An employee assigned to a 40-hour/week schedule shall be released from duty by no later than 1700 hours when scheduled for jury duty the following day.

An employee serving on jury duty shall continue to receive his/her regular salary. For any day the employee is paid by the City while on jury duty, the employee shall reimburse the City any funds, except parking and mileage allowance, received because of that day's jury duty.

#### **18.5 Family Leave**

The Employer agrees to furnish and maintain suitable bulletin boards in convenient places in each station to be used by the Union. The Union shall limit its posting of notices and bulletins to such bulletin boards.

### **22.2 Union E-Mail Communications**

The Employer agrees to allow Union Executive Board members access to the Employer's email system for official meeting and election notices or other official Union E-mail communications approved in advance by Fire Administration. Any other business of the Union will not be conducted via the City's E-Mail system.

The Union understands any use of the City's technology resources, including the E-mail system, is subject to the City Technology Resource Usage Policy including but not limited to the policy that there is no right to privacy in the use of the City's technology resources and that the City's E-mail system is subject to public disclosure and the Union will ensure that it follows all applicable laws and city policies

related to this technology.

### **Article 23 - Savings Clause**

If any provision or the application of any provision of this agreement shall be rendered or declared invalid by any court action or subsequently enacted legislation, the parties shall, in a timely manner, amend the affected provision or provisions only, and all remaining provisions of this agreement shall remain in full force and effect.

If any provision of this Agreement is in conflict with a City policy that previously applied to Battalion Chief, the provision of this Agreement shall govern.

### **Article 24 - Grievance Procedure**

A 'grievance' means a claim or a dispute by an employee or the Union with respect to the interpretation or application of the provisions of this Agreement. The Union has the right, in its own capacity, to act as an aggrieved party in the grievance procedure.

No grievance shall be entertained or processed unless it is submitted within thirty (30) calendar days after the first occurrence of the event giving rise to the grievance or within thirty (30) calendar days after the employee or the Union has obtained knowledge of the first occurrence of the event giving rise to the grievance.

#### **24.1 Step 1**

The Union or an employee shall present a grievance to the employee's supervisor, who shall give his/her oral answer within ten (10) business days after it is presented to him; provided, however, that if a grievance is filed by an employee without assistance of the Union, the Union shall be given notice of the grievance and an opportunity to be present at any adjustment of the grievance.

#### **24.2 Step 2**

If the grievance is not settled in Step 1, it shall be referred in writing to the Fire Chief within ten (10) business days after the designated supervisor's answer in Step 1 and shall be signed by the employee or the Union representative. The written grievance shall set forth the nature of the grievance, the facts on which it is based, the provision or provisions of the agreement allegedly violated and the relief requested. The Fire Chief, or his/her representative, shall discuss the grievance within ten (10) business days with the Union representative at a time mutually agreeable to the parties. If the grievance is settled as a result of such meeting, the settlement shall be reduced to writing and signed by the Fire Chief and the Union. If no settlement is reached, the Fire Chief, or his/her representative, shall give the Department's written answer to the Union within ten (10) business days following their meeting.

In the case of disciplinary actions, both appealable to the Civil Service Commission and grievable under the terms of this contract, a written election of remedies shall be made after receipt of the Step 2 response. An employee may elect to either pursue an appeal to the Civil Service Commission or continue with the contractual grievance procedure, but not both. Time limits will be extended for either side if necessary to complete a reasonable investigation before the election of remedies is made. Appeal for disciplinary actions shall proceed directly to the Civil Service Commission pursuant to the rules of the Commission or to Step 3 as provided in this agreement.

### **24.3 Step 3**

If the employee or the Union is not satisfied with the solution by the Fire Chief, the grievance, in writing, together with all other pertinent materials, may be presented to the City Manager by a Union representative within ten (10) business days of the Fire Chief's decision. The City Manager shall attempt to resolve the grievance within ten (10) business days after it has been presented to him.

### **24.4 Step 4**

If the grievance is not resolved by the City Manager to the satisfaction of the Union, the grievance may, within ten (10) business days, be referred to an arbiter by the Union to be selected by mutual agreement of the Employer and Union.

If the parties agree to request a list of arbiters (minimum of 7, maximum of 11) from PERC, AAA, FMCS, a joint request will be submitted to the applicable agency. Upon receipt of the list of arbiters, the parties shall strike from the list alternately to determine who will be the arbitrator.

After flipping a coin to determine which party goes first, the representatives of the Employer and the Union shall alternately eliminate the name of one person on the list until only one name remains. The person whose name was not eliminated shall be the arbiter. It shall be the function of the arbiter to hold a hearing at which the parties may submit their cases concerning the grievance. The arbiter shall render his/her decision based on the interpretation and application of the provisions of this Agreement within fifteen (15) business days after such hearing. The decision shall be final and binding upon the parties to the grievance provided the decision does not involve action by the Employer which is beyond the arbitrator's jurisdiction.

Each party hereto will pay the expenses of their own representatives and the expenses of the arbiter will be borne equally by the parties hereto. In the event one of the parties involved is unavailable, the time period specified shall be extended accordingly. Neither the arbiter nor any other person or persons involved in the grievance procedure shall have the power to negotiate new agreements or to change any of the present provisions of this Agreement. It is specifically understood that any matters not included in this Agreement, including statutory provisions, shall not be considered grievances and subject to the grievance procedure as set forth above.

