New Comment

Hi Pat Harris ,

[Resident] has posted a comment on your request, Vegetation/Trees:

"I am amazed - I sent a message about Kelsey Creek Park on a Tuesday - and 2 days later "what to my wondering eyes should appear" but 3 trucks, 2 wheelbarrows, 4 workers, 250 native plants, 4 evergreen trees, 4 tall deciduous trees (awaiting their leaves) and yards of topsoil! Thank you! I meant to mark this as 5 stars."

Description

You may not know that at Kelsey Creek Park one of the most enjoyable activities for little children is to walk on those rocks in the little waterway just a few feet west of the playground. In summer months the water is not too deep - so it is a good exercise (and challenge) for them to step from rock to rock. HowEVER - last fall the workers blew all the dead leaves into that "pond" - so it is now an ugly, soggy mess! It would be nice if it could be cleaned up before the Farm Fair on the 25th... right now it looks very uninviting. Thank you. (we live across the street - so we see children every day - and hope the little stream will soon be picturesque once more!)
