Subject: Volunteering at the Bellevue Botanical Garden

Dear Council Members,

This is my eighth year of volunteering at the Bellevue Botanical Garden. I co manage the plant database that appears on the Garden website. Just wanted to let you know how much I appreciate the chance to work with beautiful plants and wonderful people. The Garden is truly my sanctuary. And I get to use my skills and share my knowledge of plants and the plants in the Garden with the entire web community. The Garden is a huge asset for the city of Bellevue. Thank you.

Ruth Edwards
