New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		Overarching / General Polic	ies
Goal: To build u	upon BelRed's ex	kisting economic, cultural, and natural assets, while inte	grating new places to live, work, recreate, and
connect develo	p a sustainable i	urban development pattern that dramatically reshapes	the future of the BelRed Subarea, while allowing
the area to tran	nsition gracefully	rfrom its past.	
	S-BR-1	Implement the Bel-Red Subarea Plan in a manner	Note: Incorporated policy into goal statement.
	3 BK 1	that integrates the three dimensions of	Removed discussion; elements of which may be
		sustainability: sustainable economy, society, and	incorporated into preceding narrative.
		environment; meeting the needs of the present	incorporated into preceding narrative.
		without compromising the needs of future	
		generations.	
		Discussion: In essence, the term "sustainability"	
		conveys one critical thought and intention: that the	
		current generation meets its needs and desires in a	
		manner that allows for future generations to have	
		as rich opportunities to meet their own needs and	
		desires. It means making decisions with the long	
		term, and many generations, in mind. It requires a	
		balancing act, considering the environment, the	
		economy, and the social system, to ensure that all	
		three are taken into account in critical decisions.	
S-BR-1	S-BR-2	Promote Cultivate a differentiated economic niche	Note: Enhanced to reflect the importance of the
		for Bel-Red , retaining many existing businesses	arts and creative businesses to BelRed.
		while and support creative mixed use districts by	
		attracting new <u>innovative</u> businesses <u>and ensuring</u>	
		provision of basic goods and services for nearby	
		residents. in a form not found elsewhere in	
		Bellevue. Take advantage of opportunities afforded	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		by Bel-Red's strategic location between Downtown	
		Bellevue and Redmond's Overlake employment	
		center, as well as the opportunities brought about	
		by light rail and high capacity transit coming	
		through the area to promote arts and innovation.	
S-BR-2	S-BR-3	Reduce and mitigate Minimize the environmental	Note: Updated to streamline and clarify policy
		and transportation spillover impacts of new	intent.
		development population and employment growth	
		and leverage opportunities provided by	
		redevelopment to improve ecological function and	
		resilience., and work to continually enhance	
		environmental conditions in the area, through a	
		combination of development regulations and	
		incentives, public investments, and other public and	
		private strategies.	
	S-BR-4	Develop and implement a phased approach to new	Note: Removed outdated policy.
		commercial development, so that transportation,	
		open space, and other infrastructure is in place or	
		committed to serve the needs of growth. This may	
		include establishment of a year 2030 commercial	
		development limitation consistent with the terms of	
		an interlocal agreement with the city of Redmond,	
		for the purpose of coordinating land use and	
		mitigation between the two cities.	
S-BR-3		Provide for the needs of marginalized populations	Note: Adds direction for achieving the third pillar
		and those most vulnerable to specific impacts when	of sustainability – social equity.
		designing strategies to achieve the vision for	
		BelRed.	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note	
		Land Use		
	Goal: To develop a land use pattern that is environmentally sustainable, and economically vibrant, and socially equitable, and that creates distinctive new commercial and residential mixed use neighborhoods for the Eastside.			
Environmentall	<u>y Sustainable Pla</u>	aces		
S-BR-4		Encourage mixed use development, providing places to live, work, learn, shop, and play within close proximity and enabling people to reduce their greenhouse gas emissions by walking, biking or taking transit.	Note: Articulates land use strategy for achieving environmental sustainability.	
S-BR-5	S-BR-11	Utilize development regulations and incentives for. Encourage commercial and residential_building siting and design to incorporate stream corridors as a significant on-site amenity, while and helping to rehabilitate store and enhance improve the ecological functions of these corridors, through the use of development regulations and incentives.	Note: Updated to reflect CPPs EN-9, EN-10, EN-17, and EN-24. CPP-EN-9 Develop and implement an integrated and comprehensive approach to managing fish and wildlife habitat to accelerate ecosystem recovery, focusing on enhancing the habitat of salmonids, orca, and other threatened and endangered species and species of local importance. CPP-EN-10 Ensure that new development, open space protection efforts, and mitigation projects support the State's streamflow restoration law. Promote robust, healthy, and sustainable salmon populations and other ecosystem functions working closely within Water Resource	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			Inventory Areas and utilizing adopted watershed plans.
			CPP-EN-17 Manage natural drainage systems to improve water quality and habitat functions, minimize erosion and sedimentation, protect public health, reduce flood risks, and moderate peak stormwater runoff rates. Work cooperatively among local, regional, state, national, and tribal jurisdictions to establish, monitor, and enforce consistent standards for managing streams and wetlands throughout drainage basins.
			CPP-EN-24 Restore the region's freshwater and marine shorelines, watersheds, estuaries, and other waterbodies to a natural condition for ecological function and value, where appropriate and feasible.
S-BR-6	S-BR-07	Implement a land use incentive system that makes available additional floor area ratio (FAR) and height in exchange for infrastructure and amenities that contribute to the public good. Implement a land use incentive system that mMakes available additional floor area ratio (FAR) and height available in exchange forto incentivize infrastructure and amenities that contribute to the public good and respond to unique site characteristics.	Note: Updated to encourage consideration of unique site characteristics when providing amenities. Removed discussion; elements of which may be incorporated into preceding narrative.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		Discussion: As in the Downtown Subarea, a land use	
		incentive system is a cornerstone of implementing	
		this Plan. Base as-of-right FARs and heights are	
		established at levels significantly below the	
		maximums, with higher levels achieved only by	
		providing public benefits through features such as	
		public open space, trails, environmental	
		enhancements, affordable housing, and other	
		public amenities.	
	S-BR-08	Encourage mixed use development, promoting	Note: Included in S-BR-4.
		opportunities to live, work, shop, and recreate	
		within close proximity.	
Socially Equitab	<u>le Places</u>		
S-BR-7		Provide for a range of diverse residential and	Note: Articulates land use strategy for achieving
		supportive uses within each neighborhood district	social equity.
		to create welcoming and inclusive neighborhoods	
		that enable equitable access to opportunities.	
Economically Vi	<u>brant Places</u>		
S-BR-8		Provide for a range of distinct economic centers	Note: Articulates land use strategy for achieving
		that build and expand upon BelRed's existing	economic vibrancy.
		economic clusters by tailoring dimensional	
		standards and permitted uses to different center	
		needs.	
S-BR-9		Provide for small artisanal manufacturing and artist	Note: Differentiates small artisanal uses from
		live/work and work/live uses.	large scale manufacturing uses allowing for more
			tailored regulations.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-10	S-BR-09	Accommodate existing light industrial uses that were legally established as of the date of this Plan's adoption, by allowing for their continued operation, expansion including site expansion outside of nodes, and re-building if destroyed. Preclude new light industrial uses from being established, and discontinued light industrial uses from being reestablished, with the exception that light industrial uses of limited size (less than 20,000 square feet) are appropriate outside transit nodes and standalone residential areas. Discussion: This policy is to be implemented through the City's land use regulations. Whereas light industrial uses were prevalent in Bel-Red's past, the vision for the Subarea's mixed use, commercial and residential neighborhoods portends an evolution toward a different future. While it is appropriate to support existing light industrial uses, this policy precludes new ones from being established, in order to support a gradual transition to the desired land use and development pattern.	Note: Updated to remove detailed sizes, which are more appropriate for the Land Use Code. Removed discussion; elements of which may be incorporated into preceding narrative.
S-BR-11	S-BR-10	Accommodate the continued operation of existing, and allow new, service uses that are compatible with planned future land uses. Accommodate existing service uses that are less compatible with residential and higher intensity, mixed use development (i.e., those that create noise, odor,	Note: Updated to streamline policy. Removed discussion; elements of which may be incorporated into preceding narrative.

