2022 Annual Report

AT YOUR SERVICE

A Message From the Chief

I'm pleased to present the 2022 Bellevue Police Department Report to the Community. This was my first full year leading the dedicated women and men of the Bellevue Police Department as Chief of Police. It was a year of many challenges and successes as we continued to deal with the aftermath of the COVID-19 pandemic.

In 2022, the Police Department introduced a range of new initiatives and made enhancements to existing ones. Among these was the unveiling of the Transparency and Accountability Dashboard. This user-friendly online platform empowers residents to track local and citywide crime trends, discover opportunities for community involvement, and access data on our use of force statistics and the diversity within the Police Department. The dashboard stands as a pivotal element in our commitment to fostering transparency and accountability within our organization.

In November, the Bellevue City council authorized 21 new positions for the Police Department in the 2023-2024 budget cycle. This represents the largest increase in police staffing in a significant time and will allow us to execute our mission much more effectively. These new positions will allow for the creation of a Community Crisis Assistance Team (CCAT), and have a public safety presence for the future East Link light rail system. Additional Patrol Officer positions were included in this authorization, as well as funding for two professional staff that will be needed as we roll out the Department's body worn camera program.

Finally, I would like to thank the Bellevue community for its' continued support of your Bellevue Police Department. We look forward to continuing to serve the community in 2023 and beyond.
