

CONSTRUCTION ALERT

January 2019

NE Spring Boulevard Multi-modal Street Connection: 116th to 120th Avenues NE

PROJECT DESCRIPTION

The Bellevue Transportation Department is widening NE 12th Street to six lanes at 116th Avenue NE, connecting to a new intersection NE Spring Boulevard, just west of the Eastside Rail Corridor. Also, the pedestrian and bicycle path on the NE 12th Street bridge over I-405 will be extended to NE Spring Blvd. This work is the latest phase of construction for NE Spring Boulevard, a new multi-modal, east-west corridor through BelRed extending from NE 12th Street to 136th Place NE.

CONSTRUCTION AREA

On NE 12th Street between 116th Ave. NE and the bridge over the Eastside Rail Corridor. (See map on reverse side.)

WHAT TO EXPECT AND WHEN

Construction will start in early February 2019 and include survey work, contractor equipment set up and erosion control. Minimal traffic control on the street is expected.

In late February, work will begin to prepare for the lane widening, including the removal or vegetation, sidewalk and curbing on the north side of NE 12th Street. The westbound curb lane will be closed 24 hours/7 days a week for approximately five months, leaving one westbound travel lane. Construction schedules may change.

The project is scheduled for completion in late 2019-early 2020.

FUNDING

Construction funding comes from the 2017-2023 Capital Investment Program and a \$5.5 million federal Surface Transportation Program (STP) grant through the Puget Sound Regional Council and Federal Highway Administration.

Thank you for your patience during construction and for being safe near the work zone.
