(a) Prohibition of Nonemergency Helicopter Landing Facilities

Chair Pro Tem Seal opened the courtesy hearing.

Carol Helland, Development Services Department, provided the staff overview. She stated that the proposed land use code amendment was initiated by City Council to prohibit future nonemergency helicopter landing facilities city-wide. Ms. Helland reviewed the three options considered by City Council and the purpose of this targeted land use code amendment.

In response to Councilmember Kasner, Ms. Helland explained the appeal process and the ultimate approval of the Kemper Development application for a helistop facility on the top of the Bank of America building with conditions. The approval is currently being appealed to Superior Court.

Ms. Helland explained that the current proposed prohibition does not affect the outcome of the Kemper Development helistop. The new proposed legislation is prospective and cannot be applied retroactive. She further explained that at this time she foresees no impact to the Community Council area.

Councilmember Capron recounted the approval process for the Kemper Development helistop, stating an outright prohibition at this time seems extreme.

In response to Councilmember Kasner, Ms. Helland explained the appeal process to Superior Court.

Continuing her response, Ms. Helland noted the City Council's frustration that the current rules governing helistops in the City's Code did not adequately address noise, health and safety impacts.

Ms. Helland stated that the Planning Commission's public hearing on this topic is scheduled for July 13, 2011.

Mr. Kasner stated his concern with the fairness of allowing one such facility and no other.

Ms. Helland stated that Mr. Kasner's concern is shared by the Planning Commission as well.

In response to Mr. Kasner, Ms. Helland explained current code limitations on the number of landings and duration. She stated the most common temporary use permit is for construction purposes such as removal or installation of HVAC units. Such uses are sporadic.
