| 3 | Apportionable service receipts (subtract line 2 from line 1) enter amount on this line |  | 0.00 |
|  | II Payroll Factor* |  |  |
| 4 | Enter total Bellevue payroll costs | 32 |  |
| 5 | Enter total company-wide payroll costs | 33 |  |
| 6 | Payroll factor (divide line 4 by line 5) enter amount on this line |  |  |
|  | III Service-Income Factor |  |  |
| 7 | Enter total Bellevue service receipts | 34 |  |
| 8 | Enter total company-wide service receipts less excludable income (if any) | 35 |  |
| 9 | Service income factor (divide line 7 by line 8) enter amount on this line |  |  |
|  | IV Bellevue Taxable Service Receipts |  |  |
| 10 | Total apportionment factor (add lines 6 and 9) enter amount on this line |  | 0.00 |
| 11 | Percentage of service income apportioned to Bellevue (Divide line 10 by the number 2)* |  |  |
| 12 | Bellevue taxable service receipts (multiply line 3 by line 11 and enter this amount on line 4 column 4 of the MULTI-PURPOSE TAX RETURN) |  | 0.00 |

Why is this schedule necessary in addition to your tax form? Effective January 1, 2008, RCW 35.102 .130 requires a new method using a two-factor formula to determine how income taxable under the city's Service and Other gross receipts B\&O tax classification is apportioned between multiple locations when a taxpayer is engaging in business in more than one jurisdiction.

Who should complete the apportionment schedule? Only those taxpayers that earn gross receipts from activities subject to a city's Service and Other gross receipts B\&O tax classification and which have a taxable presence in more than one jurisdiction need to complete the schedule.

## Formula example:

Service and Other income is apportioned to a city by multiplying service income by a payroll factor (based on the payroll within the city), plus the service-income factor (based on the income producing activity attributable for tax purposes within the city), divided by two.*

$$
\begin{aligned}
\text { Total Taxable Service Income } & \times \frac{(\text { Payroll Factor }+ \text { Service Income Factor)* }}{2} \\
\text { Payroll Factor } & =\frac{\text { Total Compensation Paid in Bellevue }}{\text { Total Compensation Paid Company-Wide }} \\
\text { Service Income Factor } & =(\text { Total Company-Wide Service Receipts - excluded income) }
\end{aligned}
$$

*If a business has no employees in any location, such as a sole proprietorship without any employees, then the payroll factor is zero and the apportionment reverts to a single factor formula using the service factor only. In this case divide the service factor by 1.

# Instructions for Schedule A - Service Income Apportionment Detail for Reporting Periods January 1, 2020 

## I. Gross Service Receipts

Line 1 Enter total company-wide gross service receipts for your business.
Line 2: Subtract any appropriate deductions allowed in Bellevue City Code 4.09.100. Exclude any interstate deductions as this schedule apportions company-wide service income.
Line 3: Apportionable service receipts. Subtract line 2 from line 1 and enter this amount on line 3 . This is your apportionable service receipts.

## II. Payroll Factor

Line 4: To determine total Bellevue payroll costs, enter the city payroll for the following employees:

| a. | Total payroll for employee(s) whose assigned office or work station is located <br> within the city | $\$$ |
| :--- | :--- | :--- |
| b. | Total payroll for employee(s) who are not primarily assigned to any place of <br> business for the tax period and that individual performs fifty percent or more of <br> their service for the tax period in the city, and | $\$$ |
| c. | Total payroll for employee(s) not primarily assigned to any place of business for <br> the tax period, and the individual does not perform fifty percent or more of their <br> service in any city, but that person resides in the city. | $\$$ |
|  | Add lines a, b, and c. This is the total Bellevue payroll costs. <br> Enter this amount on line 4: Enter total Bellevue payroll costs | $\$ 0$ |

Line 5: Enter total company-wide payroll costs: add the amount on line 4 plus the payroll for employees in all other locations outside the city. Line 6: Payroll factor. Divide line 4 by the amount in line 5 and enter the calculated amount as a percentage on line 6. If a business has no employees, there is no payroll factor. If there are employees outside Bellevue but no employees within Bellevue, the payroll factor is zero.

## III. Service-Income Factor

Line 7: Enter the total Bellevue Service Receipts. Service receipts are in the city if the customer location is in the city.
"Customer location" means the following:
(i) For a customer not engaged in business, if the service requires the customer to be physically present, where the service is performed.
(ii) For a customer not engaged in business, if the service does not require the customer to be physically present:
(A) The customer's residence; or
(B) If the customer's residence is not known, the customer's billing/mailing address.
(iii) For a customer engaged in business:
(A) Where the services are ordered from;
(B) At the customer's billing/mailing address if the location from which the services are ordered is not known; or
(C) At the customer's commercial domicile if none of the above are known.

Line 8: Enter total company-wide service receipts from line 1 less any excluded income. Excluded income is defined as gross service income attributable to cities or unincorporated counties in which the taxpayer is "not taxable" and at least a portion of the service is performed in Bellevue. If there is no excluded income, line 8 will be the same as line 1. If there is excluded income, line 8 will be less than line 1.
"Not taxable" means that the taxpayer is not subject to a business activities tax by that jurisdiction, except that a taxpayer is taxable in a city or county in which it would be deemed to have a substantial nexus under the standards of RCW 35.102.050 regardless of whether or not the city or county imposes a business activities tax.
Line 9: Service income factor. Divide line 7 by the amount in line 8 and enter the calculated amount as a percentage on line 9 .

## D. Bellevue taxable service receipts

Line 10: Total apportionment factor. Add line 6 to line 9 and enter the calculated amount on line 10.
Line 11: Percentage of service income apportioned to Bellevue. Divide line 10 by two (2), if two factors remain. If a business has no employees/no payroll factor, divide line 10 by one (1). Enter the calculated amount as a percentage on line 11.

## Line 12: Bellevue taxable service receipts.

Multiply line 3 by line 11 and enter the amount on line 12. Also enter this amount on line 4, column 4 of the Multi-Purpose Tax Return (Services \& Other Apportioned/Taxable Income).

For alternate formats, interpreters, or reasonable accommodation requests please phone at least 48 hours in advance 425-452-6800 (voice) or email tax@bellevuewa.gov. For complaints regarding modifications, contact the City of Bellevue ADA, Title VI, and Equal Opportunity Officer at ADATitleVI@bellevuewa.gov.
