Use Less Toxic Options

CAUTION | WARNING
DANGER | POISON

READ THE LABEL BEFORE YOU BUY. Use the least hazardous product that does the job. Avoid products labeled **DANGER, POISON, CAUTION, or WARNING.**

<p>SAFE ENOUGH</p> <p>Select products that do NOT have the words CAUTION, WARNING, DANGER or POISON on the label.</p>	<p>SAFEST</p> <p>Find products with these logos on the front or back. Please note: EPA Safer Choice products are the safest in their class, even if it says CAUTION on the label.</p>
<p>AVOID</p> <p>Avoid products with the words DANGER or POISON. They are most harmful for you and your family.</p>	<p>SOMEWHAT HARMFUL</p> <p>Select products that have the words CAUTION or WARNING.</p>

FOR EVERYONE'S SAFETY, PLEASE REMEMBER THESE TIPS:

- Keep products in original containers when possible
- Label products not in original containers
- Secure products so they won't tip over or leak
- Transport similar, sealed containers upright in cardboard boxes away from passenger compartment of your vehicle.

Hazardous products should not go in household garbage. Safely dispose of these materials for no cost at the Factoria Household Hazardous Waste Drop-Off site, or local disposal locations listed. [kingcounty.gov](mailto:haz.waste@kingcounty.gov) [206-296-4692](tel:206-296-4692) No appointment needed

Recycle Used Motor Oil
Place in transparent 1-gallon jugs with screw-on lids. Take to one of the motor oil recycling locations listed on the other side of this matter. Businesses that accept used motor oil do not accept oil that's been contaminated with anti-freeze or any other fluid.

HOUSEHOLD CLEANERS
LAWN + GARDEN

NEVER MIX HOUSEHOLD CLEANERS. Do not mix bleach with other cleaners or soaps, especially ammonia products. These mixtures create hazardous gases.

USE SAFER ALTERNATIVES. Clean efficiently using less hazardous and inexpensive products. Visit BellevueWA.gov/greener-living-classes to register for free, hands on safer cleaning workshops presented by Bellevue Utilities.
