I wanted to let you know about the great work that the Parks Dept. and Transportation (Streets) Dept. do. Last month I contacted Isaac Cunningham with Parks about an access issue to the Wilburton Park area from 128th Ave. Over the years access has been problematic due to standing water in the culvert that runs the length of 128th NE and SE during the wet season. I was just hoping for a few large stepping stones to improve the access. But what our neighborhood received was improvements at 3 access points on 128th Ave that far surpassed my hopes. Attached are before and after pictures of the access at 128th and Main Streets. And the improvement was finished in less than 6 weeks from point of contact with that eager Isaac Cunningham.

Thanks much for the great work of your 2 Departments and especially Isaac for taking it on as his own. After working in State government for 30 years the entire process was refreshing.

Good evening, Mr. Rauh - I'm so glad to hear when the city has done a good job for residents. Thank you for taking the time to credit our outstanding staff members for the job they do. I'm copying our city manager and Department directors so they can pass along this commendation, especially to Isaac.

Isaac,
Great work. Thanks for an overall great experience one of our residents had with the city.

Patrick Foran