## **Article 25 - Communication Procedure**

This article creates a communication procedure for the purpose of mutual planning and initiating discussions regarding matters of general concern to employees of the department as opposed to grievances. It is understood that any matter which has been made the subject of a formal grievance under the terms of the labor agreement shall be excluded from consideration by the labor-management committee under this procedure.

It is further understood that the work of the parties under the communication procedure shall in no way add to, subtract from, alter or amend the labor agreement. Either the Union or the City may initiate discussion on subjects of a general nature affecting the employees of the Fire Department. The coordinators of the communication procedure will be the President of the Union and the Fire Chief, or their designees.

A meeting of representatives of the City and Union may be requested by either of the coordinators and they shall schedule such a meeting at a mutually agreeable time and place; provided that, during the term of this agreement, meetings shall normally be scheduled on a quarterly basis. A proposed agenda shall be prepared jointly by the coordinators and distributed prior to each meeting. If mutually agreed, minutes shall be kept of the meetings and a copy submitted to each of the coordinators.

Significant changes in the rights, privileges and working conditions of employees which have a direct effect upon public interest and personnel safety of departmental employees, but which are not included in this agreement, shall be appropriate items for discussion, consultation and bargaining (when required by RCW 41.56) prior to the implementation of such change.

When there is a desire from the City of Bellevue to change or modify policies that effect wages, hours or working conditions, the City shall submit the changes in writing to the Union thirty (30) days in advance.

The Union may request bargaining within that thirty (30) day period and the City shall then bargain such matters prior to implementation as required by RCW 41.56. If written notice is given, the Union's failure to request bargaining during that thirty (30) day period shall constitute a waiver of the right to bargain the proposed change. Such written notice shall be sent to the Union via e-mail to an official e-mail address designated by the Union (union@iaff1604.org). Notification outside of the designated e-mail address shall not be considered adequate notice for purposes of this article.

### **Article 26 - Performance of Duty**

No employee shall strike or refuse to perform his/her assigned duties to the best of his/her ability. The Union will not cause or condone any strike, slow-down or other interference of the normal operations. Knowledgeable and willful violation of this article by any employee shall result in immediate dismissal.

- E) Additionally during the term of this agreement the City may reopen this article as well as Appendix E & F to propose changes to address the requirements of federal and/or state health care legislation including the Affordable Care Act and/or the consequences of such legislation or its regulations that may cause increases in health care costs, premiums or other negative financial/tax impacts on the City of Bellevue and employees.

Such employee contributions shall be made through payroll deduction. The City shall retain the right to select insurance carriers or to self-fund this benefit and to make changes to benefits as provided in Section A, sub-section (4) above. Employees may obtain dependent dental only coverage. The Union retains the right to bargain regarding City, State or Federal initiated changes after December 31, 1999, upon request and nothing herein shall constitute a waiver of that right.

## 3. Vision

The percentage of the current total premium paid by employees shall remain the same percentage as in 2008 for the VSP basic and buy-up plans.

## 4. Life Insurance

The City agrees to provide a life insurance policy for employees in the bargaining unit equal to a maximum policy limit of \$50,000 and pay the cost of such policy.

The City shall provide insurance coverage under its self-insurance program, or any policy or policies obtained by the City in place thereof, indemnifying the employee for loss if the employee

- J) The obligations of the City under this Article shall not apply to any dishonest, fraudulent, criminal or malicious act of any employee. As express conditions of the City's obligations under this Article, the employee shall cooperate fully with the City in the defense of any such claim or suit, and the City shall have the sole and exclusive right to compromise, settle, dispose of or litigate any such claim, and shall have no obligation under this Article to pay the amount of any settlement, compromise or judgment entered into or allowed by the employee without the City's prior written consent.

Any unexpended funds remaining in the Health Benefits Fund at the conclusion of the benefit year shall be carried forward from year to year until expended only for allowable expenses.
    - 1.3 Affordable Care Act: The City may implement plan design and/or vendor changes and/or contract for the provision of medical insurance and/or no longer be self-insured in order to limit plan offering cost to the annual individual and family caps as defined by the ACA (other plan tiers will be adjusted accordingly based on actuarial projections with these caps in mind.) The City shall meet and confer with the Union prior to implementing any plan design, vendor, and/or self-insured changes for each year such changes may be necessary to avoid paying any federal excise tax. Should the City elect to make changes to the Bellevue Health Plans, the Union has the right to negotiate any impacts of such changes within thirty (30) days after any such changes take effect.

These changes apply to LEOFF 2 employees and their dependents.
- 5.2 **Premera Affordable Plan:** Beginning with plan year commencing January 1, 2019, the Premera Affordable plan will not be available to bargaining unit employees and their dependents.
- 5.3 **Premera Choice Plan:** Beginning with plan year commencing January 1, 2019, employees will have the option to enroll themselves and dependents in the Premera Choice plan. The employee monthly premium contributions for the Choice plan will follow the premium sharing formulas as outlined in Section 27.4 above.
- 5.4 **Medical Waiver Rebate:** Effective January 1, 2019, employees electing to not participate in City offered medical plans may be eligible to receive a monthly medical waiver rebate of one-hundred dollars (\$100.00). Waiver rebates are not paid to married couples/domestic partners who are both working at the City.
- a) The Affordable Care Act requires that employees who opt out of health coverage and receive monthly rebates must elect the medical waiver option for each plan year. - 5.6 **Cost Containment:** The Union and all employees covered by this agreement shall cooperate with the City in all cost containment efforts including further study and implementation of cost containment alternatives; provided that the City shall not implement any reduction in benefits without reasonable notice and mutual agreement of the Union. - 5.9 **Dental Premium Formula Sharing:** The Dental coverage for employees shall be provided and paid at 100% by the Employer and paid at 80% by the Employer for dependents. Dental coverage may be elected independently from medical coverage; however, employees must always elect dental coverage for themselves in order to enroll dependents. Vision coverage may be elected independently from medical coverage, and if dependent coverage is elected, employees and their dependents must be enrolled in the same plan.