(Public Review Draft – January 15, 2024)

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		fumes, aesthetic or other impacts), but preclude the	
		new establishment of these types of service uses in	
		transit nodes and in stand-alone residential areas.	
		Discussion: This policy is to be implemented	
		through the City's land use regulations. The services	
		sector is quite broad, and includes uses such as	
		health care, business and professional office,	
		household repair, and auto repair. Many of these	
		service uses have characteristics of general retail,	
		are compatible with mixed use commercial and	
		residential, and are encouraged in Bel-Red's future.	
		A smaller sub-set of service uses, such as auto	
		repair, auto dealers and boat dealers (particularly	
		their service/repair components) and towing,	
		display characteristics similar to light industrial	
		uses. These types of uses are less compatible with	
		transit nodes and stand-alone residential areas, and	
		thus new uses of this type are precluded in these	
		areas.	
	S-BR-13	Provide graceful edges and transitions between new	Note: Redundant with policy LU-13 in Volume 1 of
	·	land uses and established light industrial areas , and	the Comprehensive Plan, which as amended,
		between new development and neighborhoods in	would read:
		adjacent subareas.	
		Discussion: The transition between new mixed use	LU-13. Apply design techniques and development
		and residential developments and existing Bel-Red	regulations to transition between low density and
		light industrial uses is a special challenge. The siting	high density areas, particularly in residential
		and design of new buildings should be	areas.
		accomplished in a manner that minimizes conflicts	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		with existing industrial uses, for the sake of creating	Existing transition area standards in the Land Use
		a desirable working and living environment for new	Code apply. Removed discussion; elements of
		tenants. Redevelopment of Bel-Red also creates the	which may be incorporated into preceding
		challenge to ensure that new development is a good	narrative.
		neighbor with existing neighborhoods near Bel-Red.	
Nodes and Neig	hborhood Distr	icts	
S-BR-12	S-BR-05	Develop-Provide for land uses consistent with the Bel-Red-Comprehensive Land Use Plan map (Figure S-BR.1) and the Neighborhood District policies listed below.	Note: Updated to refer to and incorporate neighborhood district policies, as amended.
S-BR-13	S-BR-06	Concentrate the majority of future-Bel-Red growth development into a series of mixed use, pedestrian-friendly and transit-oriented development nodes around light rail stations, with higher density and height therein, as enabled through a land use incentive system. Within each node, provide for tiered building heights, with maximums at the center.	Note: Updated to clarify policy intent.
S-BR-14		Prohibit large low job and population density land uses such as storage buildings and standalone parking garages from locating within high density light rail station area nodes.	Note: Added to clarify intended intensity of uses located within station area nodes.
S-BR-15	Neighborhoo ds/Districts Goal	To sSupport the development transformation of new Bel-Red into new neighborhoods that achieves distinctive and high quality character distinguished by unique, community driven characteristics and high quality urban design.	Note: Updated to clarify policy intent.
Node in the Vici	nity of the Medi	cal Institution DistrictWilburton Station Area Node	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
	S-BR-86	Provide for office uses in this area, with an	Note: Area described incorporated into the
		emphasis on medical office. Initially higher	Wilburton Subarea.
		intensities are limited to an area adjacent and to the	
		east of Overlake Hospital, and heights in this area	
		may reach 150 feet. Sound Transit is contemplating	
		an additional light rail station on either the	
		northwest or southeast side of the Overlake	
		Hospital Medical Center and Group Health	
		Ambulatory Care Center campus. When that station	
		location is determined, an area of additional	
		development intensity and height may be	
		designated through a subsequent Comprehensive	
		Plan amendment.	
		Discussion: This is an area directly adjacent to	
		Overlake Hospital Medical Center and the Group	
		Health Ambulatory Care Center, by far the largest	
		medical complex on the Eastside, and just south of	
		the planned Seattle Children's Hospital facility. In	
		addition to these institutional uses, the area is	
		characterized by a wide range of medical office uses	
	,	that complement the medical campus.	
		At the time of the adoption of this Subarea Plan in	
		2009, multiple locations were being considered for a	
		light rail station to serve the Medical Institution	
		District, including on the northwest side of Overlake	
		Hospital and immediately east of Whole Foods.	
		When a final station location decision is made by	
		Sound Transit, expected in 2010, the City may	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		consider the need for additional land use planning in that area, which may warrant amendments to the	
		Subarea Plan.	
S-BR-16	S-BR-90	Provide for medical office and life science uses in this area, with an emphasis on medical office, and with an FAR up to 1.0 along 116th Avenue NE allowing for high intensity development within the half-mile walkshed of light rail stations transitioning	Note: Updated to streamline policy language and expand permitted uses to include life sciences.
S-BR-17		to lower intensity development to the north. Provide for some residential mixed use development east of 116 th Avenue NE and south of NE 21 st Street transitioning from high intensity near the station to medium intensity further to the north.	Note: Added to expand permitted uses to include residential east of 116 th Avenue NE.
	S-BR-91	Provide for major medical institution development within the area bounded by NE 8th and NE 16th Streets, and I-405 and the Burlington Northern Railroad right of way. Discussion: Sites in this area that are proposed to include medical institution uses are appropriate to be rezoned Medical Institution. Special dimensional standards are appropriate to accommodate the needs of major medical institutions and related uses, provided those facilities provide a high quality of design that recognizes this area as a prominent community landmark. Building and site design should create a visual identity for those facilities that contribute to the streetscape, are compatible with adjacent and nearby neighborhoods, and are	Note: Area described incorporated into the Wilburton Subarea.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		sensitive to views from the freeway and views of the	
		skyline. Design should also create a visually pleasing	
		and safe environment for the public, incorporating	
		features such as public spaces, gateways,	
		streetscape improvements, and safe pedestrian	
		linkages.	
Node at 122 nd A	venue NESpring	g District/120th Station Area Node	
S-BR-18	S-BR-87	Provide for a mix of office, housing and retail uses	Note: Updated to streamline policy by removing
		in this area, with office as the predominant use-	specific dimensional requirements, which are
		Potential height in the center of this node may	more appropriate in the Land Use Code.
		reach 150 feet, and up to 125 feet in the perimeter.	Removed discussion; elements of which may be
		Discussion: This office-supportive node is located on	incorporated into preceding narrative.
		the west side of the subarea, where it is better	
		served by regional transportation infrastructure and	
		has lesser potential for traffic impacts on East	
		Bellevue neighborhoods. Housing and retail uses	
		should be part of the mix of this neighborhood, to	
		avoid a sterile office-only area and to create a	
		balance of activities. Parks, open spaces, and	
		recreational opportunities are envisioned as part of	
	·	this urban environment. The Master Development	
		Plan process will be used as a review mechanism for	
		larger developments.	
S-BR-19		Provide for a mix of residential and retail uses	Note: Added to emphasize residential uses around
		surrounding the mixed use office core, with	the 120 th /Spring District core.
		residential as the predominant use.	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-20		Provide for a mix of office and commercial uses	Note: Added to provide for office and commercial
		along Northup Way near the interchange of 124th and SR 520.	uses near the interchange of 214 th .

