## Delays and increased congestion on and near West Lake Sammamish Parkway beginning as early as November 1

Crews working for King County Wastewater Treatment Division are continuing fieldwork to support final design of the Lake Hills and NW Lake Sammamish Sewer Upgrade project.

Starting as early as November 1, crews will use equipment to locate underground utilities along West Lake Sammamish Parkway NE and neighborhoods near 177th Ave NE, 180th Ave NE, NE 34th St, NE 21st St, and NE 24th St. Crews will dig a small hole at each location to reach the underground utility. Each location will then be restored with grass, pavement, or gravel when work is complete.

Typical vacuum truck used for locating utilities.

This work is expected to take up to two weeks to complete.

**Locations:** See fieldwork locations on back page

### What to expect:

- Work hours 7 a.m. to 3:30 p.m., Monday through Friday
- A vacuum truck will be used to dig a small hole at each fieldwork location
- Expect increased noise when the vacuum truck is in use
- Crews will spend up to one day at each location
- Majority of the work will be located outside of the driving lanes. For areas within the roadway, a single lane will be temporarily closed
- Delays of 5-10 minutes and increased congestion when work occurs within driving lanes
- Flaggers will safely direct traffic around the work zone
- Driveways will remain accessible
- Sidewalk and pedestrian walkways will be detoured in some areas
- Crews will be wearing personal protective equipment in accordance with current guidance from national public health and worker safety officials

**Please watch for equipment and signs in the area, travel slowly to stay safe and follow direction from flaggers.**
