This is it. You're about to walk into a memory. Soaring 520 feet skyward. The city, really, truly at your feet. Step up. Step out. Step beyond your comfort zone. And experience wonder on a higher level. Seattle's "must see" is now a "must do" following the Space Needle's multi-million-dollar renovation. Glide onto The Loupe, the world's first and only rotating glass floor, for never-before-seen views of the structure and the city. Lean into our Skyrise's, the tilting glass walls on the open-air deck, and float over Seattle on one of the 24 angled vantage points. Sip and sample the Pacific Northwest's best while savoring the thrilling views. (The centerpiece of Chihuly Garden and Glass is the Glasshouse. A 40-foot tall, glass and steel structure covering 4,500 square feet of light-filled space, the Glasshouse is the result of Chihuly's lifelong appreciation for conservatories. The installation in the Glasshouse is an expansive 100-foot long sculpture in a color palette of reds, oranges, yellows and amber. Made of many individual elements, it is one of Chihuly's largest suspended sculptures. The perception of the artwork varies greatly with natural light and as the day fades into night.
