RE-NOTICE OF APPLICATION AND NOTICE OF PUBLIC MEETING

Project Name: Energize Eastside Bellevue North Segment

Location: Within PSE's existing transmission line corridor north of the Lakeside Substation (13615 SE 26th St) to the northern city limits (5755 140th Ave NE).

Neighborhood Area: Richards Valley, Southeast Bellevue, Wilburton/NE 8th St., Bel-Red and Bridle Trails

File Number: 21-104991 LB and 21-104989 LO

Reason for Re-notice: On August 1, 2022, the Bellevue City Council adopted Ordinance 6673, which eliminated quasi-judicial appeals to the City Council from Hearing Examiner decisions and recommendations in Process I and Process III land use matters. As a result of Ordinance 6673 and corresponding changes to state law that ended the existence of the East Bellevue Community Council (EBCC), this Conditional Use Permit application (LB) is now a Process I land use decision that no longer requires City Council or EBCC review and approval. This Process I review requires a recommendation from the Director of Development Services to the City's Hearing Examiner who

will hold a public hearing on the application prior to issuing the City land use decision. The Critical Areas Land Use Permit remains a Process II decision, which is issued by the Director of Development Services and appealable to the City's Hearing Examiner.

Description: Conditional Use and Critical Areas permits for the North Bellevue Segment of the Energize Eastside project. Puget Sound Energy, Inc. (PSE) project includes a new substation in Bellevue ("Richards Creek substation") and the upgrade of 18 miles of two existing 115 kV transmission lines with 230 kV lines (collectively referred to as the "Energize Eastside") from Renton to Redmond. In Bellevue, PSE is proposing to apply for permits to construct the project in two phases. The first phase ("South Bellevue Segment") included upgrading 3.3 miles (Bellevue Portion) of existing 115 kV lines with 230 kV lines between the Lakeside substation and the southern city limits of Bellevue and land use permits have been approved. The subject proposal for the North Bellevue Segment includes the replacement and upgrading of approximately 5.2 miles of existing 115 kV transmission lines with 230 kV lines north of the Lakeside substation to the northern city limits of Bellevue. This upgrade includes replacing existing wooden H-frame poles with steel monopoles in the existing transmission line corridor. Critical Areas (Steep Slopes, Wetlands, Streams and Habitat of Species of Local Importance) are located within the transmission line corridor.

Approvals Required: Conditional Use Permit approval, Critical Areas Land Use Permit approval and ancillary permits and approvals

SEPA: A Final Environmental Impact Statement (Final EIS) for the Project was prepared and released in March 2018 (File # 15-139122 LE). For more information about the Final EIS, see: <http://www.energizeeastsideeis.org>. An addendum to the EIS is to be prepared, pursuant to WAC 197-11-706, to reflect changes to the Wetland Rating System for Western Washington that revised wetland buffer and to capture other changes that have occurred since the EIS was issued in 2018.

Minimum Comment Period Ends: Public comments are accepted until the City issues a decision and recommendation on the land use applications.

Public Meeting: The second required public meeting will be held at Bellevue City Hall on **July 18, 2023** at **6pm in room 1E-112**. The meeting can also be attended virtually via Microsoft Teams per below.

Subject: City of Bellevue Re-Notice of Application and Notice of Public Meeting 6-29-23
Date: Thursday, June 29, 2023 1:07:00 PM

The following notice was published in the Weekly Permit Bulletin on June 29, 2023. You are the applicant for this project. If you have any questions, please contact [Reilly Pittman](#).

RE-NOTICE OF APPLICATION AND NOTICE OF PUBLIC MEETING

Project Name: Energize Eastside Bellevue North Segment

Location: Within PSE's existing transmission line corridor north of the Lakeside Substation (13615 SE 26th St) to the northern city limits (5755 140th Ave NE).

Neighborhood Area: Richards Valley, Southeast Bellevue, Wilburton/NE 8th St., Bel-Red and Bridle Trails

File Number: 21-104991 LB and 21-104989 LO

Reason for Re-notice: On August 1, 2022, the Bellevue City Council adopted Ordinance 6673, which eliminated quasi-judicial appeals to the City Council from Hearing Examiner decisions and recommendations in Process I and Process III land use matters. As a result of Ordinance 6673 and corresponding changes to state law that ended the existence of the East Bellevue Community Council (EBCC), this Conditional Use Permit application (LB) is now a Process I land use decision that no longer requires City Council or EBCC review and approval. This Process I review requires a recommendation from the Director of Development Services to the City's Hearing Examiner who will hold a public hearing on the application prior to issuing the City land use decision. The Critical Areas Land Use Permit remains a Process II decision, which is issued by the Director of Development Services and appealable to the City's Hearing Examiner.

Description: Conditional Use and Critical Areas permits for the North Bellevue Segment of the Energize Eastside project. Puget Sound Energy, Inc. (PSE) project includes a new substation in Bellevue ("Richards Creek substation") and the upgrade of 18 miles of two existing 115 kV transmission lines with 230 kV lines (collectively referred to as the "Energize Eastside") from Renton to Redmond. In Bellevue, PSE is proposing to apply for permits to construct the project in two phases. The first phase ("South Bellevue Segment") included upgrading 3.3 miles (Bellevue Portion) of existing 115 kV lines with 230 kV lines between the Lakeside substation and the southern city limits of Bellevue and land use permits have been approved. The subject proposal for the North Bellevue Segment includes the replacement and upgrading of approximately 5.2 miles of existing 115 kV transmission lines with 230 kV lines north of the Lakeside substation to the northern city limits of Bellevue. This upgrade includes replacing existing wooden H-frame poles with steel monopoles in the existing transmission line corridor. Critical Areas (Steep Slopes, Wetlands, Streams, and Habitat of Species of Local Importance) are located within the transmission line corridor.

Approvals Required: Conditional Use Permit approval, Critical Areas Land Use Permit approval and ancillary permits and approvals.

SEPA: A Final Environmental Impact Statement (Final EIS) for the Project was prepared and released in March 2018 (File # 15-139122 LE). For more information about the Final EIS, see: <http://www.energizeeastsideeis.org>. An addendum to the EIS is to be prepared, pursuant to WAC 197-11-706, to reflect changes to the Wetland Rating System for Western Washington that revised wetland buffer and to capture other changes that have occurred since the EIS was issued in 2018.

Minimum Comment Period Ends: Public comments are accepted until the City issues a decision and recommendation on the land use applications.

Public Meeting: The second required public meeting will be held at Bellevue City Hall on **July 18, 2023**, at **6pm in room 1E-112**. The meeting can also be attended virtually via Microsoft Teams per below.

In Bellevue, PSE is proposing to apply for permits to construct the project in two phases. The first phase ("South Bellevue Segment"), included upgrading 3.3 miles (Bellevue Portion) of existing 115 kV lines with 230 kV lines between the Lakeside substation and the southern city limits of Bellevue and land use permits have been approved. The subject proposal for the North Bellevue Segment includes the replacement and upgrading of approximately 5.2 miles of existing 115 kV transmission lines with 230 kV lines north of the Lakeside substation to the northern city limits of Bellevue. This upgrade includes replacing existing wooden H-frame poles with steel monopoles in the existing transmission line corridor.