		this area, with an emphasis on housing <u>.</u> ; include a	specific dimensional requirements, which are
		pedestrian-oriented retail area along 130th Avenue	more appropriate in the Land Use Code.
		NE-and. Potential height in the center of this node	Removed discussion; elements of which may be
		may reach 150 feet, and up to 125 feet in the	incorporated into preceding narrative.
		perimeter.	
		Discussion: This area is envisioned as a	
		predominantly residential neighborhood with an	
		active retail street at its core. With its focus on	
		residential uses, this area represents a key	
		opportunity to develop a range of housing types	
		and densities. An urban plaza located near 130 th	
		Avenue NE will serve as a "town square".	

S-BR-25		Proposed Policy Amendment	Reason for Change/CPP/Note
		Provide for a pedestrian-oriented retail area along 130th Avenue NE.	Note: Added to highlight direction for concentrated retail area along 130 th Avenue NE.
S-BR-26		Provide for a thriving arts district in this node with abundant space for production, performance, participation and promotion of arts and cultural activities.	Note: Added to highlight the importance of the Arts District in this node.
S-BR-27		Provide for the highest intensity high rise residential mixed use development closest to the station, and lower intensity high rise residential mixed use development further from the station.	Note: Added to clarify transition in scale moving further away from the light rail station.
Node at 156 th Aven	nue NE, Near t	<u> he Overlake Transit Station Location in RedmondOver</u>	<u> lake Village Station Area Node</u>
S-BR-28		<u>Provide for a mix of highrise office and retail uses</u> <u>adjacent to SR 520</u> .	Note: Added to specify intended uses near the Overlake Village Station and SR 520.
S-BR-29		Provide for a mix of midrise commercial and residential uses south of NE 22 nd Street.	Note: Added to clarify intended uses south of NE 22 nd Street.
S-BR-30 S-E	·BR-89	Provide for a mix of housing residential and retail uses along 156 th Avenue NE with an emphasis on residential uses in this area. Potential heights may reach 70 feet in this area, with a limitation of 45 feet along 156th Avenue NE. Discussion: This mixed use node is on the edge of Redmond's designated Overlake neighborhood, and is within the walkable area of the planned Overlake transit station at 152nd Avenue NE.	Note: Updated to clarify intended uses along 156 th and to remove specific dimensional requirements, which are more appropriate in the Land Use Code. Removed discussion; elements of which may be incorporated into preceding narrative.
Retail Along the Ce	entral Portion	of the Area North of NE 20th Street Corridor	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-31	S-BR-92	Provide for <u>low-intensity service and</u> retail uses in this area <u>including auto dealerships and storage</u>	Note: Updated to clarify intended uses along NE 20 th Street corridor and to streamline policy.
		facilities, with FARs and heights not to exceed the standards for the General Commercial designation	
		that is applicable city-wide. Encourage little	
		significant land use change in this area, which is not	
		contemplated for more intense development.	
Area South of B	el - Red Road		
S-BR-32	S-BR-93	Provide for a mix of <u>lowrise</u> office and housing residential in this area, with low-intensity buildings	Note: Updated to clarify intended uses south of Bel-Red Road and to streamline policy.

		environment and supporting travel choices.	
			LU-29. Provide walking and bicycle routes in and to light rail and bus rapid transit station areas that are accessible, safe and convenient, and that
			connect to destinations, transit and surrounding bicycle and pedestrian networks.
			TR-3. Incorporate transit-supportive and pedestrian-oriented design features in new development through development review.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			TR-66. Integrate pedestrian and bicycle access to transit in collaboration with transit service providers and private-sector developers.
			TR-71. Develop and maintain safe and convenient active transportation access to transit stops and stations, through shared responsibility with transit providers and private-sector developers.
S-BR-37	S-BR-16	Encourage place-making and a dynamic public realm by <u>incentivizing</u> integrationng of art, places for performance, and other artistic expression into publicly accessible plazas, open spaces and other gathering places with <u>in both development</u> , in public and private <u>development</u> projects, <u>particularly within the Arts District Intensive Area</u> .	Note: Updated to focus attention on the importance of arts in placemaking.
	S-BR-17	Promote environmentally sensitive design in public and private projects, including practices such as the US Green Building Council LEED certification of buildings, use of natural drainage systems, water conservation measures, and other practices.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read: CF-22. Require all capital projects to meet or exceed green certification standards for capital facilities unless determined infeasible by interdepartmental review. PA-34. Seek opportunities to integrate natural drainage practices and green stormwater

