Subject: Park area at Lakemont Blvd and Cougar Mtn Way

To: Jim Bennett <jbennett@bellevuewa.gov>

Cc: Dan Dewald <ddewald@bellevuewa.gov>

Dear Mr. Bennett:

Late last summer, two years after Bennett Development/Heritage Belshaw had completed their subdivision, the adjacent park area at the SE corner of Lakemont Blvd and Cougar Mtn Way had not been restored by the developer. We called the City of Bellevue Parks Department and the next day you came out and we walked the park area. You pointed out what needed to be done and said you would develop a plan by October. In October you called us to advise that a plan was complete and the work would likely start in February, 2008.

As you promised the restoration work was completed in February and everything looks great. This spring for the first time since clearing for the subdivision began we could hear frogs in the small pond. This year we have seen many more birds and squirrels in the area. We live in the Avonlea Condominiums next to this park and really enjoy it now.

We have been impressed and pleased with the speedy response and quality of work done in restoring the park area. It was very refreshing in this day and age. Thank you, Thank you, for a job well done.

Gerald and Anne Watkins  
6423 SE Cougar Mtn Way
