I was fortunate to be able to join the 2014 M.N. Course. I enjoyed the course very much. It was a really fun time and a great learning experience for me as a retired test pilot.

We were lucky to have many outstanding instructors, all experts in their fields. I would like to mention several people who really made the course 'go'.

Curtis Kukal, Laura Harper and a ranger named Shannon (sorry, can't find surname) really put together a great experience which I looked forward to each week. I will be seeing all of them in the future in my volunteer activities.

You and the city are fortunate to have really fine employees like them.

I also made many new friends interacting with my classmates.

Overall great class, good times with more to come.

Thank you,

Ernie

Thank you for your comments, Ernie. We appreciate hearing positive feedback about both the program and the staff who work so hard on putting it together.

Above all, thank you for your participation. The proactive management of Bellevue's natural area is a team effort and we look forward to working with you.

Curtis, Shannon, Laura – Nice work. You guys are awesome.