**5.12 Flexible Spending Arrangement (FSA):** The City and the Union agree that should the health care FSA, which enables participants to set aside money on a pre-tax basis to pay for eligible out-of-pocket health care expenses for participants and their tax dependents, count toward the Affordable Care Act (ACA) excise tax threshold, it will no longer be offered after December 31st of the year preceding the implementation of the excise tax threshold. The purpose of not offering the FSA, should it count toward the excise tax threshold, is to maximize the value of the health plan for all participants.

Should the value of all City-offered medical coverage offerings be below the excise tax threshold in a given benefit year the City will make reasonable efforts to offer the health care FSA at a reduced level so long as no excise tax penalties are incurred because of the health care FSA. However, the City will not offer a health care FSA in any circumstance where the maximum deferral limit for health care FSA participants would have to be less than \$1,200.00 per year to avoid incurring any excise tax penalties because of the health care FSA.

If the ACA is amended and the FSA is no longer included in the excise tax threshold calculation, the health care FSA will continue to be offered.

**6. Life Insurance:**

The City agrees to provide a life insurance policy for employees in the bargaining unit equal to a maximum policy limit of \$50,000 and pay the cost of such policy.

**7. Malpractice Insurance:**

The City shall provide insurance coverage under its self-insurance program, or any policy or policies obtained by the City in place thereof, indemnifying the employee for loss if the employee becomes legally obligated to pay for damages which result from errors or omissions of the employee performed or omitted by the employee on behalf of the City in his or her capacity as an employee and within the scope of his/her employment with the City.

The obligations of the City under this Article shall not apply to any dishonest, fraudulent, criminal or malicious act of any employee. As express conditions of the City's obligations under this Article, the employee shall cooperate fully with the City in the defense of any such claim or suit, and the City shall have the sole and exclusive right to compromise, settle, dispose of or litigate any such claim,

and shall have no obligation under this Article to pay the amount of any settlement, compromise or judgment entered into or allowed by the employee without the City's prior written consent.

#### **28.7 Use of Compensated Leave When Sick Leave is Exhausted**

In the event an employee has exhausted his/her sick leave accruals, accrued compensated leave (accrued vacation and holiday leave) will be used to maintain normal compensation levels for approved sick time.

#### **28.8 Workers' Compensation**

In any case where an employee is entitled to benefits under the State Workers' Compensation Act as it is now defined providing payments to injured or disabled workers, the City shall pay only the difference between the benefits received by such employee and his/her regular rate of compensation that he/she would have received had he/she been able to work.

The foregoing payment by the City shall be limited to the period of time that such employee has accumulated sick leave credits as specified in Section 28.1 and Section 28.2 herein above, except as otherwise provided by law.

## **28.9 Requirement for Physician's Certificate – Workers Compensation**

In order to limit the obligation of the City for each new and separate on-the-job injury or illness, the City may require the employee to furnish medical proof, or to submit to a medical examination by a City-appointed physician at the City's expense to determine whether a subsequent injury or illness is new and separate, or an aggravation of a former injury or illness received while in the service of the City, or in the service of a previous employer.

### **Article 29 - MEBT**

As part of the total compensation for employees the City shall amend the City's Employees' Retirement Benefit Plan and Employees' Survivor and Disability Benefit Plan Agreements, effective October 1, 1984, to include and to make all members of the bargaining unit represented by IAFF Local #1604 eligible to participate in those Plans from and after that date. Participation in those Plans by the members of IAFF Local #1604 shall be on the identical basis as, and shall be subject to all of the terms and conditions that now are or hereafter may be applicable to, all other City of Bellevue employees. From and after October 1, 1984, the terms of the City's Employees' Retirement Benefit Plan and Employees' Survivor and Disability Benefit Plan Agreements shall continue to be determined solely by the Plan Committee rather than through collective bargaining agreements negotiated by the parties. The provisions of this article shall not be subject to the provisions of Article 24 (Grievance Procedure) of this agreement.

### **Article 30 - MERP**

The City shall allow bargaining unit members to participate in the Washington State Council of Firefighters M.E.R.P. (Medical Expense Reimbursement Program). By acting as a payroll agent, the City shall withdraw the contribution amount (on a pre-tax basis) from each bargaining unit member's salary, and forward the monies to the WSCFF Employee Benefit Trust. The Union will provide the assistance of the Treasurer from IAFF Local 1604, if needed and requested by the City to assist with setup and troubleshooting. The only obligation of the City shall be to perform payroll deduction during the term of the contract. The City shall have no legal obligation(s) to MERP.

The contribution rate shall be deducted from the employee's paycheck on a pre-tax basis at a monthly rate established by the Union for this bargaining unit. The Union shall have the option to adjust the contribution annually.

These contributions shall be included as salary for the purpose of calculating retirement benefits, to the extent authorized by the Department of Retirement Systems (DRS). M.E.R.P.. contributions will be withdrawn in the paycheck opposite of which Union dues are withdrawn.

The City will cooperate with the WSCFF Employee Benefit Trust, and the Treasurer from IAFF Local 1604 in allowing a payroll audit to ascertain if the proper amount of contributions have been made if necessary.

