Industrial Waste Pretreatment Service Providers

The companies listed below may be able to assist you with installation, inspection, and cleaning of your gravity grease interceptors (GGIs), your hydromechanical grease interceptors ("grease traps"), and your oil water separators. It is recommended that you call several providers to find the one that meets your schedule and financial needs.

Service Provider	Phone Number	Hydromechanical Grease Interceptors(Traps)		Gravity Grease Interceptors(GGI)		Oil Water Separators

PLEASE NOTE:

You are not limited to using only these companies. This list has been provided as a courtesy, it has been randomized to avoid any bias, and the City of Bellevue does not endorse anyone on this list. It is the customer's responsibility to ensure that the company performs the paid service to completion and it is recommended that customers request a report that shows volumes of the materials found during inspection/cleaning, the condition of the equipment, if the equipment was overloaded (>50% full of captured material), and if more frequent cleaning is required to protect against illegal discharges.
