Subject: FW: Forest Hill Neighborhood Park comments

For Park Board:

Citizen had concerns about unauthorized drop-in use that was occurring at the park. With the citizen's information, we were able to determine who was using the park inappropriately and let them know about the park guidelines. Citizen submitted email of thanks to staff involved this time, but also general praise for Bellevue Parks staff.

Subject: Re: Forest Hill Neighborhood Park concerns

Hi Paula,

Thank you, thank you so much and also to any of your colleagues that assisted in this matter it is greatly appreciated by myself and my neighbors.

I will just also add that in general I'm so impressed with Bellevue parks it is so wonderful to live in a community with such lovely parks in so many locations that are so well cared for. I don't think too many places in the US can say the same so you and your team don't think that you don't have a positive affect on people's lives, you make a difference to so many people's wellbeing.

Best regards,
Holly
