat performing arts Center in Downtown Bellevue, on the southwest corner of NE10th St. and 106th Ave. NE. PACE has asked the City to make an additional, more substantial investment in the performing arts center, named Tateuchi Center. The funding amount in G-104 is intended as a placeholder for a possible larger investment by the City in the future.

### Rationale

Tateuchi Center is intended to provide substantial public benefit to Bellevue and the region, which Council acknowledged in Resolutions 6670 in 2002, and 8695 in 2014. PACE has raised approximately $65 million from private donors and public agencies, including an earlier investment of $2 million from the City of Bellevue, towards a capital fundraising goal of approximately $198 million. City Council Priorities for 2014-2015 include collaborating with regional partners to reach a determination regarding a performing arts center in Bellevue. The funding amount in G-104 is intended as a placeholder for a possible larger investment in Tateuchi Center by the City in the future.