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			to provide community amenities and watershed benefits.
			PA-43. When feasible, install, renovate, or replace facilities using materials, construction, and operation methods that meet or exceed green certification or performance standards and are known to be weather-resistant and longer lasting.
			TR-132. Incorporate natural drainage practices into transportation infrastructure projects, where effective and feasible.
			CL-60. Implement the city-wide use of low impact development techniques and green building practices.
			CL-63. Provide education and incentives to support the implementation of low impact development practices, integrated site planning, and green building, with a focus on early consideration of these in the site development process.
			CL-64. Support the use of emerging best practices in the area of green building and site design, including climate resilience measures, through the use of pilot programs and model ordinances.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-38	S-BR-18	Encourage diversity in the built environment through a variety of building heights and forms, building articulation and modulation. Encourage building rooflines and floorplates that break down the scale of buildings, help to differentiate Bel-Red from Downtown, and enhance the architectural variety of the area.	
	S-BR-19	Encourage the use of building materials that are of high quality and durability, are appropriate for the area climate, and that have a sense of permanence.	Note: Redundant with policy UD-5 in Volume 1 of the Comprehensive Plan, which as amended, would read: UD-5. Encourage the use of high-quality and durable building materials that have a sense of permanence.
S-BR-39	S-BR-20	Reinforce the area's sense of place and Northwest provenance by encouraging innovative building and site design, construction techniques and materials that reflect the industrial roots local historic context of the area while emphasizing itsthe emerging urban character-of Bel-Red.	Note: Updated policy broadens policy intent to encompass all historic context.
	S-BR-21	Protect solar access to public spaces and important views from public spaces, as defined through the land use regulatory framework.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read: UD-21. Identify and preserve views of water, mountains, skylines or other unique landmarks from public places.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			UD-22. Employ design guidelines to affect public and private development form and building placement to promote solar access and reduce wind impacts in public spaces. UD-40. Provide both weather protection and access to sunlight in pedestrian areas and public places.
	S-BR-22	Promote parking design and management that supports local uses in a manner compatible with the area's urban design, transit and pedestrian orientation, including:	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read:
		a. Encourage shared parking; b. Encourage structured parking as opposed to surface parking, particularly in identified development nodes; c. Prohibit surface parking between buildings and	LU-25. Encourage private developers of adjacent or nearby properties to execute agreements to provide joint use and funding of shared parking facilities.
		sidewalks where appropriate, and provide visual screening and/or landscaping relief of surface parking where it occurs; and d. Allow reduction of parking supply in transit development nodes.	TR-6. Coordinate with other Eastside jurisdictions, the private sector, educational institutions and transit service providers to develop and implement uniform or compatible transportation demand management regulations and strategies that address factors such as the following: 1. Parking management,

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			 Assistance to facilitate and increase the use of transit, carpooling, vanpooling, active transportation and flexible work schedules; Other transportation demand management program elements, including marketing, outreach and incentives; and Reporting, monitoring, and performance evaluation standards.
S-BR-40	S-BR-23	Reinforce neighborhood character and BelRed's unique identity and characteristics through the use of gateways, and neighborhood signage thresholds, and public art. Prohibit signage that is out of scale with or detracts from the public realm.	Note: Updated to use more inclusive language, new terminology, and to add public art.
	S-BR-24	Encourage private and public use of public art to enrich design aesthetics and add character, identity and a sense of place.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read: UD-48. Cultivate public art that enhances neighborhood identity, builds community, and engages residents in the artistic process. UD-49. Encourage private and public developers to integrate art into the design of the public areas of their projects.
S-BR-41		Use vibrant color as an accent in the Arts District Intensive Area, such as in murals, furnishings, architectural details, lighting and other features, to	Note: Added to include strategy for enhancing recognition of the Arts District.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		highlight and distinguish the area as a creative and	
		artistic hub.	
<u>Pedestrian Expe</u>	<u>erience</u>		
S-BR-42	S-BR-25	Design and develop an outstanding-street environment -that promotes streets as key urban places, designed to be sensitive to their context and to providing provide an interesting and aesthetically rich pedestrian experience. Apply a street hierarchy with design guidelines and street standards that provides an appropriate combination of the following elements: a. Strong consideration of character and aesthetics in the design and implementation of all street projects; b. Integration of open space and landscaping, including street trees; c. Environmentally sensitive practices, including natural drainage systems where appropriate; d. Sidewalk development standards that promote pedestrian functionality and interest, and avoid obstructions; e. Ground floor differentiation, including preferred uses, visual and physical access; f. Mid-block pedestrian crossings; and g. On-street parking, where it contributes to pedestrian convenience and safety.	Note: Updated to remove limiting list, many of which are redundant with policies in Volume 1, which as amended, would read: PA-38. Manage Bellevue's forest resources, including street trees, formal plantings, and self-sustaining natural stands, to enhance their ecological function and ensure their long term vitality. PA-40. Develop, fund, and maintain streetscape and arterial landscaping along transportation corridors that provides valuable aesthetic, environmental, traffic calming and storm water management benefits helping maintain Bellevue's "City in a Park" character. UD-34. Use appropriate street tree species that are well adapted to urban street conditions and provide identity and continuity to street corridors. Adequate soil volume shall be provided to support tree health and limit damage to sidewalk and street infrastructure.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			UD-35. Identify opportunities at designated intersections to highlight neighborhood identity. (See Map UD-1)
			TR-47. Provide sufficient arterial rights-of-way or obtain easements to provide space for street trees and landscaping, and to accommodate pedestrian and bicycle facilities, while considering the visual and functional continuity of the corridor.
			TR-48. Design arterials and streets to fit the intended character of the areas through which they pass.
			TR-105. Improve the opportunities for pedestrians to safely cross streets at intersections and designated mid-block locations.
			CL-20. Create optimal soil conditions for street tree plantings as specified in the city's Environmental Best Management Practices and Design Standards Manual to nurture a large tree canopy and build resilience to extreme heat and precipitation events.
S-BR-43		Integrate safe and convenient access to the Eastrail within adjacent development.	Note: Added to provide direction to incorporate into site designs access to the Eastrail.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-44		Promote a safe, comfortable, integrated, and vibrant pedestrian experience.	Note: Expands qualifiers to pedestrian experience.
		Environment

