

## EXPANDED VISITOR CENTER

- Three building campus would total approximately 8,150 square feet.
- Designed to retain the residential character of the Garden and its surroundings.
- The Short's House would remain as-is, serving much as it does today, as an informal gathering place with a small library.
- A visitor services center would be located at the main public entry point, and serve as the main gathering place for orientation, interpretation, and gath ering place for garden tours.
- An education center would serve educational and administrative functions. This facility would include an outdoor patio area to complement the meeting/classroom space and provide flexibility for programming needs.