### **Article 31 - Annual Fitness Evaluation – Fitness Testing**

1. This constitutes the agreement between the International Association of Fire Fighters, Local 1604 ("Union") and the Fire Administration of the City of Bellevue ("City") regarding the Fire Department's Annual Fitness Evaluation and the availability/eligibility of, and qualifiers for, the Wellness Physical. For the purposes of this Article, the term "parties" refers to the Union and the City.

2. The parties agree that an annual cardio sub-maximal fitness exam ("CSFE") for all members subject to Operations shall be mandatory.
3. The parties agree that the standards required for the CSFE shall be consistent with the IAFF/IAFC Fitness Initiative as it pertains to metabolic output standards. Currently, the minimum metabolic output standard is 39.55 ml/kg. The parties will confer should the IAFF/IAFC change or cause to be changed the Metabolic Output Standards.
4. The parties agree that failing to pass the objective metabolic output standards during the CSFE will subject a member to the procedures and standards outlined in the attached Corrective Action Matrix.
5. The parties agree that the City will give notice and an opportunity to bargain prior to the City making changes to the cardio fitness protocols or standards, or to the rights, privileges, or benefits established by this Article as required by law.
6. The parties agree that the CSFE established by this Article will be administered by representatives from the Fire Training Division (TRAINING) and by Peer Fitness Trainers (PFTs) that are selected from amongst Fire Department personnel.
7. The parties agree that TRAINING and the Personal Fitness Trainers (PFTs) will administer the annual AFE. Both TRAINING representatives and PFTs shall be considered equal in authority for the purposes of administering the CSFE and will be available to test non-shift-work personnel and members returning to duty from disability consistent with required TRAINING re-entry.
8. At the election of any member, the parties agree that such member shall be granted an exemption from the CSFE for the year he or she participates in the Wellness Physical program and, in so doing, is also able to provide documentation that he or she was able to successfully reach the metabolic output standards identified in Paragraph 3 of this Article. In order to obtain such exemption, the member must provide a copy of the [standardized form setting forth the required metabolic output standards] signed by an authorized representative of the Wellness Physical program. The member shall not be required to provide or waive access to any other documents, medical information, or medical records that are otherwise created under the Wellness Physical program.
9. The parties agree that members who participate in the Wellness Physical may receive, at the discretion of the administering physician, a written target heart rate to be utilized in the Department's CSFE that is more tailored to the individual and in excess of the target heart rate for that individual as derived by the accepted target heart rate formula normally used under the CSFE. This target heart rate is to be used in the member's CSFE during years that the member is not eligible for a Wellness Physical. However, the target heart established during participation in a Wellness Physical must be renewed each year that a member becomes eligible to participate in another Wellness Physical. Target heart rates that were established during Wellness Physicals that predate a new eligibility year may not be used in years subsequent to such new eligibility.
10. As a substitute for meeting the CSFE standards established by this Article, the parties agree that a member may, at any time (including while being subjected to the procedures set forth in the Corrective Action Matrix), provide documentation from a physician of the member's choice that he or she is able to successfully reach the metabolic output standards identified in Paragraph 3 of this Article. In order to obtain such exemption, the member must provide a copy of the [standardized form setting forth the required metabolic output standards] signed by the physician chosen by the member. The member shall not be required to provide or waive access to any other documents, medical information, or medical records that are otherwise created by or available to the member's physician.
11. The parties agree to the content of the Annual Fitness Assessment form and to the [standardized form setting forth the required metabolic output standards].
12. The parties agree that each member, unless exempted per this Article, shall complete all the components on the Annual Fitness Assessment.

13. The parties agree that the strength and tower walk components of the Annual Fitness Assessment shall not be treated strictly as "pass/fail" and shall therefore not be used as a basis to subject a member to the Corrective Action Matrix established by this Article. In addition, the parties agree that assessment of performance under these components of the Annual Fitness Assessment shall take into consideration that there may be transient or temporary non-debilitating conditions that may not represent a liability to a member, a crew, or the Department but that otherwise affect performance under these components. Participation in these components of the Annual Fitness Assessment shall continue to be non-punitive. However, the Department retains the authority to address this circumstance by requiring an evaluation of the member by a health care professional
14. The parties agree that each annual CSFE cycle shall be addressed in the Corrective Action Matrix as a singular event and that previous discipline from past fitness evaluations shall not be considered in any subsequent CSFE cycle.
15. Nothing in this Article or the Corrective Action Matrix shall be construed to have waived a member's "just cause" rights under the collective bargaining agreement, and the terms of this MOU and Corrective Action Matrix shall be enforced pursuant to the grievance procedure in the parties' current collective bargaining agreement.
16. In the event a member either passes or fails the annual CSFE, but is observed to be in physical distress a decision to send the member for a fitness for duty evaluation shall include a discussion between representatives of Fire Administration, Local 1604 and the member. The member shall be on paid administrative leave pending the results of said fitness for duty evaluation, and the member would remain outside of the corrective action matrix. This provision does not change the Department's authority under Article 1000, Section 11 of the Standard Operating Procedures regarding sending a member for a fitness for duty evaluation unrelated to a CSFE.

### **Corrective Action Matrix**

This matrix assumes continued failure of the Department's CSFE in the time prescribed and that a member is unable to produce documentation from his or her chosen physician, or an authorized representative of the Wellness Physical program, that he or she was able to successfully reach the metabolic output standards identified in Paragraph 3 of this Article. If at any time a member is able to produce such documentation, he or she shall not be required to undergo any evaluation by the City's physician for purposes of determining compliance with the Annual Fitness Assessment and, shall be regarded as having met the requirements of the CSFE, and shall not be subject to any further discipline related to compliance with said Assessment or any of the requirements set forth in the Corrective Action Matrix.