			development process to reduce the environmental impact of impervious surfaces.
			UT-13. Require Low Impact Development principles to minimize impervious surfaces and native vegetation loss on all infrastructure improvement projects.
			UT-38. Require the use of low impact development and stormwater best management practices where feasible to manage stormwater runoff, which may result in smaller facilities constructed on- and off-site for flow control, conveyance, and water quality.
			Removed discussion; elements of which may be incorporated into preceding narrative.
	S-BR-32	Incorporate environmental education and interpretation into public and private projects, where appropriate.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read:
			CL-10. Incorporate environmental education and interpretation into public and private projects, where appropriate.
			UD-46. Incorporate interpretative or educational materials to highlight sustainable design components.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-49	S-BR-33	Provide for density transfers within the Bel-Red Subarea as a means to help achieve stream corridor and open space objectives.	Note: Updated terminology.
S-BR-50	S-BR-34	Actively cConsider renewingthe Bel-Red Subarea as a potential-receiving site for regional Transfer of Development Rights (TDRs), as a means to achieve conservation of rural resource lands outside the Countywide Urban Growth Boundary. Discussion: Transfer of Development Rights is a market mechanism for land conservation. Development rights from sensitive sites needing protection (sending sites) are purchased by and transferred to urban sites where the density can be responsibly accommodated (receiving sites). Since private funding for such TDR purchases is among a long list of desired public amenities, regional TDRs should be explored in light of the full array of public mitigations and benefits desired from private development.	Note: Updated to clarify policy intent. CPP-DP-64 Use transfer of development rights to shift potential development from the Rural Area and Natural Resource Lands into the Urban Growth Area, consistent with the Regional Growth Strategy. Implement transfer of development rights within King County through a partnership between the County and cities that is designed to: a. Identify rural and resource sending sites that satisfy countywide conservation goals and are consistent with regionally coordinated transfer of development rights efforts; b. Preserve rural and resource lands of compelling interest countywide and to participating cities; c. Identify appropriate transfer of development rights receiving areas within cities; d. Identify incentives for city participation in regional transfer of development rights (i.e. county-to-city transfer of development rights);

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			e. Develop interlocal agreements that allow rural and resource land development rights to be used in city receiving areas; f. Identify and secure opportunities to fund or finance infrastructure within city transfer of development rights receiving areas; and g. Be compatible with existing within-city transfer of development rights programs. Removed discussion; elements of which may be incorporated into preceding narrative.
		Parks and Open Space	
Goal: To create	<u>provide for a re</u>	obust, aesthetically beautiful<u>diverse</u>, and functional <u>col</u>	lection of parks and open spaces that weave
		nts, workers, and visitors convenient access to nature a	
		es the needs of Bel-Red and the broader community, ar	nd that connects with and complements the larger

		sizes and types in different settings to allow for a	remove outdated terminology.
		diversity of complementary activities that meet the	
	,	broad park and recreation needs of BelRed's	
		residents, workers, and visitors. Provide	
		neighborhood parks and smaller "pocket" parks	
		with convenient access to all neighborhoods;	
S-BR-52		Ensure equitable and convenient access to nature,	Note: Added to support equitable access.
		parks, trails, and open space by leveraging both	
		publicly owned and publicly accessible land to	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		create a dense network of greenspace as shown in Figure S-BR.1 and Tables 1 and 2.	
S-BR-53	S-BR-35	cLocate <u>new</u> neighborhood and community parks along stream corridors, linked through a series of trails and other open spaces; <u>initial emphasis will focus on the West Tributary and Goff Creek stream systems.</u>	Note: Updated to include statement about initial emphasis on the West Tributary and Goff Creek from S-BR-61.
S-BR-54		Along the West Tributary, develop parks using cityowned land and expand parks and open space land in the corridor through partnerships with adjacent landowners and land acquisition.	Note: Added to include more detail on the West Tributary riparian corridor that may not be apparent from the project list. Specific policy could help with grant funding in the future.
S-BR-55	S-BR-35	b. Provide a community park serving Bel-Red residents, employees, and citywide residents, comparable in size and utility to the Highland Community Park, in the western portion of the study area. The site might be accomplished through lidding of the Metro transit bus base, and would be able to accommodate indoor and outdoor recreational facilities;	Note: Updated to streamline policy.
S-BR-56	S-BR-35	d. Develop a "linear park" series of open spaces adjacent or near the spanning the extended NE 16th StreetSpring Boulevard multi-modal corridor through the middle of the Subarea; and to accommodate green infrastructure, connect park spaces, create active transportation access between districts, and connect to other trail systems and to light-rail stations.	Note: Updated to use current terminology, to combine with original policy S-BR-38.b (S-BR-61), and to clarify policy intent.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-57	S-BR-35	eCentrally locate a large civic plaza (public square)park near the 130 th Light Rail Station with dedicated facilities for outdoor performance and community events to serve the needs of the community and the BelRed Arts District within the pedestrian-oriented 130th Avenue NE development node.	Note: Updated to broaden language and highlight need for performance and event space in the Arts District.
S-BR-58	S-BR-36	Consider BelRed a suitable area to locate a potential major recreational facility to meet identified citywide needs for both indoor and outdoor recreation and sports facilities.	
S-BR-59	S-BR-37	Consider potential natural resource benefits to riparian corridors and upland areas in the acquisition of park and open space lands and integrate natural resource management with park system development and operations. Integrate natural resources management with Bel-Red park system development and operation: a. Incorporate natural drainage practices into park development to provide community amenities and watershed benefits, where appropriate and feasible; b. Integrate the park and open space system with the riparian corridors to achieve multiple benefits, including enhanced fish and wildlife habitat, improved stormwater management, trail connections, passive recreation, and environmental education; and	Note: Updated to clarify policy intent by separating b and c into new policy S-BR-60, and by removing section a that is redundant with policies in Volume 1, which as amended, read: PA-34. Seek opportunities to integrate natural drainage practices and green stormwater infrastructure into park design and management to provide community amenities and watershed benefits.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		c. Manage upland park areas to protect habitat and restore natural functions.	
S-BR-60	S-BR-37	c. <u>Rehabilitate and Mm</u> anage <u>riparian and upland</u> park areas to protect habitat and restore natural functions.	Note: Updated to clarify policy intent.
S-BR-61	S-BR-38	Provide an interconnected system of non-motorized trails for recreation and transportation within the study areaBelRed, connected to the larger, regional trail system, including Marymoor Park and Bridle Trails State Parkthe Eastrail and the SR 520 trail. The system will emphasize recreational use and provide transportation benefits as well: a. Provide non-motorized trails along the stream corridors to connect parks and other land uses, and links to the trail systems along the BNSF Corridor and NE 16th Street. Initial emphasis will focus on the West Tributary and Goff Creek stream systems; b. Provide a major east-west multi-purpose trail along the NE 16th Street corridor. The corridor will include a generous right-of-way width to accommodate significant green infrastructure, and to create a high-quality pedestrian and bicycle environment and auto-free access between neighborhoods. It will connect to other local and regional trail systems and to light-rail stations, and provide opportunities to incorporate gateway features; and	Note: Updated terminology and removed sections redundant with S-BR-53 and S-BR-56.

