## 2015-017 120th Ave SE Greenwich Crest

December 21, 2015

Bellevue, WA 98006

Subject: Speeding Concerns on 120th Ave SE in Greenwich Crest

Dear 

Thank you for contacting Neighborhood Traffic Safety Services and letting us know your concerns with vehicle speeds on 120th Ave SE in Greenwich Crest. We have completed a field review and data analysis and compiled this information into the enclosed Traffic Action Plan (TAP), as well as our recommendations. We apologize for the delay. We had put the report on hold while awaiting other possible traffic concerns expressed by you and your neighbors via NextDoor. We have not received any additional comments.

Speed studies were conducted on 120th Ave SE near your home. The speed studies were conducted July 16-22, 2015. These studies show 85% of motorists are traveling at or below 31 mph the northbound direction and at or below 29 mph in the southbound direction. In your e-mail correspondence, you stated "the main speed in front of my house is anywhere between 45-60 (mph)." There were 2,227 total vehicles (northbound and southbound) recorded during our 7-day study. During that time, one vehicle was recorded travelling over 45 mph near your home. A five-year accident study was also conducted along the 120th Ave SE corridor, and there were no reported accidents.

You requested the installation of more speed humps to slow down speeding motorists. Physical measures such as speed humps are limited to streets where the majority of motorists are exceeding the posted speed limit by 10 mph. These guidelines were established based on the impact these measures have on emergency response. Based on the results of our speed studies, 120th Ave SE does not qualify for additional speed humps.

The majority of motorists driving on 120th Ave SE are the residents of Greenwich Crest themselves. We encourage you and your neighbors to participate in one of our education programs as described on page 3 of this report. One of the options that would work well to address your speeding concerns is to borrow a radar dolly. The radar dolly displays a vehicle's speed on a reader board. The radar dolly has been effective in decreasing vehicle speeds in many areas of Bellevue by encouraging motorists to reduce their speed. I encourage you to fill out the radar dolly request form. Once we receive this form from you, City staff will contact you to make arrangements for both the drop-off and pick-up of the radar dolly at your home.

Based on our speed studies, the highest rates of speed are occurring 4-6pm. We have sent a copy of the speed studies to our Police Traffic Unit for review of enforcement activities. You are also welcome to request enforcement by calling 425-577-5656 or filling out and submitting the following link:  
[http://bellevuewa.gov/traffic\\_service\\_request.htm](http://bellevuewa.gov/traffic_service_request.htm).

Again, thank you for sharing your concerns with us. We look forward to working with you and your neighbors on the education programs suggested to address your traffic concerns. Please feel free to contact me at [lglas@bellevuewa.gov](mailto:lglas@bellevuewa.gov) or 425-452-2841 to participate in any of the education programs described in this Traffic Action Plan.