#### **First Failure:**

If the member fails the CSFE, the member is to remain on normal duty assignment and another evaluation shall be given at a later date, but no sooner than 30 days from the date of the First Failure, except as provided in section 16 of the Article.

#### **Second Failure:**

If the member fails the CSFE again, the member shall be relieved of duty, and placed on paid Administrative Leave pending the scheduling and completion of an assessment to be made by the Department's designated physician. The Department designee shall schedule the member to see a physician chosen by the City for the sole purpose of obtaining an accurate maximal cardio heart rate and to document that the member was or was not able to successfully reach the metabolic output standards identified in Paragraph 3 of this Article. If the member is able to reach such metabolic output standards, he or she shall be deemed to have met the required expectations under this Corrective Action Matrix. Certification of having reached such standards shall be documented on the [standardized

form setting forth the required metabolic output standards] by signature of the Department's designated physician.

If a member does not pass the CSFE as provided under this section, due solely to insufficient fitness, he or she shall be placed on Modified Duty for up to 30 days.

During the time that the member is on Modified Duty, the member will be required to exercise on duty for two hours every, day, (unless prohibited by a health care professional) with a primary emphasis on cardio/pulmonary improvement. Members may have PFT assistance if desired consistent with operational demands. The Department may require PFT assistance. The Member may voluntarily take a monitored CSFE at any time during this period and will return to full duty status if he or she passes. Absent such voluntary CSFE, the member shall be re-evaluated again at a later date, but no sooner than 30 days from date of the Second Failure.

**Third Failure:**

If the member fails the CSFE again due solely to fitness, Modified Duty status shall be re-evaluated based on the member's effort and. If continued Modified Duty is granted, the member shall continue the work-out schedule as described above. The member can resume full duty status if he or she passes a CSFE at any time during this period. If the member is not granted continued Modified Duty status, the member shall be allowed to use accrued paid time off or leave without pay until he or she passes the CSFE within the time frame required by this section. The member will receive a written reprimand, and shall be re-evaluated again at a later date, but no sooner than 30 days from date of the Third Failure.

**Fourth Failure:**

If the member fails the CSFE again due solely to fitness, Modified Duty status shall be re-evaluated based on the member's effort and progress. If continued Modified Duty is granted, the member shall continue the work-out schedule as described above. If the member is not granted continued Modified Duty status, the member shall be allowed to use accrued paid time off or leave without pay until he or she passes the CSFE within the time frame required by this section. The member can resume full duty status if he or she passes a monitored CSFE at any time during this period. The member shall receive a second written reprimand, and be re-evaluated again at a later date, but no sooner than 30 days from date of the Fourth Failure.

**Fifth Failure:**

If the member fails the CSFE again, due solely to fitness Modified Duty status shall be re-evaluated based on the member's effort and progress. If continued Modified Duty is granted, the member shall continue the work-out schedule as described above. If the member is not granted continued Modified Duty status, the member shall be allowed to use accrued paid time off or leave without pay until he or she passes the CSFE within the time frame required by this section. The member can resume full duty status if he or she passes a monitored CSFE at any time during this period. The member shall be subjected to discipline up to and including possible suspension. The member shall be re-evaluated again at a later date, but no sooner than 30 days from date of the Fifth Failure and no sooner than 150 days from the initial failure.

**Sixth Failure:**

If the member fails the CSFE again due solely to fitness, he or she shall receive a notice of intent to terminate, and shall be terminated. If the member is terminated under this provision, such termination shall not be regarded as being based upon any form of misconduct or as disciplinary in nature and shall not result in any other adverse employment consequences within the control of the City including, but not limited to, other employment opportunities with the City, application for unemployment benefits, or references requested by other outside employers.

The above disciplinary matrix applies to those who fail a CSFE solely due to fitness. If a member is unable to meet the required standards because of an injury, illness, and/or disability, documentation of such injury, illness, and/or disability, the use and consequences of sick, disability leave or charge time, shall occur per the Department's regular established procedures. The member will be permitted to retake the CSFE upon health care provider releasing the member to full duty.

