

AGENDA

BELLEVUE TRANSPORTATION COMMISSION TRANSIT MASTER PLAN WORKSHOP

Capital Oriented Strategies and Measures of Effectiveness

Thursday, October 17, 2013

*7:00 P.M. – 9:00 P.M.

***Note time change*

****Location: Bellevue City Hall, Conference Room 1E-109; 450 110th Ave NE, Bellevue, WA**

***Note conference room change*

AGENDA

1. Welcoming Comments

Ernie Simas, Chair, Transportation Commission

2. Presentation on Transit Master Plan Draft Capital Oriented Strategies & Measures of Effectiveness

Franz Loewenherz, Senior Transportation Planner, will provide Transportation Commission members - and members of other boards and commissions - with a status report on the Transit Master Plan.

3. Commission & Board Commission Discussion

Staff will invite Transportation Commissioners – and members of other boards and commissions – to review/amend a set of draft *capital-oriented* strategies that can be paired with the *service-oriented* strategies outlined in the [Market Driven Strategies Report](#) (approved by the Bellevue City Council on May 20, 2013) to support Council's "Abundant Access" vision statement.

4. Next Steps

Bellevue staff will make refinements to the draft capital-oriented strategies and measure of effectiveness based on feedback from the October 17 Transportation Commission meeting. An updated version of this language will be presented to the Transportation Commission for consideration and approval at its November meeting.

Note:

The October 17 meeting is the first in a series of targeted Commission discussions aimed at supporting the Capital and Policy Element of the Transit Master Plan (TMP). Per Council direction, members of the Planning Commission, Human Services Commission, Arts, and Parks and Community Services Board are invited to attend all staff briefings on the TMP to the Transportation Commission. Any member from a board and commission is welcome to participate in these discussions.