Sincerely,

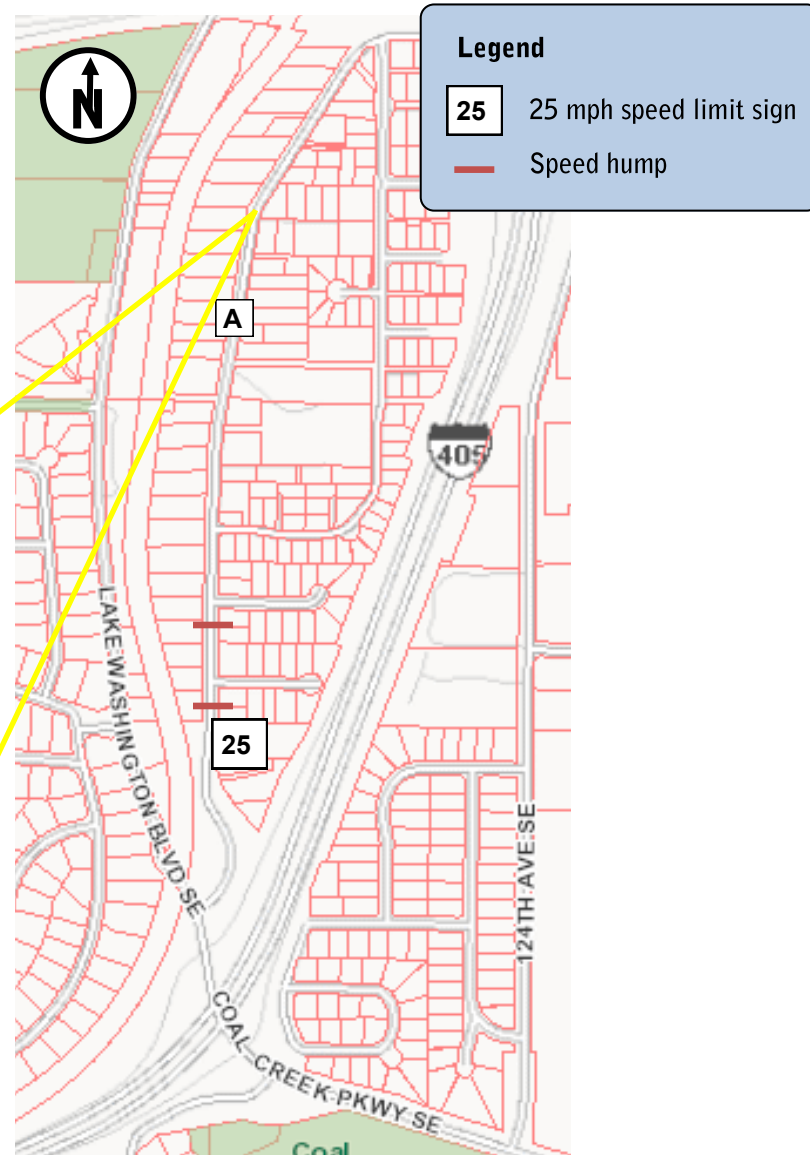

Linda Glas, P.E.

120th Ave SE facing north

120th Ave SE facing south

## Summary of Findings

Date	Location	Mid-Week Average Daily Traffic^	Average Speeds		85th% Speeds*	
			Northbound	Southbound	Northbound	Southbound
7/16-7/22	<b>A</b> 120th Ave SE	343	26	25	31	29

^Mid-Week Average includes data between Tuesday and Thursday

\*85% of vehicles traveling at or below this speed

## Customized Traffic Action Plan for 120th Ave SE in Greenwich Crest

### Education, Encouragement, and Enforcement

By educating the community and encouraging safe driving, we can begin to change driver behavior and reduce vehicle speeds.

- Educate the Community**
- Enhance Neighborhood Identity**
- Reduce Excessive Vehicle Speeds**

### Neighborhood Speed Watch

Using a borrowed radar unit, you record information about vehicles you observe traveling at or above 30 mph. NTSS staff then locate the registered owners of the vehicles and send a letter to them asking for their cooperation in reducing their speed. A partner to assist you with the data collection is recommended.

### Radar Dolly

You can borrow and place a radar dolly on your street for up to two weeks. This unit gives motorists feedback on the speed at which they are driving, encouraging them to obey the speed limit. Should you like to borrow the radar dolly, please request it by calling (425) 452-6457 or sign up on [www.bellevuewa.gov/radardolly.htm](http://www.bellevuewa.gov/radardolly.htm).

### Sign and Pledge Program

This program involves lending communities portable signs that encourage motorists to respect the neighborhood, drive responsibly, and drive 25 mph. The signs are moved by community volunteers from place to place throughout the neighborhood every few days. The second part of the program is a neighborhood pace car program. Residents who pledge to drive responsibly and drive the speed limit on all neighborhood streets receive magnetic bumper stickers or window clings to place on their vehicles. As these motorists drive 25 mph on residential streets, they set the pace for drivers behind them.