### **Article 32 - State and Federal Emergency Mobilization**

- 32.1.** Personnel deployed on a State or Federal mobilization on a voluntary basis will be compensated at their normal rate of pay, including overtime, for hours worked. The employer will only compensate the employee for hours worked as defined below:
- a) All hours regularly scheduled at their home agency for personnel assigned to a mobilization incident will be compensated at the employees' normal rate of pay. For Example - A "B Shift" employee assigned to a mobilization would receive their normal rate of pay for regular hours worked on B platoon days —excluding all scheduled Kelly Days, Vacation days and such.
  - b) All hours not regularly scheduled to work at their home agency and assigned on the incident action plan will be compensated at the employee's normal overtime rate.
  - c) Employees assigned to a mobilization will be guaranteed a minimum work period of 12 hours per day for the duration of their deployment. For Example — An employee assigned to a "Days" schedule, would receive 8 hours of regular pay, and 4 hours of Overtime for a 12 hour shift. A "B Shift" employee would receive 12 hours of Overtime for a 12 hour shift that was not scheduled during a normally scheduled B shift day.
  - d) 'Hours Worked/Assigned' examples include: Reasonable time spent in preparation for work (both before and after shift), travel to and from the assignment, time spent in staging, briefings, check in, and demobilization. All hours worked for resources assigned to Standby (in Base Camp) for initial attack, or emergency deployment to the field, even though they might not be assigned to the Initial Action Plan will also be reimbursable. Not included as hours worked are meal times, sleep times, and any time where employees are unassigned. During unassigned hours, employees are free to leave base camp and are free from duty.
- 32.2.** Employees will be chosen for deployment on a voluntary basis, following the employee's position on the employer's Overtime list. Employees holding certifications and/or training pertinent to the mobilization may be given first consideration.
- 32.3.** In the event the employer determines that employees are required to respond to the mobilization, all employees deployed shall be paid portal to portal, 24 hours a day, for the length of their deployment. Maximum deployment length for employees required to respond shall be 3 days — at which time the employer shall facilitate the rotation of personnel.
- 32.4.** During the time of deployment, all employees shall be covered by any and all applicable benefits, as would normally occur if the employee was working within their normal assignment. For example, an employee's injury or illness occurring while an employee was on uncompensated time would not be covered by Industrial Insurance if it would not be covered if the employee was not on deployment
- 32.5.** In the event multiple personnel are deployed (for example in a Strike Team, or Task Force format), consideration should be given to assigning a paramedic as the 4th member of the crew for the protection of members.

## Article 33 - Physically Capable

### **33.1**

The parties recognize that in accordance with Washington State law pertaining to safety standards for firefighters, the City is obligated to ensure that when respiratory protection is used under specific work site conditions, that such use does not present an unreasonable health risk to an employee. To meet this obligation the City is authorized to identify, retain, or appoint licenses health care professionals ("LCHP's") to evaluate and make recommendations regarding whether such employee is medically able to use a respirator (i.e. to be given a "Respiratory Clearance").

### **33.2**

The parties further recognize that in accordance with Washington State Law pertaining to safety standards for firefighters, the City is also obligated to ensure that employees who are expected to do interior structural firefighting are physically capable of performing duties that may be assigned to them during emergencies, and that the City is not permitted to allow employees with known physical limitations reasonably identifiable to the City to participate in structural firefighting emergency activities unless the employee has been released by a physician to participate in such activities.

### **33.3**

The parties recognize that the LHCP's role in the Medical Monitoring Program is to provide independent medical advice to the City based on the LHCPs best judgment with regard to application of the requirements of the Washington Administrative Code. The parties further recognize that in the course of the Medical Monitoring Program, the LHCP may identify certain medical conditions or issues for individual employees which are relevant to the legally mandated safety standards that require additional information in order to determine whether the employee meets the standards. In such cases the LHCP shall identify the issue(s) to the employee and the Chief.

### **33.4**

The parties agree that where the LHCP's determination of a LEOFF 2 bargaining unit member's ("member") physical capability is not in agreement with the member's personal physician's determination, the procedure set forth herein shall apply.

When authorized by the member, all relevant medical records will be shared between the LHCP and the member's personal physician. Should the member elect not to provide medical records from his/her personal physician, and/or if the two physicians are still in disagreement after review and discussion, all relevant medical records shall be presented to a third party health care provider for an independent opinion on whether the member is physically capable.

The Fire Chief will exercise his/her responsibility and authority, as set forth in this Agreement, to consider these opinions and any other relevant information and make a determination whether to terminate or retain the bargaining unit member.

### **33.5**

The parties have determined that the two health care providers will select the neutral third physician in such a manner so as to locate physicians that both health care providers recognize as experts in these types of fields, and in an effort to maintain costs – located in the State of Washington. Should both health care providers recommend a neutral third party expert that would require unusual cost or travel expenses outside the State of Washington, the Union reserves the right to pay such expenses on behalf of the member.

### **33.6**

The member is responsible for all costs associated with consulting his/her treating physician under their normal claims experience. The City is responsible for all further costs initiated by the City and associated with evaluating the member's ability to perform essential job functions and/or any other

applicable law that involves direct costs for services associated with such evaluations, screenings and examinations.

## **Article 34 - Drug & Alcohol Testing**

The City and Union agree to the adoption of the following Policy to Ensure Workplace Safety from Substance Abuse:

### **34.1 Application**

This policy shall apply to all employees covered by this Agreement and may hereafter be amended by mutual agreement of the parties.

### **34.2 Statement of Purpose**

- 1) The Union and the City recognize the need to ensure a safe and healthy work environment. This policy is instituted to form a partnership between the City and the Union to assure that the workplace is free of employees whose job performance may be impaired by the abuse of drugs and/or alcohol, to assure that no employees are involved in the manufacture, sale, or use of an illegal substance or alcohol or marijuana in the workplace, and to assure compliance with the provisions of the federal Drug-Free Workplace Act of 1988 (PL. 100-690).
- 2) To establish a policy that is responsive to the unique working conditions of a fire department and the potentially dangerous and responsible work that is performed by such employees.
- 3) To create an environment that will, to the extent possible and that does not jeopardize public safety, regard drug/alcohol abuse and addiction as treatable illnesses.
- 4) To communicate to all that the possession, manufacture, use, or sale of alcohol, marijuana or illegal drugs on City premises or work sites is not tolerated.
- 5) The Union and the City recognize that an employee has the obligation to perform his/her job unimpaired by drugs or alcohol. In the event an employee fails to fulfill his/her obligations in this regard, it is the responsibility of the City and the Union to remove such employees from the work environment to prevent the endangerment of the employee, fellow employees, and/or the public.
- 6) It is the intent of the parties to recognize employee concerns for personal privacy and to maintain such privacy in the execution of this policy or procedures to the extent possible, unless otherwise required by law.
- 7) To establish uniform disciplinary and/or rehabilitation procedures and to clarify that off-duty conduct shall not be grounds for disciplinary action unless such conduct directly impairs the employee's on-the-job performance or is otherwise just cause for discipline regarding off-duty conduct.

