

KELSEY CREEK FARM

Promoting learning opportunities in a farm environment

-

Kelsey Creek Farm provides the community an opportunity to cross the threshold of urban living into an agricultural experience, while maintaining the historic integrity of the farm, through interpretive displays and education. Our programs foster creativity and active play. The Farm's two historical barns sit prominently on the crest of a hill. There is no entrance fee; however, we welcome and appreciate your donations.

When visiting any of Bellevue's parks, all dogs and other pets must be kept on a leash. Out of consideration for our farm animals' health and wellbeing, please observe all posted signs prohibiting pets from the barnyard.

FARM HISTORY

The farm's history began in 1921, when the Duey Family rented 190 acres and began delivering cream and butter stamped with the name Twin Valley Dairy. In August of 1933 the original barn burned. Mr. Duey, a skilled carpenter, along with some hired hands, rebuilt the barn in two weeks. Today, this barn is the smaller of the two barns and is called the Animal Barn. Mr. Duey also built the Red Barn, originally used as a milk house.

The second dairy barn was built in 1943–44 by Mr. Michaels, the new owner, (this is the north barn now known as the Education Barn) and the dairy herd was increased in size. After the end of WWII, he sold the farmstead to Ray and Nettie Fisher. The Fishers phased out the dairy operation and began raising Hereford beef cattle. They built the current farmhouse in 1954 and moved to live on the property. In 1968 neighbors to the farm began a movement to petition the Bellevue City Council to purchase the property and secure it as a public park. The neighbors' petition succeeded, and the city negotiated with the Fisher family to purchase the 80 acres, including the farmhouse, barns and outbuildings. The Fishers sold their farm property to the City at a price much reduced from what they knew that they could get from developers. They did so because they believed in preserving the beauty and legacy of the agricultural buildings and the land.

In 1972 the oldest barn was modified to house an assortment of farm animals for public viewing. The other, larger barn, commonly referred to as the Education Barn, was remodeled inside and used to accommodate a variety of community programs, including children's day camps, art classes, and farm-themed classes, to name just a few.
