

CITY COUNCIL AGENDA MEMORANDUM

SUBJECT

Public hearing on proposed Ordinance No. 6156 extending interim zoning controls, adopted by Ordinance No. 6133 B-1, regulating recreational marijuana uses.

FISCAL IMPACT

The fiscal impact of extending Ordinance No. 6133 B-1 for an additional six-month period is anticipated to be minimal. Due to the small number of permits expected, current budget authority will be able to address any unanticipated incremental cost increase. At this time, no material costs are expected.

POLICY CONSIDERATION

An interim zoning ordinance (Ordinance No. 6133 B-1) regulating recreational marijuana is in effect and will expire by its terms on April 21, 2014. The policy issue posed is whether the City Council should extend the interim zoning ordinance for another six-month period by adopting the proposed ordinance, which is included as Attachment C to this memorandum?

BACKGROUND

Procedural Background. At the November 6, 2012, General Election, Washington voters approved Initiative 502 (I-502) legalizing the possession of limited amounts of marijuana. I-502 became effective on December 6, 2012, and is codified into Chapter 69.50 RCW, the state Uniformed Controlled Substances Act. The Washington State Liquor Control Board ("LCB") is the agency tasked with developing and implementing regulations for recreational marijuana producers, processors, and retailers. The LCB published draft rules in the fall of 2013.

At the July 15, 2013 Study Session, staff sought and received direction to develop recommendations for an emergency interim zoning ordinance implementing land use regulations for recreational marijuana producers, processors, and retailers. Based on the LCB's schedule, there was insufficient time for the City to pursue enactment of permanent zoning regulations using the process generally employed under the Land Use Code of delegating consideration of proposed zoning to the Planning Commission for a public hearing and

subsequent recommendation to Council. Instead of this process, the City used the emergency ordinance and interim zoning control processes allowed under the Growth Management Act (“GMA”).

On October 7, 2013, staff presented recommendations to Council in preparation for adoption of an emergency ordinance implementing an interim zoning control. In response to the draft rules and to ensure that the City had appropriate zoning established for recreational marijuana uses, on October 21, 2013, the City Council adopted Ordinance No. 6133 B-1, a copy of which is included as Attachment A. This ordinance implemented an emergency interim zoning control regulating the location of recreational marijuana uses and providing performance standards intended to address impacts related to the operation of recreational marijuana uses. Council subsequently held a public hearing on the ordinance as required under the GMA on December 2, 2013, and extended the ordinance for a six-month period.

On December 2, 2013, Council held the required public hearing and extended the emergency interim zoning control beyond the initial 60-day period for a period of six months as allowed under the GMA. The Council also adopted the planning principles proposed by staff.

The emergency ordinance is limited to periods of up to six months, but it may be renewed for additional six-month periods provided that Council holds a public hearing within 60-days of each subsequent extension. The emergency ordinance regulating recreational marijuana producers, processors, and retailers will expire by its terms on April 24, 2014, unless Council extends the regulations for an additional six-month period and holds the required public hearing.

Status of LCB’s Issuance of Recreational Marijuana Licenses

The LCB issued a press release on February 19, 2014 clarifying the next steps in preparation to issue recreational marijuana licenses. The LCB will first issue producer and processor licenses to ensure there is recreational marijuana available when the retail stores receive their licenses and are ready for operation. At the close of the 30-day application window on December 20, 2013, LCB had received over 2,800 applications for marijuana production. Many of the applications were for more than one producer license. If LCB issued licenses to all the applicants, such action would far exceed the production required to meet the projected demand. In response, the LCB is initially limiting the number of producer licenses to only one per applicant and is also limiting the amount of production to 70% of the production requested by the applicant.¹ According to the LCB, it will begin issuing producer and processor licenses in March, and expects retail stores to open for business this summer.²

Extending the Interim Regulations is Warranted.

Extending the interim regulations is warranted for several reasons, primarily because the Washington State Liquor Control Board has not issued any recreational marijuana licenses; therefore the efficacy of the interim zoning control is unknown. Additionally, there is still some uncertainty regarding what action the legislature may take on pending bills regarding recreational marijuana regulation and medical cannabis during the 2014 legislative session.³ Until there is consistency and clarity regarding the regulation of marijuana in Washington additional time to study and consider the issue is warranted. Moreover, allowing the interim

¹ LCB established three tiers of production that varies by the amount of square footage of plant canopy the licensee is allowed to produce: Tier 1: <2,000 square feet; Tier 2: 2,000 to 10,000 square feet; and Tier 3: 10,000 to 30,000 square feet.