### **34.3 Prohibited Substances**

Drugs shall be defined as narcotics, depressants, stimulants, hallucinogens, cannabis, and alcohol - substances whose dissemination is regulated by law or this policy. This definition shall include over-the-counter drugs and/or drugs that require a prescription or other written approval from a licensed physician or dentist for their use. Drugs included under this policy are as follows:

- 1) alcohol
- 2) cannabis/marijuana
- 3) cocaine
- 4) heroin
- 5) opium or opiates
- 6) phencyclidine (PCP)
- 7) lysergic acid diethylamide (LSD)
- 8) barbiturates

- 9) amphetamines or methamphetamines
- 10) methaqualone
- 11) mescaline
- 12) glutethimide
- 13) phencyclidine
- 14) procyclidine
- 15) other controlled substances as now defined, or hereinafter defined, under RCW 69.50.101
- 16) a prescription drug for which the employee does or does not have a current, valid, personal prescription and which is not authorized or approved for use on the job
- 17) any over-the-counter drug which may impair job performance and safety

The following cutoff levels for the screening test will be considered to show a positive result:

Marijuana metabolites	50 nanograms/milliliter
Cocaine metabolites	300 ng/ml
Opiate metabolites	2,000 ng/ml
Opiate metabolites (if specific for free morphine)	25 ng/ml
Phencyclidine (PCP)	25 ng/ml
Amphetamines	1,000 ng/ml

If the level of a controlled substance exceeds these levels in a specimen, the lab will conduct a confirmatory GS/MS test. The following are the cutoff levels to show a positive result:

Marijuana metabolites	15 nanograms/milliliter
Cocaine metabolites	150 ng/ml
Opiate metabolites	300 ng/ml
Opiate metabolites (if specific for free morphine)	25 ng/ml
Phencyclidine (PCP)	25 ng/ml
Amphetamines	500 ng/ml

The cutoff level for alcohol shall be 0.02 or greater of the State Driving Under the Influence (DUI) standard and/or a lower reading to be used only to substantiate other objective evidence that show the employee is appreciably impaired.

In the event the screening levels as established by federal law change during the term of the Agreement, the parties have agreed to meet and review the changes for adoption.

#### **34.4 Procedure**

1) **Voluntary Assistance:** Employees experiencing problems with drug or alcohol addiction are encouraged to seek assistance on their own. Such assistance is available through the City's employee assistance program through Wellspring E.A.P.. Participation in a voluntary rehabilitation program will be viewed positively. Because the City and the Union encourage voluntary participation in a rehabilitation program, such voluntary participation shall not be grounds for disciplinary action in any form. However, such participation will not relieve the employee of his or her responsibilities to perform assigned duties or meet the provisions of this policy. The City may, however, require standard medical verification of the employee's ability to safely perform the job duties.

2) **Medications:** It is the responsibility of an employee using medications, both prescription and non-prescription, to review cautionary warnings for potential side effects. If the cautionary warning states a potential side effect that would interfere with the employee's duties, the employee shall inquire of the issuing medical authority as to the potential impact of the drug to impair his/her ability to work safely and effectively. An employee shall inform his/her supervisor of such

- 3) Circumstances if there is reasonable cause to believe there will be impairment and the supervisor shall make a recommendation to the on-duty Battalion Chief as to whether to continue the employee's present assignment, temporarily reassign the employee, or relieve the employee from duty under sick/disability leave until such time as the detrimental effects of the medication no longer exist, and the Battalion Chief shall make this determination.
- 4) Involuntary Intervention: In the event there is reasonable cause to believe that an employee's job performance is impaired by drugs or alcohol, a supervisor and/or another trained bargaining unit employee shall observe the employee's behavior and document the behavior on the Impaired Behavior Report form. A second supervisory employee shall also observe the employee to verify that there is reasonable cause to believe that drug or alcohol may be involved. If there is no second supervisory employee available to make this observation, the primary supervisor may proceed with the procedure as outlined herein. The suspected employee may request the presence of another employee or Union representative of his/her choice during any drug testing procedures.
- 5) Reasonable cause is defined as specific observations concerning such circumstances as work performance, appearance, behavior, or speech of the employee, or as being involved in an accident which results in serious physical injury that requires the filing of a report, or significant property damage. Indications of impaired behavior may include but are not limited to the following: staggering or irregular gait, the odor of alcohol on the breath, slurred speech, dilated or constricted pupils, inattentiveness, listlessness, hyperactivity, performance problems, illogical speech and thought process, poor judgment, or unusual or abnormal behavior.
- 6) If there is reasonable cause to believe that drug or alcohol use is involved the supervisor or appropriate manager shall have a drug/alcohol test administered. The City may also have the employee undergo a medical evaluation at City expense at the time the drug or alcohol test is administered. The test must be conducted as soon as possible after the observation of the suspected impaired behavior. Failure of an employee to take the tests may result in the employee's termination, pursuant to just cause. Employees who believe that they are not impaired by any substance prohibited by this policy may, at City expense, request a name-clearing test after suspicion has been brought to their attention.
- 7) If a drug test has been undertaken, the employee shall be relieved of his/her duties and placed on administrative leave with pay status until a clear determination can be made as to the status of drug or alcohol use. If the test is negative, the employee may be counseled by a physician and returned to work if appropriate to the medical diagnosis. In such cases there shall be no loss of pay or benefits and the employee shall be fully cleared of any such charges. All references to the drug test shall be purged from the employee's file. A signed physician's release may be required by the City, at the City's discretion, before the employee is returned to work. Time lost due to an illness will be charged to sick leave or disability leave as appropriate.
- 8) If the test is positive, the employee may be terminated depending upon the circumstances surrounding the situation. Circumstances that may be grounds for an immediate termination include, but are not limited to, incidents where the employee's impairment resulted in loss of life, serious injury to self or others, the serious loss or damage of property or an incident of similar magnitude.
- 9) In cases where immediate termination is not warranted, the employee may be subject to other disciplinary action but is entitled to sick/disability and other paid leave benefits as provided by law and/or the labor agreement. The employee shall be evaluated by a licensed drug/alcohol evaluator agreed upon by the City and the Union. Where appropriate, the employee shall be referred to a rehabilitation program. Participation by the employee in the approved treatment program is mandatory if required by the drug/alcohol evaluator and the City. Refusal to participate in such a prescribed rehabilitation program shall be grounds for disciplinary action, up to and including termination. The nature of the rehabilitation program and conditions of return to work shall be determined by the licensed