		Red's new housing stock, with a policy target that	consistency with Volume 1. Removed discussion;
		50% of new units be affordable for households	elements of which may be incorporated into
		earning 120% of median income or less. This overall	preceding narrative.

(Public Review Draft – January 15, 2024)

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		target should include 10 to 20% of new units	
		affordable to low income households (those earning	
		up to 50% of area median income), another 10 to	
		20% of new units affordable to moderate income	
		households (those earning up to 80% area median	
		income), and another 10 to 20% affordable as an	
		additional segment of "workforce housing" (for	
		households earning up to 120% of median income).	
		These targets will be addressed neighborhood	
		district through a combination of development	
		regulations and incentives , public investments, and	
		other public and private strategies, such as	
		employer-assisted housing and short-term property	
		tax exemptions for multi-family housing.	
		Discussion: The policy targets are not expected to	
		be met by each Bel-Red housing development.	
		Rather, they are intended to be met over time,	
		across the subarea as a whole, through a	
		combination of public and private strategies. The	
		overall supply of affordable housing will be	
		monitored and if policy targets are not being	
		achieved, affordable housing tools and incentives	
		should be adjusted, or new more effective	
		strategies adopted.

		nodes; emphasizing continuity, connectivity and	Policy reinforces provisions for Local streets in
		community character. Minimize crossings of	BelRed that are established in the Land Use Code,
		streams and wetlands by local streets; use	BelRed Street Development Standards (LUC
		environmentally friendly pedestrian and bicycle	20.25D.140)
		crossings where needed to provide local	
		connectivity.	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-81		Allow for limited flexibility to implement the intended alignment and function of local streets where site constraints exist.	Note: Added to include flexibility in implementation of the local street grid.
S-BR-82	S-BR-56	Minimize crossings of streams and wetlands by local streets; use and provide for environmentally friendly pedestrian and bicycleactive transportation crossings where needed to provide for local connectivity.	Note: Split into two separate policies S-BR-80 and S-BR-82 and updated terminology to clarify policy intent. Separate policy to provide for ped/bike (active transportation) crossings of streams that are not on streets for vehicle use. One new street vehicular crossing is anticipated, Spring Boulevard between 124th Avenue NE and 130th Avenue NE over the West Tributary.
	S-BR-57	Encourage garage and service vehicle access via local and secondary streets and alleys. Limit access points along arterial streets.	Note: Redundant with policy TR-53 in Volume 1 of the Comprehensive Plan, which as amended, would read: TR-53. Minimize the number of driveways along arterials to improve the pedestrian and bicycle environment and to reduce the potential for collisions.
S-BR-83	S-BR-58	Work with the Washington State Department of Transportation to improve connections to State Route 520 by completing the interchange at 124th Avenue NE, to allow access to and from the east, and to design the project to minimize impacts to adjacent residential neighborhoods.	

Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-59	Design Bel-Red arterials and local streets in a manner that contributes to community character, open space, and environmental enhancements.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read:
		TR-48. Design arterials and streets to fit the intended character of the areas through which they pass.
		TR-132. Incorporate natural drainage practices into transportation infrastructure projects where effective and feasible.
		Also, note that street design is covered by the BelRed Streetscape Plan Appendix B to the Transportation Design Manual.
S-BR-60	Include on-street parking where it contributes to the pedestrian environment and other elements of the desired neighborhood character.	
S-BR-61	Incorporate public access where appropriate and environmental restoration components, such as removal of fish passage barriers and the creation of wildlife passages, in the design and development of roadways that intersect stream corridors.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read: CL-84. Prohibit creating new fish passage barriers
		and remove existing artificial fish passage barriers in accordance with applicable state law. TR-128. Develop the transportation system in Bellevue to avoid, minimize or mitigate
	S-BR-59 S-BR-60	S-BR-60 Include on-street parking where it contributes to the pedestrian environment and other elements of the desired neighborhood character. S-BR-61 Incorporate public access where appropriate and environmental restoration components, such as removal of fish passage barriers and development of

