Subject: Great trail marker signs!

Hello-

I was attending the NW Yoga Conference this past weekend which was held at the Embassy Suites in Bellevue (I live in Edmonds.) I wanted to go out and take a walk and I was unfamiliar with the area when I came upon one of your "trail marker" signs. I just wanted to say that I really appreciated them.

In the end I think I ran into about 4 or 5 of them just in the small radius that I was walking and they took me to Robinswood Park. I didn't quite make it all the way, as I had to get back and then saw another sign which took me on a different path back to where I needed to be.

I know that often times people contact the City to complain, but this time I wanted to give you a thumbs up - nice work! Placing all of those signs was a lot of work, I'm sure, but they really make your City a more lovely place to visit and walk.

Lisa from Edmonds
