## Newport Heights Traffic Safety Improvement Project

October 2020

### Speed cushion installation on 119th Avenue SE

As part of the Newport Heights Traffic Safety Improvement project, three sets of speed cushions will be installed on 119th Avenue SE south of Lake Heights Street SE. Speed cushions are similar to speed bumps in that they slow traffic down but minimize delay for emergency response vehicles. The speed cushions are being installed in response to community concerns about speeding vehicles.

**Installation:** The project is expected to begin in October or November and take multiple days to complete over a 3-week period. Work is weather dependent.

**Traffic Impacts:** Alternating lane closures.

**Access:** Pedestrian, bicyclist and driveway access will be maintained.

**Equipment:** Expect some equipment noise.
