

Street Cleaning Pilot Program On SE 41st Place Begins Oct. 27

The city is implementing a street cleaning pilot program along SE 41st Place, between Factoria Boulevard and 124th Avenue SE.

Starting Wed., Oct. 27, street crews will clean to the curb on both sides of SE 41st Place between 9 a.m. and noon. Cleaning should take less than 30 minutes. Cleaning is scheduled on the 2nd and 4th Wednesday of each month during the fall and winter.

Regular street cleaning reduces the amount of tree debris and trash that can block storm drain grates. Keeping grates clear helps to lessen the possibility of flooding and prevents some pollutants from entering the city's stormwater system, which flows into streams and lakes.

People who park within the pilot area (see map) are asked to move their vehicles prior to the scheduled street cleanings. Warnings, and possibly citations, may be issued for the failure to move vehicles.

Temporary parking restriction signs will be placed for the duration of the pilot.
