

Demolition Permit Document List

Demolition of the whole or part of any permanent structure, including a single family house, multifamily or commercial structure, garage or storage shed.

Demolition (BE)

Required Documents

These documents are the minimum necessary to proceed with the application process.

Construction Stormwater Pollution Prevention Plan (CSWPPP) – If clearing & grading work is included in the building permit, a CSWPPP must be submitted with the application. For projects with less than 7,000 square feet of clearing and less than 100 cubic yards of grading, a CSWPPP Short Form for Small Construction Projects may be submitted.
