## Sound Wall Construction

### When

Anticipated start, week of Monday, May 14<sup>th</sup>

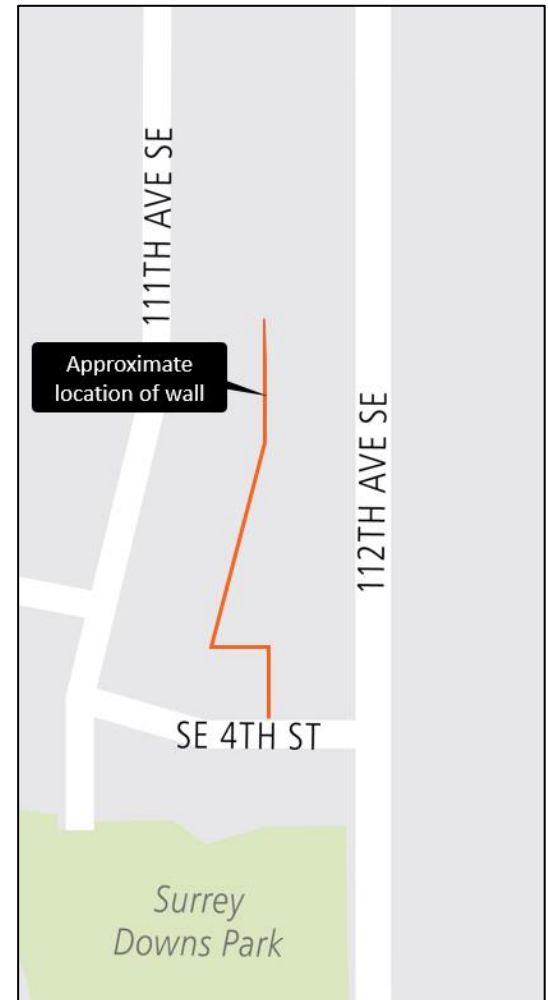

### What to expect

Sound Transit's contractor plans to start construction of the sound wall between your property and the light rail alignment.

- › Grading and construction of the slope between the light rail guideway and wall, followed by excavation for the footing is currently scheduled to begin on May 14th
- › Installation of rebar and pouring concrete for the footing is scheduled to follow during the week of May 29th (no work on Memorial Day)
- › Installation of the prefabricated wall panels is currently scheduled to begin in early June
- › Final grading and restoration is expected to follow in July/August.

### Stay informed

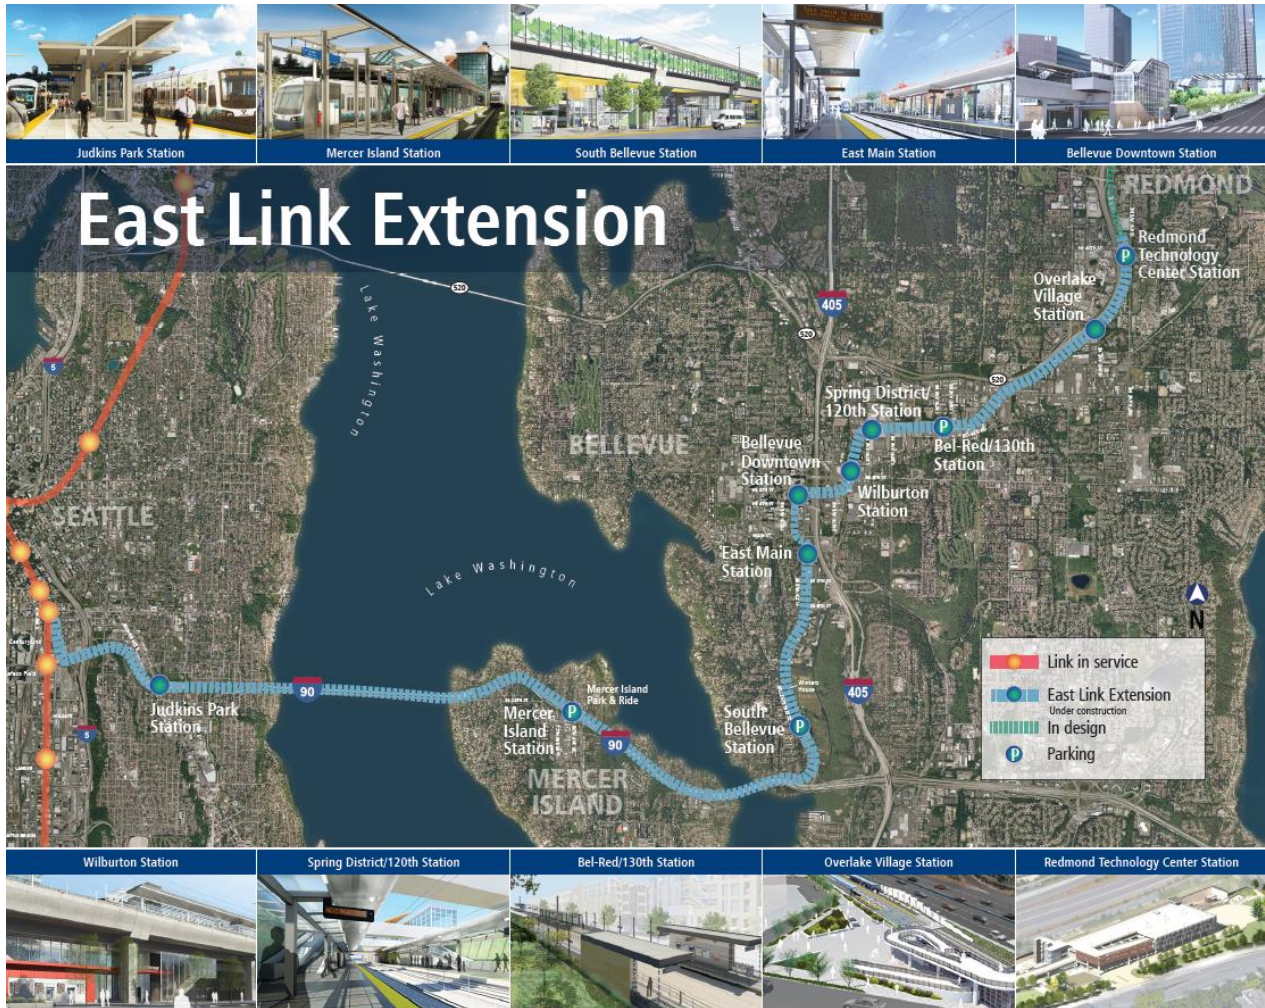

- › **For issues that need immediate attention** after normal business hours, call Sound Transit's 24-hour Construction Hotline at 888-298-2395.
- › **For non-emergency questions**, call 206-398-5000 or 1-800-201-4900 / TTY relay 711 or email [eastlink@soundtransit.org](mailto:eastlink@soundtransit.org).

East Link Extension is a key element of the regional mass transit system approved by voters in 2008. This 14-mile light rail line will benefit local communities and support regional growth with fast, frequent and reliable light rail service, connecting Seattle to the Eastside's biggest population and employment centers. The project builds on the Central Link light rail system running between Angle Lake and University of Washington. East Link is part of the new light rail extensions being built north, south and east from Seattle.

To speak with Sound Transit about the proposed Link light rail mass transit project in East King County call 1-800-823-9230 during regular business hours.
