NOTES:
1. Design emitter to discharge onto vegetated area with amended soils or other suitable landscaped area. Do not connect footing drain or other manual drain to a landscaped area.
2. See NDP chapter 06-04 herein for all materials.
3. See NDP chapter 06-04 herein for all materials.
4. Set flush with finished grade.
5. 10'-0" minimum vegetated flowpath or other storm facility (see note 1).
