Interim Right-of-Way Procedures

Changes published after the January 1, 2025 effective date of the Right-of-Way Procedures Manual

The following is a list of Right-of-Way Procedures that were modified after the January 1, 2025 effective date of the current ROW Procedures Manual published on the city's website. Only changes resulting in a new/modified procedure or process change are included in this list. Minor changes to fix formatting or spelling errors are not included.

If the table below has N/A listed, it is because no substantive modifications have been made as of the last update cycle for this document. Interim changes occurring during the year will be incorporated into the year's summary of changes and fully integrated into the manual.
