Subject: request for shrub trimming

Jim Binder called about the drought tolerant roses planted along 140th Ave NE at @ NE 30th Place on the east side of the road. Loves the roses, but says that they are getting too tall, creating a sight line hazard with people trying to get onto 140th. Could someone please check this out and possibly get the height back down? He said to please call if there is any clarification needed. Thank you

We will check it out and respond to Jim.

Thanks,
Mike

Subject: RE: request for shrub trimming

I just received a phone call from Jim Binder and he is very impressed that it was handled in less than 24 hours. He said just the ones that needed the trimming were trimmed and that they look great. He said to tell you-THANK YOU VERY MUCH!! Jan
