

February 10, 2015

Dear Wilberton Park,

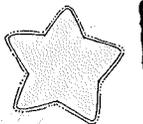

Our third grade class at Somerset Elementary has been working on persuasive writing and writing reviews. We got to choose our favorite place to go along the west coast and write a review about it. Our reviews had to include a detailed description of our favorite place, reasons why we enjoy it, and people we would recommend the place to. We are really excited to send these reviews to your place. We also made a book of our reviews to place in our main office for others to read! We hope you love our reviews.

Sincerely, Thor Gray

Mrs. Teasley's Third Grade Class

One of my
favorite places to go

One of my favorite places to go to in Washington is Wilburton.

There is a soccer field which has so many uses! Also there is a hike and a play ground next to the field.

The thing I like about this place is that it's very active. Also the field is used for many sports like soccer, football, cricket, baseball, lacross, frizbee, vollyball, almost any sport you can think of! And there is a play ground with a zip line. And there is a trail that leads to a place called Botanic Garden.

I recoment this place to someone who likes sports, playing and gardens because if you like those, this is the perfect place to go.

I Rate My Place 4 STARS! ★
