These are some neighbors we have been working with for over a year, in conjunction with the police, to address late night and illegal activities at Burrows Landing. Glad to hear they are happy with our assistance.

Subject: A huge thank you!

Bruce and I want to thank you all in your efforts related to the increased patrolling and new drive gate at Burrows Landing. It looks great and certainly sends the message.

The timing is also perfect. This last Friday night there was a group at the park at 2:30 a.m. and another at 2:15 a.m. on Saturday night. On Sunday night around 11:00 p.m., a group of 15-20 arrived in multiple cars. It prompted our neighbors to the north to contact us to see if we knew what was going on. They also said they were awakened over the weekend by the activity at the park. We told them of your plans for the gate and they were absolutely thrilled and asked us to relay their appreciation.

We've submitted the light request into the city, so hopefully we will be able to install a shielded light which should help illuminate the gate, signs and parking area.

Thank you again.

Kind regards,

Carol Kranak
