Subject: eastgate airport info

To Park Board Members;

http://www.members.tripod.com/airfields_freeman/WA/Airfields_WA_Seattle.htm#bellevue

This is the Web address for the information I found on the old Bellevue Airport. The airport actually did not encompass any part of what is now "Airfield Community Park", but was just to the south of the landfill area, underneath what is now the Microsoft offices.

I know that Master Planning doesn't get into real detail on the final plans, but I sure hope that the Park will have an entry plaza where this historical information, and its history as our last "wildlife meadow" can be displayed and perhaps depicted through the incorporation of statues and other art work that depict its past. I will miss watching the coyotes hunt down the rabbits, a real NW experience that will be lost forever, just like the airport.
