### Description and Scope

This project advances the design, property acquisition, and construction of non-motorized improvements on 124th Avenue NE from NE 8th Street to NE 12th St (BelRed Rd). Funding will be provided for implementation of an interim solution to address safety issues along this segment of the corridor until the City can acquire the Post Office site which is currently under a 10-year lease. The ultimate scope envisioned is to construct separated multi-use paths on both sides, illumination, landscaping, underground utilities, irrigation, storm drainage, and water quality treatment. This project will be coordinated with the design and construction of other 124th Avenue NE Improvements – NE Spring Blvd. to NE 18th Street (CIP Plan PW-R-166), NE 12th Street to Spring Blvd. (CIP Plan PW-R-169), and Ichigo Way to Northup Way (CIP Plan PW-R-191).

### Rationale

The 124th Avenue NE corridor improvements are one of several high priority transportation investments that will improve access, circulation, and mobility options for passenger cars, transit, freight, pedestrians, and bicycles to and between Downtown Bellevue, Wilburton, the new BelRed transit-oriented-development nodes, and the larger City and region. This project will complete the non-motorized connection between the Wilburton neighborhood and the Bel-Red area.

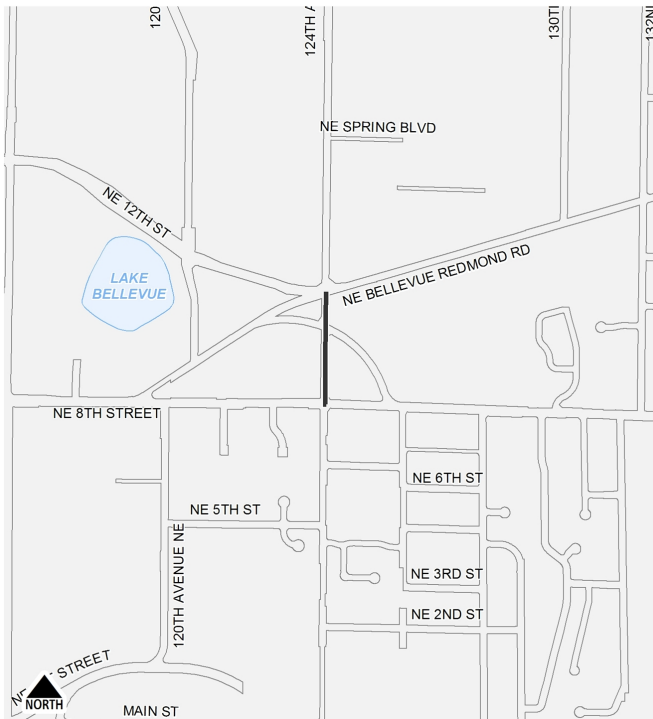

### Environmental Impacts

Consistent with state and federal environmental requirements, this project has obtained SEPA and NEPA environmental approvals for the full 124th Avenue NE corridor between NE 8th Street and Northup Way. A citywide programmatic environmental review, including this project, was conducted as part of the citywide 2013-2024 Transportation Facilities Plan update. Programmatic impact and mitigation documentation is included in the 2013-2024 TFP Final Environmental Impact Statement, published in July 2013.

### Operating Budget Impacts

Operating costs for this interim project is estimated to be \$5,000 adjusted for inflation annually.