drug/alcohol evaluator subject to City safety concerns.

10) Once the intensive part of the rehabilitation program has been completed, the employee may return to work but only with a written release from a physician or qualified mental health professional certifying that the employee can safely perform all duties. Where it is prescribed by the treating physician and/or a treatment program, random drug testing may be included as a part of that treatment program. An employee who is returned to work as provided for under this procedure who fails to comply with any of the terms of an agreed upon treatment and/or return to work agreement may be disciplined further up to and including termination. The Union, City, and the treating physician/counselor will meet and attempt to reach a consensus on a course of action with respect to this step of the policy, up to and including a "last-chance agreement". However, the City retains the right to exercise its prerogatives to take appropriate disciplinary action under procedure number 12 below. Any disciplinary action taken under this policy may be grieved as provided in the labor agreement between the Union and the City unless there is a violation of a last-chance return-to-work agreement. In this case the Union can only grieve whether or not the violation occurred.

11) An employee who is the subject of an investigation (other than criminal) related to substance abuse may have another employee present, without additional expense to the City, during the investigative procedures outlined above. Disciplinary actions taken by the City under this procedure shall be determined on a case-by-case basis taking into account but not limited to the findings of the test. Any disciplinary action taken under this policy may be grieved as provided in the labor agreement between the Union and the City unless there is a violation of a last-chance return-to-work agreement. In this case the Union can only grieve whether or not the violation occurred.

12) Medical facilities performing the examination and specimen collection must be under the direction of a licensed physician. The City shall utilize urine and/or blood tests for verification by certified medical personnel. The "enzyme-immunoassay" (EMIT) and "gas chromatography-mass spectrophotometry" (GS-MS) test method shall be used by the Health Force Occupational Medicine as jointly approved and agreed upon by the City and the Union. The City shall pay for the cost of all tests and medical examinations carried out under this procedure. The City shall maintain confidentiality of test results unless otherwise required by law. This, however, does not preclude the admission of test results in grievance proceedings.

13) All tests shall be conducted to ensure that blood or urine samples submitted are handled per NIDA standards. All samples must be stored in a scientifically acceptable manner as established by NIDA. Split samples shall be reserved, in all cases, for an independent analysis in the event of a positive test result. All positive confirmed samples and related paperwork shall be retained by the laboratory for at least six months or for the duration of any grievance, disciplinary action, or legal proceedings, whichever is longer. Collection of blood or urine samples shall be conducted in a manner that provides security for the sample and freedom from adulteration. Recognized strict chain of custody procedures must be followed for all samples as set by NIDA.

14) Employees who relapse from treatment while under the conditions of a return-to-work agreement triggered by this policy and for whom reasonable suspicion of substance use is established a second time and/or whose test results are positive will be subject to disciplinary action up to and including discharge. In such circumstances, the employee will be placed in an unpaid leave status until a decision is made to terminate the employee or to continue employment of the employee. The Union, the City, and the testing physician/counselor, if appropriate, will meet and attempt to reach a consensus on a course of action with respect to this step of the policy. The Union and the City may consider such mitigating factors such as the employee's length of sobriety and job performance in such situations, and other relevant factors. Again, the City retains the right to exercise its prerogatives to take appropriate disciplinary action. Any disciplinary action taken under this policy may be grieved as provided in the labor agreement between the Union the City unless there is a violation of a last-chance return-to-work

agreement.

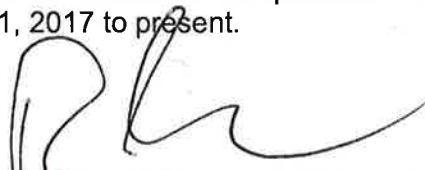

**34.5 Other**

- 1) Federal law requires all employees to notify the Human Resources Director if they are convicted of any violation of a federal or state criminal drug statute occurring in the workplace within five (5) days of the conviction.
- 2) Federal law requires that the City notify any federal agency which is a direct grantor of federal funds to the Fire Department of any employees convicted of a violation as provided above within ten (10) working days.
- 3) Federal law requires that the City shall take appropriate personnel action against the convicted employee(s), up to and including discharge, or require the employee(s) to participate in a drug assistance or rehabilitation program within thirty (30) days after receipt of the notice of conviction.
