Subject: Kudos

Good Afternoon:

A great big "Thank You" and Kudos for a job well done on the medians along Highland Drive. The crew from the Parks Department went after the weeds and tall grass with gusto. They are to be commended. The medians were a mess and completely neglected. A few neighbors had taken a whack at some of the grass, but the Parks crew went after it like they were killing snakes.

Thank you Bellevue for finding a way to make the roadway look like someone truly cared.

(sorry I didn't thank you the same day the work was done, but I've been busy trying to keep ahead of my own grass and weeds)

Sincerely,

Paul R. Waggoner
