

Better Together

Neighborhood Association/Community Club Registration Form

The City of Bellevue has no formal requirements to be a recognized Neighborhood Association or Community Club. Neighborhood Associations and Community Clubs have self-defined boundaries and both formal and informal structures throughout the City. Groups focus in many different areas including community connection, advocacy, education, crime and safety, neighborhood improvement and other issues relevant to neighborhoods.

The City encourages your group to register so that we have an official neighborhood contact. This helps us keep your group informed about major City initiatives, neighborhood programs, specific neighborhood issues and community building opportunities.
