

Lower speed limits proposed for Bellevue neighborhoods

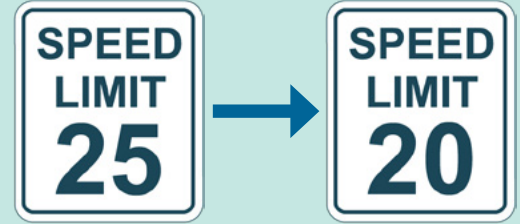

The City of Bellevue is considering lowering the speed limit on most local streets (see map on reverse) from 25 mph to 20 mph.

A lower speed limit encourages people to drive slower, creating a more comfortable environment for people walking and rolling; creates predictable speed limits; and supports the city's Vision Zero efforts. The proposal builds on three previously implemented 20 mph speed limits in Bellevue that decreased high-end speeding.

If advanced, the estimated cost of the project is approximately \$500,000. Funding comes from the Neighborhood Safety, Connectivity and Congestion Levy. The funding includes:

- Replacement of all existing 25 mph (~365) speed limit signs on most local streets with 20 mph speed limit signs, along with replacing sign posts that do not meet current city design standards (~150).
- Installation of additional 20 mph speed limit signs, as funds allow.
- Replacement of existing "25 MPH" pavement marking legends with "20 MPH" legends.

It is estimated that the signs reflecting the speed limit change will be installed in summer 2025 and take effect then.
