

# MEMORANDUM

---

Phone: 452-5258  
Date: July 8, 2014  
To: Parks & Community Services Board  
From: Glenn Kost, Planning & Development Manager  
Subject: CIP Initiatives  
*(No Board action requested.)*

At your July meeting, I will present upcoming CIP initiatives at the Downtown Park and Meydenbauer Bay. These projects are not new to Board members, but represent a significant amount of work that will occur over the next 2-3 years in downtown Bellevue. Both projects are in the design phase of development, and I will review the status, proposed scope of work, and projected timelines for all the projects, and review some of the remaining issues. The projects include:

- **The Downtown Park**
  - Levy Project – the so-called “complete the circle” project
  - Sewer line replacement
  - Inspiration Playground
  - Northeast Entry (CIP budget request)
  
- **Meydenbauer Bay Park**
  - Phase 1 development
  - Recent day moorage project
  - House removal
  - Sewer line replacement
