

Weowna Park Trails

2.5 Miles

This spectacular 90-acre open space offers miles of peaceful hiking trails through towering remnants of old growth forest with views of Lake Sammamish and the Cascade Mountains. Phantom Creek descends through the park to Lake Sammamish, creating a series of picturesque waterfalls and pools, through a deep ravine that was restored using bio-engineering techniques. This park is also the eastern end of the Lake to Lake Trail.

To reach the trailhead:

P 565 West Lake Sammamish Parkway SE

P  Lake Hills Park, 1200 164th Ave SE
