

How to use SurveyMonkey Apply

Online Portal: www.bellevuearts.smapply.io/

Log-in

To begin, first log-in or create an account. If you believe your organization already has an account, try to retrieve your organization's username and password. If you cannot, set up a new account and then contact an arts staff member at the City of Bellevue to connect you with your organization's previous applications. Contact information can be found on the Arts Program's webpage through the city's website.

Starting an application

Select the year you wish to apply for. Please note that applicants apply a few months before the grant year begins; for example, if you wish to apply for a 2021 grant, you will begin the application process in 2020.

Complete all required application steps, including the required Letter of Interest by the due dates. Further information on eligibility and grant details can be found in our Guidelines on the Arts Program's webpage (see link above).

If you experience technical difficulties of any kind, *please* contact an Arts Program staff member or our consultant, Kaya Strategic. Contact information can be found in the Guidelines and on the Arts Program's webpage. Applicants that have difficulty applying, and do not reach out for help, will not be considered for any deadline extensions. Example applications are available through the Arts Program's webpage.

Submitting an application

When you have completed all application tasks, click "Review and Submit" on the left hand side of your webpage. This button will turn green when all tasks are complete. Review the application and submit before the deadline. In a newer version of the website, the review and submit button could be separate. Make sure to submit so that we may review your application.