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			environmental impacts, while addressing long- term transportation and land use objectives.
	S-BR-62	Include pedestrian and bicycle facilities in the design of arterials and local streets.	Note: Redundant with policy TR-94 in Volume 1 of the Comprehensive Plan, which as amended, would read:
			TR-94. Incorporate active transportation facilities along with other mobility options in scoping, planning, designing, implementing, operating and maintaining the transportation system.
			Also, note policy is implemented through the Pedestrian and Bicycle Transportation Plan, the Mobility Implementation Plan, and the BelRed Streetscape Plan.
S-BR-85	S-BR-63	Improve pedestrian connectivity and the quality of the pedestrian environment with a comprehensive complete and connected sidewalk and trail system, including through- block pedestrian connections, and mid-block crossings. Include pedestrian amenities such as pedestrian-scaled lighting, seating, transit shelters, and weather protection.	Note: Updated terminology. Specific pedestrian amenities are determined in the context of public projects and private development to address the needs of specific situations. Policy that lists components is not necessary. BelRed Subarea Design Guidelines in the Land Use Code (BCC. 20.25D.150) provide narrative guidance and illustrative examples.
S-BR-86	S-BR-64	Develop a multi-use trail system throughout the Subarea that provides both local and regional connections, including major non-motorizedactive transportation facilities along the extended NE 16th StreetSpring Boulevard, along the West Tributary of	Note: Updated terminology.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		Kelsey Creek and other stream corridors, and incorporating the planned regional trail along the BNSF railroad regional Eastrail corridor.	
S-BR-87	S-BR-65	Develop multiple access points to the planned BNSF corridor multi-use trailEastrail.	Note: Updated terminology.
	S-BR-66	Provide grade-separated road crossings of the proposed trail system along the West Tributary of Kelsey Creek, and of other separate trails where feasible.	Note: Removed this action item as project is in design. Spring Boulevard across the West Tributary (between 124th Avenue NE and 130th Avenue NE) will be a bridge structure that will accommodate a trail along the creek below, as well as facilities for active transportation on the bridge itself. This is a Primary Bicycle Corridor defined in the Pedestrian and Bicycle Transportation Plan and the Mobility Implementation Plan. Other trail locations suitable for grade-separation are identified or planned.
S-BR-88	S-BR-67	Work with King County Metro and other transit service providers to serve emerging new land usesserve light rail stations in the Bel-Red Subarea with buses and shuttles., and to connect to and support future light rail or alternative forms of high capacity transit, including: a. Enhance conventional transit service throughout the Bel-Red Subarea; b. Provide a level and type of service that, to the extent feasible, emulates high capacity transit in	Note: Updated to include specific emphasis for bus connections to light rail. Listed items are redundant with policies in the Transit section of the Transportation Element in Volume 1, which as amended, read: TR-62. Work with transit providers to enhance a frequent transit network that provides connections within Bellevue, to the greater Eastside, and to regional destinations.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		future light rail station areas, as an interim measure	TR-63. Support a frequent transit network in
		in advance of light rail operations; and	Bellevue that serves mobility hubs and population
		c. Provide transit feeder service from other Bellevue	and employment centers with reliable commuter
		neighborhoods into transit- oriented development	and all-day service and seamless interface
		nodes at future light rail stations.	between transit routes, East Link, and other
			modes.
	S-BR-68	Work with Sound Transit to realize the City's	Note: Removed; policy has been implemented.
		preferred light rail route, alignment and station	
		locations, as shown in Figure S-BR.2. Support the	
		development of light rail stations in the vicinity of	
		Overlake Hospital Medical Center, 122nd Avenue	
		NE/NE 16th Street, and 130th Avenue NE/NE 16th	
		Street.	
	S-BR-69	Include transit-supportive improvements, such as	Note: Redundant with policies in Volume 1 of the
		transit shelters, wayfinding signage, and other	Comprehensive Plan, which as amended, would
		features through a combination of public	read:
		investments and a regulatory framework applicable	
		to private development.	TR-64. Work with transit providers to create,
			maintain, and enhance a system of transit-
			supportive facilities and amenities.
			TR-71. Develop and maintain safe and convenient
			active transportation access to transit stops and
			stations, through shared responsibility with transit
			providers and private-sector developers.
			TD 72 Develop and involved in a ratio of the
			TR-73. Develop and implement, in conjunction
			with the transit providers, an integrated way-

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			finding system to facilitate transit ridership that incorporates principles of universal design and uses multiple languages.
			TR-74. Collaborate with employer-based and other private transit-service providers to ensure that these services are integrated into transit service planning and curb management practices.
			TR-82. Partner with transit providers and work closely with residents, businesses and other stakeholders in the design, security, maintenance and operation of transit stations and facilities to integrate them into the community.
			TR-83. Implement standards and guidelines to create transit stations that are valued places in the community.
			TR-84. Work with neighborhood groups, business owners, other stakeholders, and transit providers to identify and fund improvements that can be constructed efficiently in conjunction with transit projects.
			Also, note Mobility Implementation Plan is applicable citywide and identifies components at and near bus stops intended to support transit

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			rider comfort, access and information. These components may be implemented through private development, public investment, or in partnership with transit service providers.
	S-BR-70	Work with Sound Transit to determine the need for a future light rail maintenance facility in Bel-Red, and if needed, to locate it where compatible with planned land uses and transportation facilities and services.	Note: Removed; policy has been implemented.
	S-BR-71	Implement a transportation demand management program to reduce Bel-Red single-occupancy trip demand, and increase the share of trips utilizing transit, carpools and vanpools, and pedestrian and bicycle options.	Note: Redundant with all policies in the Transportation Demand Management section of the Transportation Element in Volume 1of the Comprehensive Plan (policies T-4 through T-16).
S-BR-89	S-BR-72	Support the development of a Transportation Management Association in the Bel-Red Subarea to assist employers in providing commute options for employees.	
S-BR-90	S-BR-73	Manage the parking supplysupply of parking and consider establishing maximum parking requirements to encourage the use of transit, car/van pool, and non-motorizedactive transportation commute options.	Note: Updated terminology.
	S-BR-74	Promote the development and management of parking supply to encourage the use of transit, car/van pool, and non-motorized commute options, recognizing that in areas with compact, transitoriented design, a surplus of parking and/or poorly	Note: Redundant with policy TR-6 in Volume 1 of the Comprehensive Plan, which as amended, would read: TR-6. (see policy text in S-BR-22 above.)

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		designed parking detracts from the pedestrian environment and the ability of the area to maximize travel choices.	Parking supply, including bicycle parking, and the design thereof is a provision of the Land Use Code (BCC 20.25D.120).
	S-BR-75	Develop and implement strategies to minimize neighborhood cut-through traffic associated with Bel-Red development. Monitor the outcomes of these efforts and make adjustments as needed to ensure their effectiveness.	Note: Redundant with policies in Volume 1 of the Comprehensive Plan, which as amended, would read: TR-54. Ensure that city street improvements do not create a bypass for regional traffic that would adversely affect residential neighborhoods.
			TR-77. Collaborate with transit service providers to expand high capacity transit to advance the city's long-term transportation and land use objectives, minimizes environmental and residential impacts, and optimizes regional system ridership and performance.
			TR-85. Protect residential neighborhoods adjacent to transit facilities from spillover impacts related to construction and operation.
			TR-111. Work with state agencies to incorporate enhancements to minimize impacts when improving state highways.
			TR-128. Develop the transportation system in Bellevue to avoid, minimize or mitigate

