Subject: Thanks for all the help with Benjamin's Eagle Service Project

Alex – thanks for all the help today and over the last several months with Benjamin's Eagle Scout Service Project. I can't believe it's over! Despite the low RSVP number, to have over 30 folks turnout and knock out the project – before lunch – was amazing.

As you well know planning an Eagle project can be a daunting task. Your help made the process go very smooth. Having you and Maurice there this morning was just incredible. The organization and assistance was really fantastic. I just sent out a email blast to Troop 600 with your name and contact information.

We have a number of scouts who are starting the process of planning their Eagle Scout service projects, so hopefully we will get the chance to work with you and the Bellevue Parks and Community Services Department again in the near future.

Please be sure to share my thanks with Maurice as well – he was great working with all the scouts.

Thanks again for everything Alex.
