

The Bellevue Network on Aging is working for you!

What is the Bellevue Network on Aging?

Established by the City of Bellevue in 2006, the Bellevue Network On Aging is an advisory group consisting of volunteers who either work or live in Bellevue.

What is the relationship to the City of Bellevue?

The Network acts in an advisory capacity to the City of Bellevue Parks & Community Services Department. Their role is to study, review, evaluate and make recommendations to the City on all matters affecting Bellevue's older adults.

What is their purpose?

The purpose of the Network On Aging is to support the mission of Aging Services in Bellevue through effective and systematic outreach, regional collaboration, and community involvement with a unified voice.

Mission:

The Bellevue Network On Aging is dedicated to healthy aging in our community by promoting awareness of needs and resources that support older adults through life's transitions.

How does the Network on Aging work?

The Network meets monthly for 2 hours in Bellevue. Members also meet through subcommittees an hour per month as well as information gathering activity. The Network has outlined the following Goals and Strategies:

- » Communicate older adults needs and provide a forum for that communication
- » Strengthen community outreach to inform and connect older adults with the necessary resources
- » Create a unified voice for older adults
- » Create an environment that makes Bellevue a livable community where older adults have the ability to age in place
- » Gain respect and knowledge of older adults in Bellevue
- » Create a regional approach to serving older adults

How can I get involved?

Recruitment is underway in September of each year. Network members must live, work or serve older adults in Bellevue, and 51% of the group must be over 50 years of age. Members must be willing to volunteer 8-15 hours per month.
