

**City of Bellevue Funding for Behavioral Health and Housing Related Services RFP
Grant Writing Support Program**

What: Grant Writing Support and Consulting

When: Monday, May 17, 2021 and June 3, 2021 by appointment – space is limited.

Where: Video or Phone

This grant writing support program is designed to support community-based organizations that serve communities impacted by systemic oppression and do not have the internal capacity to hire a grant writer or have staff dedicated to grant writing.

We will be providing 45-60 minutes of free consultation and follow-up with a grant writer consultant to give you feedback and editing advice on your draft proposal. Our grant writing consultants can help by explaining the RFP, framing of the application, and/or editing a draft application.

Who is eligible for grant writing technical assistance?

This clinic is for organizations that are submitting a proposal for funding through the Human Services RFP that:

- Have budget of \$500,000 or less;
- Serve communities impacted by systemic oppression, which includes communities of color, immigrant and refugee communities, LGBTQ communities, persons with disabilities;
- The organization's service area must include the City of Bellevue

Preference will go to organizations whose leadership (Leadership Staff and Board of Directors) reflect the communities they serve.

How to apply for an appointment

Please complete an application for grant writing clinic appointment found here:

<https://communities-rise.org/nonprofit-cbo-services/eastside-rfp>. You may either submit a hard copy to grantwriting@communities-rise.org or fill out the form online. We will schedule appointments with eligible organizations between May 17, 2021 and June 3, 2021. Our grant writing consultants can help by explaining the RFP, framing of the application, and/or editing a draft application.

If you have any questions, please email us at grantwriting@communities-rise.org.