³ The last day of the 2014 legislative session is March 13. Study session materials are prepared well in advance of the scheduled Council meeting and therefore do not reflect final legislative and gubernatorial action.

zoning ordinance to expire would leave recreational marijuana uses unregulated in Bellevue, which may lead to the establishment of unregulated uses and associated unintended consequences.

The City may extend the interim zoning ordinance, under the GMA only if Council first holds a public hearing to accept and consider public comment and testimony. The public hearing scheduled for this evening satisfies this requirement. Following the hearing, Council may adopt an extension for a period of up to six months. Council must also adopt findings of fact supporting the extension, which are included in Attachment C. Depending on legislative action to amend I-502 and the Medical Cannabis Act or the Planning Commission's work load, it may be necessary to extend the interim zoning ordinance for an additional six-month period, which would require Council to hold a public hearing on or before October 21, 2014.

ALTERNATIVES

1. Hold the public hearing and adopt proposed Ordinance No. 1056 renewing Ordinance No. 6133 B-1 for an additional six-month period; or
2. Do not adopt proposed Ordinance No. 6156, and allow the existing interim zoning ordinance to expire on April 21; or
3. Provide alternative direction to staff.

RECOMMENDATION

Hold the public hearing and extend the interim zoning ordinance for an additional six months, by adopting proposed Ordinance No. 6156.

MOTIONS

1. Move to open the public hearing for comments on renewing the interim zoning ordinance regulating recreational marijuana uses.
2. Move to close the public hearing and the record on the interim zoning ordinance.
3. Move to adopt Ordinance No. 6156.

EFFECTIVE DATE

If approved, Ordinance No. 6156 becomes effective on April 21, 2014.

CITY OF BELLEVUE, WASHINGTON

ORDINANCE NO. 6133 B-1

WHEREAS, Washington votes approved Initiative 502 (I-502) on November 6, 2012. WHEREAS, the LCB re-filed its proposed rules regulating recreational marijuana uses on September 4, 2013, and accepted the proposed rules on October 16; and

WHEREAS, the LCB rules become effective on November 16, 2013, and the LCB will begin accepting license applications for recreational marijuana beginning November 18, 2013. Applicants will be required to identify a business location with their application submittals; and

WHEREAS, the LCB allocated four recreational marijuana retail licenses for the City of Bellevue, and there are no limits on the number of recreational marijuana producer and processor licenses to be issued; and

WHEREAS, the City Council deems it to be in the public interest to establish interim regulations advising the public where recreational marijuana producers, processors, and retail uses may be located in the City of Bellevue before the application deadline established by the LCB for state licensing for such uses; and

WHEREAS, the establishment or licensing of recreational marijuana uses may allow new uses that are incompatible with nearby existing land uses and lead to erosion of community character and harmony; and

Option B-1

WHEREAS, marijuana is still classified as a schedule I controlled substance under federal law and crimes related to marijuana remain subject to prosecution under federal law; and

WHEREAS, On August 29, 2013, the United States Department of Justice, Office of the Attorney General, ("DOJ") released updated guidance regarding marijuana enforcement. The guidance reiterates that DOJ is committed to using its limited investigative and prosecutorial resources to address the most significant threats to public safety related to marijuana crimes in "the most effective, consistent, and rational way." The guidance directs federal prosecutors to review potential marijuana-related charges on a case-by-case basis and weigh all information and evidence, including whether the operation is demonstrably in compliance with a strong and effective state regulatory system and if the conduct at issue implicates one or more of the eight stated federal enforcement priorities. The DOJ appears to not differentiate application of the guidance between medical cannabis and recreational marijuana; and

WHEREAS, pursuant to RCW 36.70A.390 a public hearing must be held within 60 days of the passage of this ordinance; and

WHEREAS, establishment of interim regulations of six months in duration for establishment of recreational marijuana producers, processors, and retailers will prevent substantial change until the land areas and the text of development standards applicable to recreational marijuana uses is reviewed, and any needed revisions are made to city codes; and

WHEREAS, the potential adverse impacts upon the public safety, welfare, and peace, as outlined herein, justify the declaration of an emergency; now therefore,