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note		
			environmental impacts, while addressing long- term transportation and land use objectives.		
			TR-134. Consider neighborhood traffic and livability conditions and address potential adverse impacts of public and private projects during the study, planning, design, permit, and construction phases.		
			Projects are identified and implemented through the Neighborhood Traffic Safety Services Program, the intent of which is to:		
			 Discourage excessive speed, Minimize cut-through traffic, 		
			Reduce overflow parking, andEncourage walking and biking.		
S-BR-91	S-BR-39	Promote the development of "green streets" throughout the corridor, with an abundance of street trees and areas of landscaping to improve the	Note: Moved from Parks and Open Space section and modified to clarify policy intent.		
		quality and reduce the amount of stormwater	The BelRed Subarea Design Guidelines in the Land		
		runoff, <u>and tobe aesthetically pleasing, and provide</u> an attractive <u>and comfortable pedestrian</u> experience.	Use Code and the BelRed Streetscape Plan provide design guidance and illustrative examples.		
	Interjurisdictional Coordination				
Goal: To provid	e for effective co	pordination and mitigation of impacts that cross jurisdi	ictional boundaries.		
	S-BR-76	Continue to coordinate with the City of Redmond on the planning and implementation of land use and	Note: Removed. Outdated and redundant with policies in Volume 1, which as amended, read:		

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		facilities that have cross-jurisdictional impacts, and work together to mitigate such impacts. Coordination may include but is not limited to systematic sharing of information, joint advocacy for regional investments benefiting the two areas, and financial contributions toward facilities that mitigate interjurisdictional impacts. Discussion: An updated interlocal agreement is an appropriate mechanism for formalizing the terms for coordination between the two cities. Such an agreement should identify appropriate mitigation for the East Bellevue area that considers: 1) the combined effects of land use development in the Bel-Red area of Bellevue and the Overlake area of Redmond; and 2) the strong neighborhood preference to avoid projects that add general north-south capacity through East Bellevue neighborhoods.	TR-98. Coordinate with the Washington State Department of Transportation and with neighboring jurisdictions in the planning, design, construction and maintenance of active transportation facilities that pass through Bellevue as part of a regional system. UT-15. Expand the service area boundaries in cooperation with King County and neighboring jurisdictions. In unincorporated areas, expand the service area only if the land is part of the Potential Annexation Area.
	S-BR-I77	Coordinate with state and regional transportation and transit agencies (WSDOT, Sound Transit and King County Metro) on planning and providing transportation projects and services needed to implement this Subarea Plan.	Note: Redundant with policies in Volume 1, which as amended, read: TR-81. Collaborate with transit service providers to plan for and implement high capacity transit service within Bellevue in a manner that advances the adopted land use vision. TR-98. (see policy above).

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
			TR-109. Encourage the Washington State Department of Transportation to enhance freeway access to serve Downtown Bellevue, Wilburton, BelRed, Eastgate and Factoria. TR-110. Work with state and regional agencies to ensure adequate capacity for both general purpose and high occupancy vehicle traffic on
			state highways.
		Implementation	
Goal: To ensure vision.	e an ongoing and	l effective process, with the right tools available, to resu	lt in effective implementation of the BelRed subarea
S-BR-92	S-BR-78	Implement the Bel-Red Subarea Plan through a combination of development regulations and incentives, capital investments, and other public and private strategies.	
S-BR-93	S-BR-79	Establish a financial strategy that provides Provide for the costs of public infrastructure and amenities needed to support Bel-Red development and identified as specific projects in this Plan by establishing a financing strategy to be borne by various parties based on their relative shares of impacts and benefits. Cause developing properties to contribute the principal share of needed public improvements, to the extent they are the primary beneficiary of such improvements. Implement	Note: Updated to clarify policy intent.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
		existing and new financial tools as needed to carry out this strategy.	
	S-BR-80	Reserve the right-of-way needed for the Bel-Red public infrastructure and amenities identified in this Plan as early as practicable.	Note: Redundant with policies in Volume 1, which as amended, read: UT-7. Base the extension and sizing of system components on the land use plan of the area. System capacity will not determine land use. TR-17. Scope, plan, design, implement, operate, and maintain a complete and multimodal transportation network in accordance with the Performance Metrics, Performance Targets and Performance Management Areas as established in the Mobility Implementation Plan.
S-BR-94	S-BR-81	Allow for private development to voluntarily advance the building of public infrastructure improvements, in order to enable land use to proceed in sync with the availability of needed infrastructure; consistent with the phasing approach set forth in Policy S-BR-4. Such investment may be repaid in part by latecomers agreement or similar device.	Note: Removed outdated reference.

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-95	S-BR-82	Require the dedication and improvement of local streets at the time of development, consistent with Figure S-BR.2, to enable development implementation of frontage improvements and a local street pattern that provides for vehicle access and loading, and improved transportation connectivity including safe and convenient pedestrian crossings.	Note: Removed outdated reference and updated to clarified policy intent.
S-BR-96	S-BR-83	Encourage master planned developments and other processes that better coordinate and integrate this Subarea Plan's objectives rather than individual development of small parcels. Consider mandatory use of master planned development approval for large sites, to facilitate site planning for vehicle access and pedestrian needs.	
	S-BR-84	Encourage business and property owners to support the ongoing development of the Bel-Red area through a business improvement organization.	Note: Removed action, which can be included in a functional plan rather than in a subarea policy plan.
S-BR-97	S-BR-85	Monitor and assess the implementation of the Bel-Red Subarea Plan and make adjustments to assure success of providing affordable housing, parks and open space, a mix of uses, and other aspects of the Bel-Red vision. A review of the implementation of the Bel-Red Subarea Plan should occur approximately five years after the Plan's initial 2009 adoption and periodically thereafter.	

New Number	Old Number	Proposed Policy Amendment	Reason for Change/CPP/Note
S-BR-98		Develop detailed rehabilitation and maintenance	Note: Added to support coordinated and detailed
		plans for the West Tributary, Goff Creek, and	planning for stream corridor improvements in
		Valley/Sears Creek riparian corridors to improve	BelRed.
		water quality, flow control and wildlife habitat as	
		well as to provide increased access/exposure to	
		nature, aesthetic enhancements, and noise	
		attenuation.
